The Big Archive-Sven Spieker 2017-03-03 The archive as a crucible of twentieth-century modernism and key for understanding contemporary art. The typewriter, the card index, and the filing cabinet: these are technologies and modalities of the archive. To the bureaucrat, archives contain little more than

garbage, paperwork no longer needed; to the historian, on the other hand, the archive's content stands as a quasi-objective correlative of the "living" past. Twentieth-century art made use of the archive in a variety of ways-- from what Spieker calls Marcel Duchamp's "anemic archive" of readymades and El Lissitzky's Demonstration Rooms to the compilations of photographs made by such postwar artists as Susan

Hiller and Gerhard Richter. In *The Big Archive*, Sven Spieker investigates the archive--as both bureaucratic institution and index of evolving attitudes toward contingent time in science and art--and finds it to be a crucible of twentieth-century modernism. Dadaists, constructivists, and Surrealists favored discontinuous, nonlinear archives that resisted hermeneutic reading and ordered presentation. Spieker argues that the use of archives by such contemporary artists as Hiller, Richter, Hans-Peter Feldmann, Walid Raad, and Boris Mikhailov responds to and continues this attack on the nineteenth-century archive and its objectification of the historical process. Spieker considers archivally driven art in relation to changing media technologies--the typewriter, the telephone, the telegraph, film. And he connects the archive to a particularly modern visuality, showing that the avant-garde used the archive as something of a laboratory for experimental inquiries into the nature of vision and its relation to time. *The Big*

Archive offers us the first critical monograph on an overarching motif in twentieth-century art.

LIBRARY In Valeria Luiselli's
fiercely imaginative novel, a
mother and father set out
with their two children, a boy
and a girl, driving from New
York to Arizona in the heat of
summer. As the family travels
west, through Virginia to
Tennessee, across Oklahoma
and Texas, the bonds between
them begin to fray: a fissure is
growing between the parents,
one the children can almost
feel beneath their feet.
Through songs and maps and
a Polaroid camera's lens, the
children try to make sense of
both their family's crisis and
the larger one engulfing the
news: the stories of thousands
of kids trying to cross the
southwestern border into the
United States but getting
detained--or lost in the desert
along the way. A breath-
taking feat of literary
virtuosity, *Lost Children*
Archive is timely,

compassionate, subtly
hilarious, and formally

story about what it is to be
human in an inhuman world.

**Training Days: The Subway
Artists Then and Now-**
Henry Chalfant 2014-10-14
Authentic first-person
accounts from the graffiti
artists whose creative genius
fueled the movement from its
beginning in late 1970s and
early 1980s New York Late
1970s New York City was
bankrupt and its streets dirty
and dangerous. But the city
had a wild, raw energy that
made it the crucible for the
birth of rap culture and
graffiti. Graffiti writers
worked in extremely tough

conditions: uncollected garbage, darkness, cramped spaces, and the constant threat of police raids, assault by security staff and attacks by rival crews. It was not unlike practicing performance art in a war zone. Yet during the fertile years of the late 1970s and 1980s they evolved their art from stylized signatures to full-blown Technicolor dreamscapes. Henry Chalfant created panoramic images of painted trains by photographing overlapping shots along the train's length. It took time to earn the writers' trust and respect, but Chalfant became their revered confidant and with Tony Silver went on to produce the classic documentary film *Style Wars* (1983). Through a series of interviews conducted by Sacha Jenkins, we hear the voices of these characters of old New York. Quite a few of the original writers are no longer with us, but those who have survived have continued to push the envelope as artists and individuals in a new millennium. The stories they tell, included here alongside iconic, raw photographs of their work, will enthrall

graffiti fans everywhere.

Challengers, Competition, and Reelection

-Jonathan S. Krasno 1997-02-01

Why do US Senators have a harder time winning re-election than members of the House of Representatives? This text argues that Senate challengers are more likely to be experienced politicians who wage intense, costly media campaigns than are those who take on House incumbents.

Ilya Kabakov-Amei Wallach 1996 This is the first comprehensive monograph on an important contemporary artist, one who has come to represent the Russian avant-garde in the post-Stalinist era much in the way that Joseph Beuys was a stimulus for European art after World War II. In her fascinating text, Amei Wallach draws on extensive research and interviews with Kabakov and his circle over the past eight years, and puts the work in the context of the artist's life and the social, historical, cultural, and political forces that have shaped it - from his boyhood during Stalin's regime, to his obligatory career as a children's book illustrator in the official Artists' Union, to his involvement in Moscow's furtive and fertile underground avant-garde of artists and writers, to his more recent travels in the international art circuit. This groundbreaking volume also includes an introduction by Robert Storr, a curator in the Department of Painting and Sculpture at the Museum of Modern Art in New York, and

commentaries by the artist himself that accompany the 290 illustrations, including paintings, drawings, albums, and sketches and photographs of installations.

Dark Archives-Megan Rosenbloom 2020-10-20 On bookshelves around the world, surrounded by ordinary books bound in paper and leather, rest other volumes of a distinctly strange and grisly sort: those bound in human skin. Would you know one if you held it in your hand? In Dark Archives, Megan Rosenbloom seeks out the historic and scientific truths

behind anthropodermic bibliopeggy—the practice of binding books in this most intimate covering. Dozens of such books live on in the world’s most famous libraries and museums. Dark Archives exhumes their origins and brings to life the doctors, murderers, innocents, and indigents whose lives are sewn together in this disquieting collection. Along the way, Rosenbloom tells the story of how her team of scientists, curators, and librarians test rumored anthropodermic books, untangling the myths around their creation and reckoning with the ethics of their custodianship. A librarian and journalist, Rosenbloom is a member of The Order of the Good Death and a cofounder of their Death Salon, a community that encourages conversations, scholarship, and art about mortality and mourning. In Dark Archives—captivating and macabre in all the right ways—she has crafted a narrative that is equal parts detective work, academic intrigue, history, and medical curiosity: a book as rare and thrilling as its subject.

More Than Words-Liza Kirwin 2005-10-27 "Words speak volumes, but, as every letter writer knows, there are times when they simply won't do. When the author happens to be a visual artist, he has an added advantage - one that transforms ordinary stationery into a canvas. This book chronicles those occasions when words were not enough, and some of America's most revered artists turned their talents to illustrating their most intimate thoughts and feelings. Writing to wives, lovers, friends, patrons, clients, and confidants, premiere artists such as Frederick Edwin Church, Thomas Eakins, Winslow Homer, Andrew Wyeth, Rockwell Kent, Lyonel

Feininger, John Sloan, Alfred Frueh, Man Ray, Alexander Calder, Dorothea Tanning, Gio Ponti, Andy Warhol, and Frida Kahlo picture the world around them in charming vignettes, caricatures, portraits, and landscapes. Together, the words and images of these autobiographical works of art, created for private consumption, reveal the joys and successes, loves and longings, triumphs and frustrations of their distinguished authors' personal lives and professional careers."--Jacket.

The English Fair-David Kerr Cameron 1998 This comprehensive and readable new study examines a long-neglected subject and its impact on trade and everyday lives. Based not only on wide exploration of local sources, museum and library archives, but also on extended interviews with old farmers and dealers, the book traces the fair's history from early Saxon times to the present day, examining why today's fairs are based purely on entertainment rather than trade. David Kerr Cameron traces the fair's history from its lowly beginnings in the ancient landscape, through its periods of growth under the patronage of the Church and the granting of royal charters and its eventual transformation into the all-important livestock and

specialist events of the regions.

The media archive-
Foundation For Advancement Adilkno 1998-03 From the Amsterdam-based Foundation for Advancement of Illegal Knowledge. Media are not carriers of cultural or ideological values. Rather than transporting messages, they form a parallel world of their own. Media see the world as raw material for their own project, nothing else. Sifting through the archive of critical textual studies, "Media Archive" speeds past hermeneutics, semiotics, deconstruction, "culture studies, " etc. -- past Derrida and Baudrillard and Theweleit -- to explore a new archive, one that "stumble(s)

blindly into the postmedial world's state of uncertainty ... without bitterness or nostalgia."

Performing the Archive-
Simone Osthoff 2009 Instead of smoothing over contemporary art's violent and iconoclastic dimensions, instead of sanitizing and making complex artworks docile in terms of archival possibilities, this book suggests we abandon our fantasy of mastery over representation and respond in kind to the archive-as-artwork, to "living" archives, and to reenactments of history with their seamless connections between fiction and non-fiction. Among the concepts examined are Vilém Flusser's techno-imagination, Lygia Clark's and Hélio Oiticica's participatory aesthetics, and Paulo Bruscky's and Eduardo Kac's literal performances of the archive. They contribute to the erosion of the archive's former boundaries, stability, function, and meaning. Writing alongside the artists as much as about them, Osthoff examines the archive

mise-en-abyme, as it grows increasingly recombinant and generative. Simone Osthoff received her Ph.D. from the European Graduate School and is Associate Professor of Critical Studies in the School of Visual Arts at Pennsylvania State University. An art critic and historian of contemporary art, her numerous essays, focusing on media art practices and issues of historiography, have been published internationally and translated into over eight languages.

The Wisdom of Crowds-

James Surowiecki 2005-08-16
In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics,

artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.
