HAVE YOU TRULY BEEN BORN AGAIN OF WATER AND THE SPIRIT?-Paul C. Jong 2020-03-02 This title's main subject is "to be born again of Water and the Spirit." It has the originality on the subject. In other words, this book clearly tells us what being born again is and how to be born again of water and the Spirit in strict accordance with the Bible. The water symbolizes the baptism of Jesus at the Jordan and the Bible says that all our sins were passed on to Jesus when He was baptized by John the Baptist. John was the representative of all mankind and a descendant of Aaron the High priest. Aaron laid his hands on the head of the scapegoat and passed all the yearly sins of the Israelites on the Day of Atonement. It is a shadow of the good things to come. The baptism of Jesus is the antitype of the laying on of hands. Jesus was baptized in the form of the laying on of hands at the Jordan. So He took away all the sins of the world through His baptism and was crucified to pay for the sins. But most Christians don't know why Jesus baptized by John the Baptist in the Jordan. Jesus' baptism is the keyword of this book, and the indispensable part of the Gospel of Water and the Spirit. We can be born again only by believing in the baptism of Jesus and His Cross.

7 Dimensions of Water and Spirit-Gemma Valentine 2016-05-22 Seven is such an important number. It means finished, completed, rest. In this lesson we are exploring the seven levels of water and spirit, with an excerpt on the kingdom of water. We begin with the history of water, and the many historical uses and purposes of water; to do so we had to study biblical history where we found what occurred in the beginning. This historical study reveals that there were seven levels of water. Mist, dew, rain, wells, rivers, waters of the atmosphere, waters of the deep and the underworld. These levels of water also relate to the seven manifestations of the spirit. This information is a source of revelation, inspiration and study for readers.

The Spiritual Life of Water-Alick Bartholomew 2010-11-18 Water’s wisdom on renewal, communication, and holism • How water, as a conscious organism, unites all of creation in one vast communication network • Includes the research of Masaru Emoto and Viktor Schauberger • Discusses the energetics of water, water treatments, finding the best-quality water, and the perils of bottled and distilled water Once held sacred the world over, water contains a wisdom few today acknowledge. Driving everything from our metabolic processes to weather patterns and climate change, its real significance lies in its role as a medium for

metamorphosis, recycling, and exchanging energy and information. Seeking a return to our ancestors’ reverence for water, Alick Bartholomew explores water’s sacred uses, its role in our bodies and environment, and the latest scientific studies to reveal that water is a conscious organism that is self-creating and self-organizing. Examining new discoveries in quantum biology, he shows how water binds all of life into one vast network of energy, allowing instant communication and coherence. Covering the research of water visionaries such as Viktor Schauberger, Mae-Wan Ho, and Masaru Emoto, he examines the memory of water and reveals how the same water has been cycling through Earth’s history since the dawn of time, making water nature’s greatest recycling and reclaiming agent. With information on the energetics of water, water treatments, finding the best-quality water, and the perils of bottled and distilled water, this book offers us a path to reclaim the spirituality of water.

The Spirit of Dialogue-Aaron T. Wolf 2017-09-14 We tend to approach conflict from the perspective of competing interests. A farmer's interest lies in preserving water for crops, while an environmentalist's interest is in using that same water for instream habitats. It's hard to see how these interests intersect. But what if there was a differway to understand each party's needs? Aaron T. Wolf has sphis career mediating such conflicts, both in the U.S. and around the world. He quickly learned that in negotiations, people are not automatons, programed to defend their positions, but are driven by a complicated set of dynamics—from how comfortable (or uncomfortable) the meeting room is to their deepest senses of self. What approach or system of understanding could possibly untangle all these complexities? Wolf's answer may be surprising to Westerners who are accustomed to separating religion from science, rationality from spirituality. Wolf draws lessons from a diversity of faith traditions to transform conflict. True listening, as practiced by Buddhist monks, as opposed to the "active listening” advocated by many mediators, can be the key to calming a colleague's anger. Alignmwith an energy beyond oneself, what Christians would call grace, can change self-righteousness into community concern. Shifting the discussion from one about interests to one about common values—both farmers and environmentalists share the value of love of place—can be the starting point for real dialogue. As a scientist, Wolf engages religion not for the purpose of dogma but for the practical process of transformation. Whether atheist or fundamentalist, Muslim or Jewish, Quaker or Hindu, any reader involved in difficult dialogue will find concrete steps towards a meeting of souls.

Water as an Image of the Spirit in the Johannine Literature-Seung-In Song 2019 "The central aim of this book is to propose two sets of indicators. One is related to deciding when water imagery in the Johannine literature represents the Spirit. The other is related to determining whether or not instance of water imagery has a symbolic level of meaning instead of or in addition to its literal meaning. For the former I identified five indicators: (1) the water is given by Jesus; (2) the giving of water is linked to Jesus' crucifixion; (3) the water involves parallels to OT passages relating to the Spirit; (4) the presence of suggestive vocabulary in close connection with the Spirit; and (5) the Spirit is mentioned in the immediate context. For the latter I discerned six indicators: (1) whether the water or water-related imagery makes sense literally; (2) whether the proposed interpretation (literal or symbolic) coheres well with its immediate context; (3) whether other symbolic expressions are present; (4) whether water is highlighted in the narrative in which it belongs; (5) whether relatively detailed geographic or chronological information is present in the immediate context; and (6) whether vocabulary suggesting the use of symbols is present. The validity of these indicators was proved by applying them to six disputed water passages (1 John 5:6-8, Rev. 22:1-2, John 3:5, 4:10-14, 6:35 and 19:34)"--

Sober Intoxication of the Spirit-Raniero Cantalamessa 2005 These are not drunk, as you suppose... (Acts 2:15). —Peter preaching to the crowd after the descent of the Holy Spirit at Pentecost We tend to overlook Peter's opening words to the crowd that first Pentecost morning, to our own peril. His denial of drunkenness in the wake of the outpouring of the Holy Spirit should stop us in our tracks. What was going on here? How did the apostles experience the Holy Spirit? What was he teaching them? How was he empowering them? What does this scene in the streets of Jerusalem mean for us today? Father Raniero Cantalamessa offers pastoral advice and leads the reader through passages of Scripture and the Fathers of the Church to remind us of the incalculable power of the Spirit available to us. This spiritual "intoxication" is an infilling—through the sacraments, especially the Eucharist, and the action of God—that purifies us of sin, renews the heart and enlightens the mind. As St. Augustine said of the Spirit, "He found you empty and he filled you...I like this kind of intoxication. The Spirit of God is both drink and light."

Born of Water, Born of Spirit-Sheryl A. Kujawa-Holbrook 2010-04-07 What does the church look like if we take the ministry of the baptized the priesthood of all believers seriously? How are congregations transformed when the church supports and affirms the ministry of all the baptized, particularly in small congregations without the means to hire a seminary-trained pastor? And what ecclesial structures and educational models need to emerge in the next decades to assist these small congregations in the recovery of baptismal living and their own vitality? Sheryl Kujawa-Holbrook and Fredrica Harris Thompsett explore these questons as well as the variety of ways people in small congregations many with no more than fifty members are living out their baptism and the impact their actions are having on their congregations, judicatories, and communities, and the institutions that educate clergy. The authors argue that just because a community cannot pay a seminary-trained minister, a growing problem in remote regions, it does not mean that there is no ministry there. It does mean that we need to look at ministry and the church in a more expansive way. The stories of the congregations revealed in this book serve to inspire us about what is possible when we live intentionally as the reconciling presence of the body of Christ in the world. They also educate us about what will be needed in the years to come to lift up still more small congregations for their work in the larger community.

Ritual and Symbol in Peacebuilding-Lisa Schirch 2005 * Serves as a guide to using ritual acts in peacebuilding efforts * Abundant with examples of symbolic acts that aided the peace process Conflict is dramatic. In theater, literature, story telling, and news reporting, it is a powerful mechanism that draws attention, heightens

the senses and evokes emotion. Schirch argues that peacebuilding has the potential to do just the same. Examples of peacebuilding often center on the serious, rational negotiations and formal problem-solving efforts in conflict situations. Schirch argues, though, that what truly bonds adversaries and helps achieve peace are the symbolic, non-verbal ritual acts--shaking hands, sharing a meal, showing a photograph of a loved one. Yet these are often overlooked as deliberate components of peace negotiations. Ritual and Symbol in Peacebuilding underscores the importance of incorporating symbolic tools, including ritual, into traditional approaches to conflict. Ritual assists in solving complex, deep-rooted conflicts, and helps to confirm and transform worldviews, identities, and relationships. With theories and language to explain the symbolic dimensions of conflict, this text will be useful to scholars and practitioners active in the diverse field of peacebuilding.

Augustine's Text of John-H. A. G. Houghton 2008-09-04 What sort of Bible did Augustine have? How did he quote from it - and was he accurate? Do Augustine's biblical citations transmit readings not found in any surviving manuscripts? This book is part of a major project on the Old Latin versions of the Gospel according to John, and uses Augustine as a test-case to examine the importance of the evidence provided by the Church Fathers for the text of the Gospels. The early history of the Latin Bible is reconstructed from Augustine's comments in his treatise De doctrina christiana (On Christian teaching). Details are assembled from sermons, letters, and other writings to show how Augustine and his contemporaries used the Bible in the liturgy of the Church, public debates, and in composing their own works. Augustine's own methods of citing the Bible are analysed, and features are identified which are characteristic of citations produced from memory rather than read from a gospel codex. The second part of the book is a chronological survey of the biblical text in Augustine's works, showing how he switched from using the older versions of the Gospel to the revised text of Jerome, which later became known as the Vulgate. Finally, a verse by verse commentary is provided on all the significant readings in Augustine's text of John, assessing their significance for the history of the Latin Bible, and in some cases the Greek tradition as well. Details are also given of Augustine's exegesis of particular verses of the Gospel, making this an indispensable handbook for biblical scholars and church historians alike.

Wind, Water, and Fire-Nikolas Larum 2018-03-21 The Persons of the Godhead are known by familial terms: God the Father, God the Son, and God the Holy Spirit. God the Holy Spirit? What part of the family tree is that? "Father" we understand. The term is full of emotional imprint and real life imagery. "Son" is equally comprehensible. "Spirit," however, leaves us grasping the air in our attempt to relate to Him. How do you hug a spirit? In painting a picture of Himself, the Holy Spirit wasn't content to be cast in singular hues. He has far too many dimensions to His personality for monochromatic expressions to do Him justice. His infiniteness required symbolic language that on the surface appears contradictory but in actuality works to provide us a glimpse of the breadth, length, depth, and height of His Being. Thus, He is wind and cloud, water and fire, oil and lamp, dove and eagle, to name a few. It is through this language of symbol that we are enabled to begin to grapple with the Third Person of the Trinity. How do you hug a spirit? Better to ask how the Spirit hugs you. It is my earnest hope and desire that you feel His embrace as you read this work. Includes illustrations, bibliography, and Scripture index.
