Feminist Theory-bell hooks 2014-10-03 When *Feminist Theory: From Margin to Center* was first published in 1984, it was welcomed and praised by feminist thinkers who wanted a new vision. Even so, individual readers frequently found the theory "unsettling" or "provocative." Today, the blueprint for feminist movement presented in the book remains as provocative and relevant as ever. Written in hooks's characteristic direct style, *Feminist Theory* embodies the hope that feminists can find a common language to spread the word and create a mass, global feminist movement.

Feminist Theory from Margin to Center-South End Press 1984 Eagerly awaited new volume in the South End Press Classics series, with a new Preface by hooks.

Diversity among Architects-Craig Wilkins 2016-03-10 *Diversity among Architects* presents a series of essays questioning the homogeneity of architecture practitioners, who remain overwhelmingly male and Caucasian, to help you create a field more representative of the population you serve. The book is the collected work of author Craig L. Wilkins, an African American scholar and practitioner, and discusses music, education, urban geography, social justice, community design centers, race-space identity, shared landscape, and many more topics.

Ain't I a Woman-bell hooks 2014-12-17 A classic work of feminist scholarship, *Ain't I a Woman* has become a must-read for all those interested in the nature of black womanhood. Examining the impact of sexism on black women during slavery, the devaluation of black womanhood, black male sexism, racism among feminists, and the black woman's involvement with feminism, hooks attempts to move us beyond racist and sexist assumptions. The result is nothing short of groundbreaking, giving this book a critical place on every feminist scholar's bookshelf.

Rock My Soul-bell hooks 2003-01-01 World-renowned scholar and visionary bell hooks takes an in-depth look at one of the most critical issues of our time, the impact of low self-esteem on the lives of black people. Without self-esteem everyone loses his or her sense of meaning, purpose, and power. For too long, African Americans in particular have been unable to openly and honestly address the crisis of self-esteem and how it affects the way they perceive themselves and are perceived by others. In her most challenging and provocative book to date, bell hooks gives voice to what many black people have thought and felt, but seldom articulated. She offers readers a clear, passionate examination of the role self-esteem plays in the African-American experience in determining whether individuals or groups succeed or self-sabotage. She considers the reasons why even among "the best and

brightest" students at Ivy League institutions "there were young men and women beset by deep feelings of unworthiness, of ugliness inside and outside." She listened to the stories of her students and her peers -- baby boomers who had excelled -- and heard the same sentiments, including deep feelings of inadequacy. With critical insight, hooks exposes the underlying truth behind the crisis: it has been extremely difficult to create a culture that promotes and sustains a healthy sense of self-esteem in African-American communities. With true brilliance, she rigorously examines and identifies the barriers -- political and cultural -- that keep African Americans from emotional well-being. She looks at historical movements as well as parenting and how we make and sustain community. She discusses the revolutionary role preventative mental health care can play in promoting and maintaining self-esteem. Blending keen intellectual insight and practical wisdom, *Rock My Soul* provides a blueprint for healing a people and a nation.

The Rise of Critical Animal Studies-Nik Taylor 2014-04-16 As the scholarly and interdisciplinary study of human/animal relations becomes crucial to the urgent questions of our time, notably in relation to environmental crisis, this collection explores the inner tensions within the relatively new and broad field of animal studies. This provides a platform for the latest critical thinking on the condition and experience of animals. The volume is structured around four sections: engaging theory doing critical animal studies critical animal studies and anti-capitalism contesting the human, liberating the animal: veganism and activism. *The Rise of Critical Animal Studies* demonstrates the centrality of the contribution of critical animal studies to vitally important contemporary debates and considers future directions for the field. This edited collection will be useful for students and scholars of sociology, gender studies, psychology, geography, and social work.

Outlaw Culture-bell hooks 2012-09-10 According to the Washington Post, no one who cares about contemporary African-American cultures can ignore bell hooks' electrifying feminist explorations. Targeting cultural icons as diverse as Madonna and Spike Lee, *Outlaw Culture* presents a collection of essays that pulls no punches. As hooks herself notes, interrogations of popular culture can be a 'powerful site for intervention, challenge and change'. And intervene, challenge and change is what hooks does best.

The Centre as Margin: Eccentric Perspectives on Art-Joana Antunes 2019-05-01 *The Centre as Margin. Eccentric Perspectives on Art* is a multi-authored volume of collected essays that answer the challenge of thinking Art History, and the Arts in a broader sense, from a liminal point of view. Its main goal is thus to discuss the margin from the centre - drawing on its concomitance within study themes and subjects, ontological and epistemological positions, or research methodologies themselves. Marginality, eccentricity, liminality, and superfluity are all part of a dynamic relationship between centre and margin(s) that will be approached and discussed, from the point of view of disciplines as different and as close as art history, philosophy, literature and design, from medieval to contemporary art. Resulting from recent research developed from the privileged viewpoint offered by the margin, this volume brings together the contributions of young researchers along with the work of career scholars. Likewise, it does not obey a traditional or a rigid diachronic structure, being rather organized in three major parts that organically articulate the different essays. Within each of these parts in which the book is divided, papers are sometimes organized according to their timeframes, providing the reader with an encompassing (though not encyclopedic) overview of the common ground over which the various artistic disciplines build their methodological, theoretical, and thematic centers and margins. The intended eccentricity of this volume - and the original essays herein presented - should provide researchers, scholars, students, artists,

curators, and the general reader interested in art with a refreshing approach to its various scientific strands.

Arab Detroit-Sally Howell 2000 In this volume, Nabeel Abraham and Andrew Shryock bring together the work of twenty-five contributors to create a richly detailed portrait of Arab Detroit.

Leisure and Feminist Theory-Betsy Wearing 1998-12-04 Wide-ranging and challenging, this book offers a host of new insights into how leisure theory has handled the question of gender difference and inequality. Providing a critical introduction to the leading positions in leisure theory, Betsy Wearing guides the reader through their strengths and weaknesses from a feminist perspective. This book draws attention to the various leisure experiences that women encounter and construct in their everyday lives and the meanings that these experiences have for them. Her perspective takes into account such poststructuralist ideas as multiple subjectivities of women and multiple femininities; the possibilities of resistance to male dominance in leisure; the potential through leisure of rewriting masculine and feminine scripts; and leisure as a site of struggle to challenge hegemonic masculinity.

Centering the Margin-Alexander Horstmann 2006-05-01 In a completely new approach to borders and border crossing, this volume suggests a re-conceptualization of the nation in Southeast Asia. Choosing an actor approach, the individual chapters in this volume capture the narratives of minorities, migrants and refugees who inhabit and cross borders as part of their everyday life. They show that people are not only constrained by borders; the crossing of borders also opens up new options of agency. Making active use of these, border-crossing actors construct their own live projects on the border in multiple ways against the original intention of the nation-state. Based on their intimate knowledge of the interaction of communities, anthropologists from Europe, the USA, Japan and Southeast Asia provide a vivid picture of the effects of state policies at the borders on these communities.

LGBTQ Politics-Marla Brettschneider 2017-09-19 A definitive collection of original essays on queer politics From Harvey Milk to ACT UP to Proposition 8, no political change in the last two decades has been as rapid as the advancement of civil rights for LGBTQ people. As we face a critical juncture in progressive activism, political science, which has been slower than most disciplines to study the complexity of queer politics, must grapple with the shifting landscape of LGBTQ rights and inclusion. LGBTQ Politics analyzes both the successes and obstacles to building the LGBTQ movement over the past twenty years, offering analyses that point to possibilities for the movement's future. Essays cover a range of topics, including activism, law, and coalition-building, and draw on subfields such as American politics, comparative politics, political theory, and international relations. LGBTQ Politics presents the full range of methodological, ideological, and substantive approaches to LGBTQ politics that exist in political science. Analyses focused on mainstream institutional and elite politics appear alongside contributions grounded in grassroots movements and critical theory. While some essays celebrate the movement's successes and prospects, others express concerns that its democratic basis has become undermined by a focus on funding power over people power, attempts to fragment the LGBTQ movement from racial, gender and class justice, and a persistent attachment to single-issue politics. A comprehensive, thought-provoking collection, LGBTQ Politics: A Critical Reader will give rise to continued critical discussion of the parameters of LGBTQ politics.

The Will to Change-bell hooks 2004-01-06 With the courage, honesty, and compassion that have made her one of America's most provocative authorities on modern culture, bell hooks takes on the interior lives of men and answers their most intimate questions about love. Everyone needs to love and be loved -- even men. In this groundbreaking book, bell hooks gets to the heart of the matter and shows men how to express the emotions that are a fundamental part of who they are -- whatever their age, ethnicity, or cultural persuasion. Written in response to the author's in-depth discussions with men who were inspired by her trilogy, All About Love, Salvation, and Communion, bell hooks's The Will to Change addresses maleness and masculinity in new and challenging ways. With trademark candor and fierce intelligence, hooks answers the most common concerns of men, such as fear of intimacy and loss of their patriarchal place in society. She believes men can find the way to spiritual unity by getting back in touch with the emotionally open part of themselves. Only through this liberation will they lay claim to the rich and rewarding inner lives that have historically been the exclusive province of women. Men can access these feelings by giving themselves permission to be vulnerable. As they grow more comfortable and start believing that it's okay to feel, to need, and to desire, they will thrive as equal partners in their intimate relationships. Whether they are straight or gay, black or white, The Will to Change helps men to reclaim the best part of themselves.

Feminism Is for Everybody-bell hooks 2014-10-10 What is feminism? In this short, accessible primer, bell hooks explores the nature of feminism and its positive promise to eliminate sexism, sexist exploitation, and oppression. With her characteristic clarity and directness, hooks encourages readers to see how feminism can touch and change their lives—to see that feminism is for everybody.

Black Looks-bell hooks 2014-10-10 In the critical essays collected in Black Looks, bell hooks interrogates old narratives and argues for alternative ways to look at blackness, black subjectivity, and whiteness. Her focus is on spectatorship—in particular, the way blackness and black people are experienced in literature, music, television, and especially film—and her aim is to create a radical intervention into the way we talk about race and representation. As she describes: "the essays in Black Looks are meant to challenge and unsettle, to disrupt and subvert." As students, scholars, activists, intellectuals, and any other readers who have engaged with the book since its original release in 1992 can attest, that's exactly what these pieces do.

Homegrown-bell hooks 2017-09-13 In Homegrown, cultural critics bell hooks and Amalia Mesa-Bains reflect on the innate solidarity between Black and Latino culture. Riffing on everything from home and family to multiculturalism and the mass media, hooks and Mesa-Bains invite readers to re-examine and confront the polarizing mainstream discourse about Black-Latino relationships that is too often negative in its emphasis on political splits between people of color. A work of activism through dialogue, Homegrown is a declaration of solidarity that rings true even ten years after its first publication. This new edition includes a new afterword, in which Mesa-Bains reflects on the changes, conflicts, and criticisms of the last decade.

Globalization on the Margins (2nd Edition)-Iveta Silova 2020-01-01 Reflecting on almost three decades of postsocialist transformations, the second edition of *Globalization on the Margins* explores continuities and changes in Central Asian education development since the dissolution of the Soviet Union in 1991, with a particular focus on the developments that took place since the production of the first edition in 2011. Rather than viewing these transformations in isolation, the authors place their analyses within the global context by reflecting on the interaction between Soviet legacies and global education reform pressures in the Central Asian countries of Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan. This new edition, in addition to a revised introduction and a newly added conclusion, consists of four thematic sections, each reflecting a key theme in the educational life of the Central Asian states. These thematic sections, introduction and conclusion collectively update our understanding of the recent developments and challenges in education of the five Central Asian states. They, however, go beyond mere information update, so as to complicate, re-engage, re-form and re-define the margins, taking up 'margins' a conceptual, geographic, cultural, and geo-political construct. Notwithstanding the diversity of local and international authors, variety of theoretical perspectives, methodological approaches, and conceptual lenses, the essays reveal the complexity and uncertainty of the post-socialist education transformations. Instead of portraying the transition process as the influx of Western ideas into the region, *Globalization on the Margins* provides new lenses to critically examine education as a contested field of diverse perspectives, competing forces, and multidirectional flow of ideas, concepts, and reforms in Central Asia.

ENDORSEMENTS: "Hindsight famously brings clarity. And, much of what happened after the fall of the Berlin Wall and the collapse of the Soviet Union has now been correctly deeded over to historians. Nonetheless, we ignore that history at our peril. The contributors to this volume show that carefully textured and historically attuned education research generates deep insights into ongoing transformations and the political, cultural, social and economic structures, relations, and practices that do the work of producing margins and centers in the first place." ~ Noah W. Sobe, Loyola University Chicago "Globalization on the margins and at the epicentre of the battles of the Great Powers. Two excellent educators, Sarfaroz Niyozov and Iveta Silova, compiled a timely and long-awaited scholarly work based on empirical research in societies, which had similar history close to three decades ago. All the contributors are prolific educators who know the education system from within and without, who either hailed from the region or have spent a considerable amount of time to know the systems well. The book contains remarkable stories of education through the ups and downs of historical evolution. It is a must-read primer for anyone interested in learning about high quality research in the field of education in Central Asia. It is a huge contribution to educational research with an impact on research and teaching for years to come." ~ Duishon Shamatov, Nazarbayev University, Kazakhstan "The challenge of moving Central Asia from the borders of the Soviet Empire to the world's center is the focus of the discussions in 'Globalization on the Margins.' The transition to the Western models of education was happening in the context of major paradigm shift, which entire humanity was experiencing and which could be described as the arrival of the new post-industrial civilization. During this process, Central Asian countries have been pushed to the margins, because their contribution to the wealth of the new world know-how was much less pronounced than that of their Western neighbours. Therefore, investment into the research that contributes to local knowledge production seems a natural solution to the problem. All the contributors to this book have a vast experience in the region and many of their observations are thought provoking. This is a very insightful and much needed book." ~ Elena Lenskaya, Moscow School of Social and Economic Sciences, Russia

From Margin to Center-April Caddell 2015 Contemporary American culture is witnessing the phenomenon of many high-profile celebrities proudly calling themselves, feminist--I refer to these individuals as celebrity feminists. This phenomenon comes as a shift from the historical avoidance with the term feminist and the feminist movement due to mainstream media's portrayal of feminism using negative and fallacious stereotypes. The current shift to "feminism is wonderful," in the mainstream media--as a reflection of a white supremacist and patriarchal society--de-politicizes feminism, making it less of a radical movement that seeks social change and more a portrayal of individual empowerment on the part of exceptional women. In essence, it seeks to separate the personal from the political. Following the lead of bell hooks, we must combat this co-optation and de-politicization of feminism and reclaim it as a transformative politics. We must come to a consensus on what feminism is, even if the definition is fluid and broad, determine the goals of feminism so that we do not mistake the individual success of women as proof of feminism accomplished, and challenge the so-called sex positivity of feminism as portrayed by the mainstream media for its lack of inclusion of all people and its portrayal of sex as the last frontier of feminism. In spite of these misrepresentations, feminism has a bright future in an era of social media that gives the power of media and message to more people who can portray a feminism that is radical and

uses an intersectional lens.

Sisters of the Yam-bell hooks 2014-10-03 In *Sisters of the Yam*, bell hooks reflects on the ways in which the emotional health of black women has been and continues to be impacted by sexism and racism. Desiring to create a context where black females could both work on their individual efforts for self-actualization while remaining connected to a larger world of collective struggle, hooks articulates the link between self-recovery and political resistance. Both an expression of the joy of self-healing and the need to be ever vigilant in the struggle for equality, *Sisters of the Yam* continues to speak to the experience of black womanhood.

The Intensive Margin in Trade-Ana Fernandes 2018-12-07 The Melitz model highlights the importance of the extensive margin (the number of firms exporting) for trade flows. Using the World Bank's Exporter Dynamics Database (EDD) featuring firm-level exports from 50 countries, we find that around 50 percent of variation in exports is along the extensive margin—a quantitative victory for the Melitz framework. The remaining 50 percent on the intensive margin (exports per exporting firm) contradicts a special case of Melitz with Pareto-distributed firm productivity, which has become a tractable benchmark. This benchmark model predicts that, conditional on the fixed costs of exporting, all variation in exports across trading partners should occur on the extensive margin. We find that moving from a Pareto to a lognormal distribution allows the Melitz model to match the role of the intensive margin in the EDD. We use likelihood methods and the EDD to estimate a generalized Melitz model with a joint lognormal distribution for firm-level productivity, fixed costs and demand shifters, and use "exact hat algebra" to quantify the effects of a decline in trade costs on trade flows and welfare in the estimated model. The welfare effects turn out to be quite close to those in the standard Melitz-Pareto model when we choose the Pareto shape parameter to fit the average trade elasticity implied by our estimated Melitz-lognormal model, although there are significant differences regarding the effects on trade flows.

Yearning-bell hooks 2014-10-10 For bell hooks, the best cultural criticism sees no need to separate politics from the pleasure of reading. Yearning collects together some of hooks's classic and early pieces of cultural criticism from the '80s. Addressing topics like pedagogy, postmodernism, and politics, hooks examines a variety of cultural artifacts, from Spike Lee's film Do the Right Thing and Wim Wenders's film Wings of Desire to the writings of Zora Neale Hurston and Toni Morrison. The result is a poignant collection of essays which, like all of hooks's work, is above all else concerned with transforming oppressive structures of domination.

Teaching Community-bell hooks 2013-08-21 Ten years ago, bell hooks astonished readers with Teaching to Transgress: Education as the Practice of Freedom. Now comes Teaching Community: A Pedagogy of Hope - a powerful, visionary work that will enrich our teaching and our lives. Combining critical thinking about education with autobiographical narratives, hooks invites readers to extend the discourse of race, gender, class and nationality beyond the classroom into everyday situations of learning. bell hooks writes candidly about her own experiences. Teaching, she explains, can happen anywhere, any time - not just in college classrooms but in churches, in bookstores, in homes where people get together to share ideas that affect their daily lives. In Teaching Community bell hooks seeks to theorize from the place of the positive, looking at what works. Writing about struggles to end racism and white supremacy, she makes the useful point that "No one is born a racist. Everyone makes a choice." Teaching Community tells us how we can choose to end racism and create a beloved community. hooks looks at many issues-among them, spirituality in the classroom, white people looking to end racism, and erotic relationships between professors and students. Spirit, struggle, service, love, the ideals of shared knowledge and shared learning - these values motivate progressive social change. Teachers of vision know that democratic education can never be confined to a classroom. Teaching - so often undervalued in our society -- can be a joyous and inclusive activity. bell hooks shows the way. "When teachers teach with love, combining care, commitment, knowledge, responsibility, respect, and trust, we are often able to enter the classroom and go straight to the heart of the matter, which is knowing what to do on any given day to create the best climate for learning."
