The Monongahela-Arthur Parker 1999 The Monongahela is one of three rivers that meet in Pittsburgh, where Parker was Executive Vice President of the Waterways Association from 1971 to 1993. He recounts the river's history from a route for early expansion west to its current commercial and leisure use. Among the highlights are the beginning of shipbuilding in the 1790s, the growth of other industries and subsequent need for coal, Carnegie's first steel mill in 1872, the bloody Homestead strike in 1892, the rusting of the steel belt in the 1980s, and attempts to revive.

River of Conflict, River of Dreams-Biloine Whiting Young 2004 From the days the Indians traveled in birch bark canoes to today's cargo shipped in mammoth barges, the Upper Mississippi River has been at the center of regional life and history. The Mississippi was the highway into America's frontier. Immigrants followed the river northward, displacing the Dakota and the Ojibwe peoples. Because the river was there fur traders and Galena's lead miners were able to move their goods to market; passenger steamboats, those romantic floating palaces, connected the river towns; lumbermen made fortunes floating pine logs to the south; and Minneapolis became the flour milling capital of the world. Each river community, from the Twin Cities to those located four hundred miles to the south, owed its economic existence to the Upper Mississippi River. The river's importance ended with the coming of the railroads. The affection communities had for the river turned to indifference and finally to disregard. The steamboat era ended and wing dams and locks constricted the river. Frustrated, the river flooded. Growing cities poured their refuse and sewage into the river. Removed from the center of commercial life the river became a liability, an obstacle to be ignored. Conflict concerning the river, and how to best use it, still continues. Environmentalists and developers have divergent views. Among the institutions suggesting a new interpretation of the river is the Riverfront Corporation of St. Paul. Encouraged by the Corporation's Board of Directors and its Executive Director, Patrick Seeb, communities of the Upper Mississippi are establishing new relationships with the river and are working with each other, united by the great river that runs through them all. This is the story that Biloine W. Young tells.

Nine Ways to Cross a River-Akiko Busch 2007-07-10 The author of Geography of Home shares a series of meditations and reflections on her transformative swims across eight of America's great rivers--including the Delaware, Mississippi, Ohio, and twice across the Hudson--discussing their meaning in terms of the passages of life, natural and human history, and the inspirational rhythms of the natural world.

Canoe-Miguel A. Sagué-Machiran 2016-03-18 The author uses first-hand life experiences to lay bare enduring truths. Four remarkable stories of evolutionary change are woven into a single journey down the river of time; One, a vision-filled canoe trip through Pennsylvanias Allegheny Forest; Two, a dramatic sequence of dreams documenting the saga of an Indigenous Caribbean family; Three, the 260-century evolutionary trek of global humanity envisioned by ancient Native wisdom; Four, the authors personal 65 years of life experiences in the modern-day Taino Indigenous Resurgence movement.

Down the Susquehanna to the Chesapeake-

Allegheny, Monongahela-Erinn Batykefer 2009 Using the confluence of rivers in Pittsburgh as a metaphorical lens, Allegheny, Monongahela probes the ruinous misalignment between the external and internal lives of two sisters and their childhood in Western Pennsylvania. Their complex and difficult relationship is the spine of the collection, told obliquely through a series of sonnets and ekphrastic meditations on the paintings of Georgia O'Keeffe: the ways in which they separately navigate a violent family history that reverberates through their present and futures; their polarized impulses toward creativity and self-destruction. Rooted in a mutable, watery landscape that is not consistently recognizable, Allegheny, Monongahela investigates the collisions between the world and the self, the fissured identities that result, and the ways in which art may heal or fail to heal the cracks. "

Monessen-Cassandra Vivian 2002 Once a Native American hunting ground, the industrial melting pot of Monessen, in western Pennsylvania, rises over a horseshoe bend in the Monongahela River. Established in 1898, this powerhouse town boomed for close to 60 years, producing vast amounts of steel and other crucial industrial materials. Known for its cultural diversity, Monessen's predominantly immigrant population-with the highest naturalization rate in the United States at the turn of the twentieth century-and the vibrant neighborhoods they established were entirely sustained by the local mills. The battles for decent pay, job protection, benefits, and an 8-hour day kindled fiercely for decades until Monessen and towns like it in the Monongahela Valley gave the average person a dignity denied them for centuries: decent pay for decent work. Families thrived. Children went to college. It was the American dream. Then, neighborhoods began to unravel, foreign imports stole jobs, and finally the mills, the only support of the town, closed. Demonstrating their unyielding spirit, Monessen residents have struggled to fight for the recovery and rebirth of their hometown. In this new history, Monessen: A Typical Steel Country Town, informative narrative highlights the rapid expansion and gradual demise of a society built almost solely on its industrial endeavors and recounts how a disjointed populace has come together to restore their proud community. Over 100 striking photographs depict the dominating presence of the mills, the quiet faces of the people who toiled there, scenes of daily life, and memorable events through the years, as well as the dramatic changes that have marked Monessen's unique history.

American Rust-Philipp Meyer 2009-02-24 The debut novel from the New York Times bestselling author of The Son, which is now an AMC original TV series BONUS: This edition contains a reader's guide. Set in a beautiful but economically devastated Pennsylvania steel town, American Rust is a novel of the lost American dream and the desperation—as well as the acts of friendship, loyalty, and love—that arise from its loss. From local bars to trainyards to prison, it is the story of two young men, bound to the town by family, responsibility, inertia, and the beauty around them, who dream of a future beyond the factories and abandoned homes. Left alone to care for his aging father after his mother commits suicide and his sister escapes to Yale, Isaac English longs for a life beyond his hometown. But when he finally sets out to leave for good, accompanied by his temperamental best friend, former high school football star Billy Poe, they are caught up in a terrible act of violence that changes their lives forever. Evoking John Steinbeck’s novels of restless lives during the Great Depression, American Rust takes us into the contemporary American heartland at a moment of profound unrest and uncertainty about the future. It is a dark but lucid vision, a moving novel about the bleak realities that battle our desire for transcendence and the

power of love and friendship to redeem us. Newsweek's list of "Best. Books. Thirsty-Kristin Bair O'Keeffe 2009-09-29 It is 1883, and all of Klara Bozic's girlish dreams have come crashing down as she arrives in Thirsty, a gritty steel town carved into the slopes above the Monongahela River just outside of Pittsburgh. She has made a heartbreaking discovery. Her new husband Drago is as abusive as the father she left behind in Croatia. In Kristin Bair O'Keeffe's debut novel, Klara's life unfolds over forty years as she struggles to find her place in a new country where her survival depends on the friends who nurture her: gutsy, funny Katherine Zupanovic, who isn't afraid of Drago's fist; BenJo, the only black man in Thirsty to have his own shop; and strangely enough, Old Man Rupert, the town drunk. Thirsty follows a chain of unlikely events that keep Klara's spirit aloft: a flock of angelic butterflies descends on Thirsty; Klara gives birth to her first child in Old Man Rupert's pumpkin patch; and BenJo gives her a talking bird. When Klara's daughter marries a man even more brutal than Drago, Klara is forced to act. If she doesn't finally break the cycle of violence in her family, her granddaughters will one day walk the same road, broken and bruised. As the threads that hold her family together fray and come undone, Klara has to decide if she has the courage to carve out a peaceful spot in the world for herself and her girls.

Striking Gridiron-Greg Nichols 2014-09-16 In the summer of 1959, most of the town of Braddock, Pennsylvania--along with half a million steel workers around the country--went on strike in the longest labor stoppage in American history. With no paychecks coming in, the families of Braddock looked to its football team for inspiration. The Braddock Tigers had played for five amazing seasons, a total of 45 games, without a single loss. Heading into the fall of '59, this team from just outside Pittsburgh, whose games members of the Steelers would drop by to watch, needed just eight victories to break the national record for consecutive wins. Sports Illustrated and other media descended upon the banks of the Monongahela River to profile the team and its revered head coach, future Hall of Famer Chuck Klausung, who molded his boys into winners while helping to effect the racial integration of his squad. While the townspeople bet their last dollars on the Tigers, young black players like Ray Henderson hoped that the record would be a ticket to college and spare them from life in the mills alongside their fathers. In Striking Gridiron, author Greg Nichols recounts every detail of Braddock's incredible sixth, undefeated season--from the brutal weeks of summer training camp to the season's final play that defined the team's legacy. In the words of Klausung himself, "Greg Nichols couldn't have written it better if he'd been on the sidelines with us." But even more than the story of a triumphant season, Nichols's narrative is an intimate chronicle of small-town America during the hardest of times. Striking Gridiron takes us from the sidelines and stands on game day into the school hallways, onto the street corners, and into the very homes of Braddock to reveal a beleaguered blue-collar town from a bygone era--and the striking workers whose strength was mirrored by the football heroics of steel-town boys on Friday nights and Saturday afternoons.

Regional Cooperation for Water Quality Improvement in Southwestern Pennsylvania-National Research Council 2005-04-04 The city of Pittsburgh and surrounding area of southwestern Pennsylvania face complex water quality problems, due in large part to aging wastewater infrastructures that cannot handle sewer overflows and stormwater runoff, especially during wet weather. Other problems such as acid mine drainage are a legacy of the region's past coal mining, heavy industry, and manufacturing economy. Currently, water planning and management in southwestern Pennsylvania is highly fragmented; federal and state governments, 11 counties, hundreds of municipalities, and other entities all play roles, but with little coordination or cooperation. The report finds that a comprehensive, watershed-based approach is needed to effectively meet water quality standards throughout the region in the most cost-effective manner. The report outlines both technical and institutional alternatives to consider in the development and implementation of such an approach.

The Third Rainbow Girl-Emma Copley Eisenberg 2020-01-21 A stunning, complex narrative about the fractured legacy of a decades-old double murder in rural West Virginia -- and the writer determined to put the pieces back together. In the early evening of June 25, 1980 in Pocahontas County, West Virginia, two middle-class outsiders named Vicki Durian, 26, and Nancy Santomero, 19, were murdered in an isolated clearing. They were hitchhiking to a festival known as the Rainbow Gathering but never arrived. For thirteen years, no one was prosecuted for the "Rainbow Murders" though deep suspicion was cast on a succession of local residents in the community, depicted as poor, dangerous, and backward. In 1993, a local farmer was convicted, only to be released when a known serial killer and diagnosed schizophrenic named Joseph Paul Franklin claimed responsibility. As time passed, the truth seemed to slip away, and the investigation itself inflicted its own traumas -- turning neighbor against neighbor and confirming the fears of violence outsiders have done to this region for centuries. In The Third Rainbow Girl, Emma Copley Eisenberg uses the Rainbow Murders case as a starting point for a thought-provoking tale of an Appalachian community bound by the false stories that have been told about it. Weaving in experiences from her own years spent living in Pocahontas County, she follows the threads of this crime through the complex history of Appalachia, revealing how this mysterious murder has loomed over all those affected for generations, shaping their fears, fates, and desires. Beautifully written and brutally honest, The Third Rainbow Girl presents a searing and wide-ranging portrait of America -- divided by gender and class, and haunted by its own violence.

Out Of This Furnace-Thomas Bell 1941-03-15 Out of This Furnace is Thomas Bell’s most compelling achievement. Its story of three generations of an immigrant Slovak family -- the Dobrejcaks -- still stands as a fresh and extraordinary accomplishment. The novel begins in the mid-1880s with the naive blundering career of Djuro Kracha. It tracks his arrival from the old country as he walked from New York to White Haven, his later migration to the steel mills of Braddock, Pennsylvania, and his eventual downfall through foolish financial

speculations and an extramarital affair. The second generation is represented by Kracha's daughter, Mary, who married Mike Dobrejcek, a steel worker. Their decent lives, made desperate by the inhuman working conditions of the mills, were held together by the warm bonds of their family life, and Mike's political idealism set an example for the children. Dobia Dobrejcek, the third generation, came of age in the 1920s determined not to be sacrificed to the mills. His involvement in the successful unionization of the steel industry climaxed a half-century struggle to establish economic justice for the workers. Out of This Furnace is a document of ethnic heritage and of a violent and cruel period in our history, but it is also a superb story. The writing is strong and forthright, and the novel builds constantly to its triumphantly human conclusion.

Fields of Dreams-Jay Ahuja 1998 Who or what is taking the kitchen scraps from the garbage every night? What starts out as a puzzle becomes a mystery. Every night Grandma leaves table scraps in a wrapped plastic bag in the garbage can where, according to plan, the McNellis children pick them up to feed their kittens. But the plan changes when the bag is gone in the morning. The twins, Liza and Bill, and brother Jed decide to investigate the matter. First the children discover Liza's missing red sweater in a part of the woods she hadn't been to before, next they read about runaway children in the newspaper, and then their new puppy is lost. Finally they find a teepee in the woods with what seems to be Indians in warpaint dancing and shooting arrows! The young detectives must put all the clues together and solve the mystery.
