**Arthurian Romances, Tales, and Lyric Poetry**-Kim Vivian 2010-11-01 Hartmann von Aue (c. 1170&-1215) is universally recognized as the first medieval German poet to create world-class literature. He crafted German into a language of refined literary expression that paved the way for writers such as Gottfried von Strassburg, Walther von der Vogelweide, and Wolfram von Eschenbach. This volume presents the English reader for the first time with the complete works of Hartmann in readable, idiomatic English. Hartmann's literary efforts cover all the major genres and themes of medieval courtly literature. His Arthurian romances, *Erec and Iwein*, which he modeled after Chr&eacute;tien de Troyes, introduced the Arthurian world to German audiences and set the standard for later German writers. His lyric poetry treats many aspects of courtly love, including fine examples of the crusading song. His dialogue on love delineates the theory of courtly relationships between the sexes and the quandary the lover experiences. His verse novellas *Gregorius* and *Poor Heinrich* transcend the world of mere human dimensions and examine the place and duties of the human in the divine scheme of things. Longfellow would later use *Poor Heinrich* in his *Golden Legend*. *Arthurian Romances, Tales, and Lyric Poetry* is a major work destined to place Hartmann at the center of medieval courtly literature for English readers.

**A Cultural History of Animals in the Medieval Age**-Brigitte Resl 2009-04-01 Choice Outstanding Academic Title, 2008 A Cultural History of Animals in the Medieval Age investigates the changing roles of animals in medieval culture, economy and society in the period 1000 to 1400. The period saw significant changes in scientific and philosophical approaches to animals as well as their representation in art. Animals were omnipresent in medieval everyday life. They had enormous importance for medieval agriculture and trade and were also hunted for food and used in popular entertainments. At the same time, animals were kept as pets and used to display their owner's status, whilst medieval religion attributed complex symbolic meanings to animals. A Cultural History of Animals in the Medieval Age presents an overview of the period and continues with essays on the position of animals in contemporary symbolism, hunting, domestication, sports and entertainment, science, philosophy, and art.

**A Cultural History of Animals**-Linda Kalof 2007 A Cultural History of Animals is a multi-volume project on the history of human-animal relations from ancient times to the present. The set of six volumes covers 4500 years of human-animal interaction. Volume 1: Antiquity to the Dark Ages (2500BC

- 1000AD) Volume 2: The Medieval Age (1000-1400) Volume 3: The Renaissance (1400-1600) Volume 4: The Enlightenment (1600-1800) Volume 5: The Age of Empire (1800-1920) Volume 6: The Modern Age (1920-2000, including a discussion of animals of the future). Each volume shares the same structure, with chapters analyzing the same issues and themes for each time period. In this way, the volumes can be read individually to cover a specific period and individual chapters can be read across volumes to follow a theme across history. Each volume explores: the sacred and the symbolic (totem, sacrifice, status and popular beliefs), hunting; domestication (taming, breeding, labor and companionship); entertainment and exhibitions (the menagerie, zoos, circuses and carnivals); science and specimens (research, education, collections and museums); philosophical beliefs; and artistic representations. The full six volume set combines to present the most authoritative and comprehensive survey available on animals through history.

**The Pilgrimage Motif in the Works of the Medieval German Author Hartmann Von Aue**-Mary Vandegrift Mills 1996 This volume seeks to contribute to medieval scholarship by establishing that within his writings, Hartmann von Aue addresses a problem characteristic of his period, *Gott und der Welt gefallen*, by fusing the quest for secular happiness as it is presented in the heroic literatures of ancient and medieval times with the search for spiritual happiness as it is depicted by St Augustine in his *Civitas Dei*. In the discussion of the quest for *saelde* within Hartmann's works, it aims to establish the pilgrimage motif as his main tectonic principle and most significant action motif. The examination of Hartmann's tectonic principle also documents the ideologized transformation of the pilgrimage motif as a progression from the somewhat stark dualism of his *Kreuzzuglieder* to the gradualism in *Gregorius* and *Der arme Heinrich* and marks a peak of gothic style and ideology in the medieval epic tradition.

**The Arthur of the Italians**-Regina Psaki 2014-04-15 This is the first comprehensive book on the Arthurian legend in medieval and Renaissance Italy since Edmund Gardner's 1930 *The Arthurian Legend in Italian Literature*. Arthurian material reached all levels of Italian society, from princely courts with their luxury books and frescoed palaces, to the merchant classes and even popular audiences in the piazza, which enjoyed shorter retellings in verse and prose. Unique assemblages emerge on Italian soil, such as the *Compilation of Rustichello da Pisa* or the innovative *Tavola Ritonda*, in versions made for both Tuscany and the Po Valley.

**Cei and the Arthurian Legend**-Linda Gowans 1988 'No Arthurian critic will be able to ignore this book which gathers together so much diverse material and skilfully brings out unexpected links between versions widely separated in time and country of origin.' MODERN LANGUAGE REVIEW Cei is one of the most puzzling figures in the development of the Arthurian legend: a hero beyond compare in the early Welsh sources, his appearances in later Arthurian literature are frequently associated with comic defeat in combat, objectionable outspokenness, and sometimes with more serious misdeeds. This study assesses Cei from his native Welsh context to his role in the romances of Chrétien de Troyes and later developments, in which the author looks at the portrayal of Cei in a selection of medieval Continental, Welsh and English works, before moving closer to the present day and the rich heritage of English ballad and Gaelic folktale; the ending offers something of a surprise. This account of the long and varied career of one of Arthur's closest associates shows how a sympathetic approach to Cei can shed new light on some particularly controversial aspects of Arthurian studies.

**Truth and the Heretic**-Karen Sullivan 2005-09-15 "Exploring the figure of the heretic in Catholic writings of the twelfth and thirteenth centuries as well as the heretic's characterological counterpart in troubadour lyrics, Arthurian romance, and comic tales, *Truth and the Heretic* seeks to understand why French and Occitan literature of the period celebrated the very characters who were so persecuted in society at large. Karen Sullivan proposes that such literature allowed medieval culture a means by which to express truths about heretics and the epistemological anxieties they aroused." "The first book-length study of the figure of the heretic in medieval French and Occitan literature, *Truth and the Heretic* will fascinate historians of ideas and literature as well as scholars of religion, critical theory, and philosophy."--
