Addiction | Psychology Today

A person with an addiction uses a substance, or engages in a behavior, for which the rewarding effects provide a compelling incentive to repeat the activity, despite detrimental consequences.

Drug Abuse and Addiction - HelpGuide.org

Drug abuse and addiction is less about the type or amount of the substance consumed or the frequency of your drug use, and more about the consequences of that drug use. If your drug use is causing problems in your life—at work, school, home, or in your relationships—you likely have a drug abuse or addiction problem.
