Art, Space and the City-Malcolm Miles 2005-08-16 Public art - the making, management and mediation of art outside its conventional location in museums and galleries, and the livable city - a concept involving user-centred strategies for urban planning and design, are both socially produced but have emerged from different fields and tend to be discussed in isolation. This book applies a range of critical perspectives which have emerged from different disciplines - art criticism, urban design, urban sociology, geography and critical theory - to examine the practice of art for urban public spaces, seeing public art from positions outside those of the art world to ask how it might contribute to possible urban futures. Exploring the diversity of urban politics, the functions of public space and its relation to the structures of power, the roles of professionals and users in the construction of the city, the gendering of space and the ways in which space and citizen are represented, the book explains how these issues are as relevant to architecture, urban design and urban planning as they are to public art. Drawing on a wealth of images from across the UK and Europe and the USA, in particular, the author questions the effectiveness of public art in achieving more convivial urban environments, whilst retaining the idea that imagining possible futures is as much part of a democratic society as using public space.

Public Art Encounters-Martin Zebracki 2017-09-05 Public art is produced and ‘lived’ within multiple, interlaced and contested political, economic, social and cultural-symbolic spheres. This lively collection is a mix of academic and practice-based writings that scrutinise conventional claims on the inclusiveness of public art practice. Contributions examine how various social differences, across class, ethnicity, age, gender, religion, ability and literacy, shape encounters with public art within the ambits of the design, regeneration and everyday experiences of public spaces. The chapters richly draw on case studies from the Global North and South, providing comprehensive insights into the experiences of encountering public art via a variety of scales and realms. This book advances critical insights of how socially practised public arts articulate and cultivate geographies of social difference through the themes of power (the politics of encountering), affect (the embodied ways of encountering), and diversity (the inclusiveness of encountering). It will appeal to scholars, students and practitioners of cultural geography, the visual arts, urban studies, political studies and anthropology.

Public Art in Philadelphia-Penny Balkin Bach 1992 "Public art is a manifestation of how we see the world-the artist's reflection of our social, cultural, and physical environment." Thus, Penny Bach introduces this fascinating history of public art in Philadelphia, narrated throughout with surprising anecdotes, biographical sketches, and more than 450 illustrations. She explores the artistic, historical, political, and social trends and events that caused the city to acquire such a rich and diverse collection of public art. Philadelphia's tradition of public art reveals the origins of our cyclic longing for public expression: the spiritual roots of Native American culture, the utilitarian needs of the colonial period, the civic glorification of American patriotism, the planning instincts that emerged from the industrial era, and the pursuit of originality and invention in the twentieth century. Guiding the reader through a chronological tour of the city's aesthetic holdings, Public Art in Philadelphia provides a sort of history of American monumental art in microcosm and offers a way to appreciate the public art we encounter, whether it is cast, carved, built, assembled, or painted.As the nation's first capital, Philadelphia began early to commemorate heroic figures, popular leaders, patriotic ideals, and historic events. From Lazzarini's marble figure of Benjamin Franklin to Pinto's Fingerspan in Fairmount Park, from Laurel Hill Cemetery's celebrated sculpture garden to Lipchitz's

controversial Government of the People, and from William Penn atop City Hall to the colorful murals by the Anti-Graffiti Network, public art has continued to enhance, define, and challenge Philadelphians' perception of their city.With perhaps the largest collection of public sculpture in the world, Philadelphia's art acquisitions span the history of the United States. Bach examines the gradual transformation over three centuries of style, theme, and reception of statues, murals, and other art forms. Shorter thematic essays make "connections" between works, ideas, artists, and civic missions. A catalogue focuses on more than 200 individual works, noting the materials, dimensions, location history, and commissioning process, and suggesting the vast range of public art. The armchair tourist, for example, can visit Dickens and Little Nell in Clark Park, the John Wanamaker's Eagle, the All Wars Memorial to Colored Soldiers and Sailors in Fairmount Park, or the Julius Erving Memorial on Ridge Avenue, among many others. A set of maps encourage readers to view the works in their public context.Public Art in Philadelphia offers a unique tour of both the familiar and the overlooked treasures that give meaning to the public environment, that reconnect art to daily life, and that remind Philadelphia's visitors and residents of what was considered important to previous generations. Author note: Penny Balkin Bach is Executive Director of the Fairmount Park Art Association, the nation's first non-profit organization dedicated to the integration of art and urban planning. She is also the author of Form and Function: Proposals for Public Art for Philadelphia.

Plop-Susan K. Freedman 2004

Public Art / Public Space-Barbara Grygutis 2016-06 Public Art / Public Space chronicles the work of Barbara Grygutis, a pioneering public artist whose large-scale sculptural environments shape the spaces they inhabit. Art is a major component of our contemporary design landscape. Over the past twenty-five years, the medium of public installation has gained serious momentum, with the beautification of cities worldwide spearheaded by visceral conceptions and brazen works of art that coerce all passersby to contemplate not only the work in question or the location it is situated in, but the viewer's relationship to the aforementioned two. This level of frequency and fervor for the medium would not be the same without the pioneering work of Barbara Grygutis, a forerunning practitioner in the field and a champion for public art's selfless ethos in all mediums and all aspects of life. Public Art / Public Space features twenty groundbreaking works accompanied by retrospectives from public art professionals on Grygutis herself, her work, and what her extensive contributions could mean for the works of tomorrow."

New Land Marks-Fairmount Park Art Association 2001 "What will we leave for future generations? What is it about a community that might inspire a work of art? Can that art give meaning to our public spaces?" "The artists and communities participating in the program New Land Marks: Public Art, Community, and Meaning of Place have been grappling with these challenging questions. The resulting book documents how a long-standing Philadelphia cultural organization - the Fairmount Park Art Association - initiated this program in order to plan and create unique public art projects with communities that volunteered to participate. Artists have been working with these communities to incorporate public art into ongoing community development, urban greening, civic history, streetscape enhancement, and other revitalization initiatives. The resulting proposals - which represent "works in process" - celebrate community identity, commemorate "untold" histories, inspire civic pride, respond to the local environment, and invigorate public spaces. This book is a guide for those interested in how communities and artists can examine the appearance and meaning of public spaces." "In addition to illustrating the work of the twenty-one artists participating in this innovative public art project, the book includes essays by noted authors Ellen Dissanayake, Thomas Hine, Lucy Lippard, and Penny Balkin Bach, Executive Director of the Fairmount Park Art Association, who also served as general editor."-BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Public Art for Public Schools-Michele Cohen 2009 What makes a good schoolhouse? Beyond the basics of classrooms and library, a good school inspires students and teachers and enhances the learning environment through its architecture and its art. Nowhere is this principle better demonstrated than in the New York City school system, the largest in the United States, where a collection of more than 1,500 artworks has been assembled over nearly 150 years. This extraordinarily diverse group ranges from stained glass by Tiffany Studios to vast mural cycles commissioned by the WPA to modern and contemporary works by Hans Hofmann, Ben Shahn, Romare Bearden, Faith Ringgold, and Vito Acconci. Education has been a priority for Mayor Michael R. Bloomberg, and school construction and public art have expanded dramatically under his leadership. New school buildings have been commissioned from noted architects including Polshek Partnership, Pei Cobb Freed, and Arquitectonica, with installations by Tony Oursler, Sarah Morris, and James Casebere. Public Art for Public Schools provides a comprehensive and insightful account of the history and future of this program, lavishly illustrated with archival images from the Department of Education and handsome new photographs by the noted architectural photographer Stan Ries, which were specially commissioned for this publication.

Mapping the Terrain-Suzanne Lacy 1995 "In this wonderfully bold and speculative anthology of writings, artists and critics offer a highly persuasive set of argument and pleas for imaginative, socially responsible, and socially responsive public art...This book will prove as valuable to art and cultural historians and critics as it will be to public policy makers, students and a diverse public audience" --Moir Roth, Mills College.

Public Art New York-Jean Phifer 2009 A tour of the best permanent public art in all five boroughs of New York City.

Public Art and the Fragility of Democracy-Fred Evans 2018-11-20 Public space is political space. When a work of public art is put up or taken down, it is an inherently political statement, and the work's aesthetics are inextricably entwined with its political valences. Democracy's openness allows public art to explore its values critically and to suggest new ones. However, it also facilitates artworks that can surreptitiously or fortuitously undermine democratic values. Today, as bigotry and authoritarianism are on the rise and democratic movements seek to combat them, as Confederate monuments fall and sculptures celebrating diversity rise, the struggle over the values enshrined in the public arena has taken on a new urgency. In this book, Fred Evans develops philosophical and political criteria for assessing how public art can respond to the fragility of democracy. He calls for considering such artworks as acts of citizenship, pointing to their capacity to resist autocratic tendencies and reveal new dimensions of democratic society. Through close considerations of Chicago's Millennium Park and New York's National September 11 Memorial, Evans shows how a wide range of artworks participate in democratic dialogues. A nuanced consideration of contemporary art, aesthetics, and political

theory, this book is a timely and rigorous elucidation of how thoughtful public art can contribute to the flourishing of a democratic way of life.

Philadelphia's Art in Public Places

In Plain Sight- 2020 "Philadelphia is thought to have the oldest and largest collection of public art in the country. Some of the works are in prominent locations and have become tourist destinations, much like the Liberty Bell or the Rocky statue. Other works of art define particular neighborhoods, parks and personalities. There are over 3,000 murals spread throughout Philly. It's an extraordinary number, but here, the extraordinary has become an ordinary part of life. These treasured works of art are so neatly woven into the fabric of the city, and have become so commonplace, that life simply moves around them. The art forms a backdrop to everyday activities. Some of these works are beautiful, some are powerful, and some serve as monuments to great figures, while still others were created to stir our imagination and curiosity. Each photograph in this book represents a moment in time when photographer Ed Hille was able to fulfill his purpose of helping people to appreciate and see new angles of the city and the art that surrounds them. This book is not just about the art on display, but also about the many ways in which we experience the art. It's a testament to Philadelphia, a city that has committed significant resources to creating and preserving public art"--

More Art in the Public Eye-Micaela Martegani 2020-01-03 More Art in the Public Eye offers critical insight into the ever-growing field of socially engaged public art by demonstrating how the committed collaboration of artists, community members, and cultural producers can meaningfully impact our collective futures. Presented through the lens of More Art's fifteen-year history, the public art projects featured in this book expose issues of systemic inequality and injustice, stoke debate, and inspire alternatives. Artists and participants reflect on their works in newly conducted interviews, while essays from thinkers and actors in the field help situate the projects and the mission of socially engaged art in terms of greater cultural and political paradigms. More Art in the Public Eye establishes the framework for the conditions under which organizations like More Art operate, highlights the many meta-questions behind socially engaged public art, and seeks to amplify the wide array of voices that make up a project. Public Art by the Book

The Uses of Art in Public Space-Julia Lossau 2014-12-05 This book links two fields of interest which are too seldom considered together: the production and critique of art in public space and social behaviour in the public realm. Whilst most writing about public art has focused on the aesthetic, cultural and political intentions and processes that shape its production, this edited collection examines a variety of public artworks from the perspective of their actual everyday use. Contributors are interested in the rich diversity of peoples' engagements with public artworks across various spatial and temporal scales, encounters which do not limit themselves to the representational aspects of the art, and which are not necessarily as the artist, curator or sponsor intended. Case studies consider a broad range of public art, including commissioned and unofficial artworks, memorials, street art, street furniture, performance art, sound art and media installations.

Art and Its Publics

The Everyday Practice of Public Art-Cameron Cartiere 2015-11-19 The Everyday Practice of Public Art: Art, Space, and Social Inclusion is a multidisciplinary anthology of analyses exploring the expansion of contemporary public art issues beyond the built environment. It follows the highly successful publication The Practice of Public Art (eds. Cartiere and Willis), and expands the analysis of the field with a broad perspective which includes practicing artists, curators, activists, writers and educators from North America, Europe and Australia, who offer divergent perspectives on the many facets of the public art process. The collection examines the continual evolution of public art, moving beyond monuments and memorials to examine more fully the development of socially-engaged public art practice. Topics include constructing new models for developing and commissioning temporary and performance-based public artworks; understanding the challenges of a socially-engaged public art practice vs. social programming and policymaking; the social inclusiveness of public art; the radical developments in public art and social practice pedagogy; and unravelling the relationships between public artists and the communities they serve. The Everyday Practice of Public Art offers a diverse perspective on the increasingly complex nature of artistic practice in the public realm in the twenty-first century.

The Public Art Museum in Nineteenth Century Britain

The Public Art Museum in Nineteenth Century Britain-Christopher Whitehead 2017-03-02 During the mid-nineteenth century a debate arose over the form and functions of the public art museum in Britain. Various occurrences caused new debates in Parliament and in the press about the purposes of the public museum which checked the relative complacency with which London's national collections had hitherto been run. This book examines these debates and their influence on the development of professionalism within the museum, trends in collecting and tendencies in museum architecture and decoration. In so doing it accounts for the general development of the London museums between 1850 and 1880, with particular reference to the National Gallery. This involves analysis of art display and its relations with art historiography, alongside institutional and architectural developments at the British Museum, the South Kensington Museum and the National Gallery. It is argued that the underpinning factor in all of these developments was a reformulation of the public museum's mission, which was in turn related to the electoral reform movement. In a potential situation of mass enfranchisement, the 'masses' should be well educated; the museum was openly identified as a useful institution in this sense. This consideration also influenced approaches to collecting and arranging artworks and to configuring their architectural setting within the museum, allowing for displays to be instructive in specific ways. Dissatisfaction with the British Museum and National Gallery buildings and their locations led to proposals to move the national collections, possibly merging and redefining them. Again the socio-political usefulness of the museum was key in determining where the national collections should be housed and in what form of building. This rich debate is analysed with full references to the various forums in and out of Parliament. Part one covers these issues in a thematic structure, examining all of the national collections, their interrelationships and their gradual development of discrete (yet sometimes arbitrary) museological territories. Part two focuses on the individual case of the National Gallery, observing how museological debate was brought to bear on the development of a specific institution. Every architectural development and redisplay is closely analysed in order to gauge the extent to which the products of debate were carried through into practice, and to comprehend the reasons why no museological grand project emerged in London.

The Routledge Companion to Art in the Public Realm

The Routledge Companion to Art in the Public Realm-Cameron Cartiere 2020-10-20 This multidisciplinary companion offers a comprehensive overview of the global arena of public art. It is organised around four distinct topics: activation, social justice, memory and identity, and ecology, with a final chapter mapping significant works of public and social practice art around the world between 2008 and 2018. The thematic approach brings into view similarities and differences in the recent globalisation of public art practices, while the multidisciplinary emphasis allows for a consideration of the complex outcomes and consequences of such practices, as they engage different disciplines and communities and affect a diversity of audiences beyond the existing 'art world'. The book will highlight an international selection of artist projects that illustrate the themes. This book will be of interest to scholars in contemporary art, art history, urban studies, and museum studies.

Public Art and Museums in Cultural Districts-J. Pedro Lorente

Public Art and Museums in Cultural Districts-J. Pedro Lorente 2018-09-03 Museums and public art have traditionally taken significantly different approaches to customer engagement, but throughout history they have also worked together in some urban contexts, notably as landmarks of so-called cultural districts. Public Art and Museums in Cultural Districts reviews their changing interactions in many different types of cities since the Enlightenment, or even before, going back to the etymological origins of museums and monuments in classical antiquity. The type of historical enquiry presented within the volume is not intended as a total narrative, but the international study cases considered convey a global panorama of the shifting paradigms set in different periods by some cultural neighbourhoods and emulated worldwide. Blurring boundaries between art history, museology and urbanism, this critical account explores past tensions, achievements and failures, giving insightful consideration to present policies and pointing out reasonable recommendations for the future regarding public heritage. Presenting for the first time an insights into the role of collections of public art as landmarks of cultural districts, this book considers collections displayed outdoors from the double perspective of curatorial outreach and civic values. This book will fill a gap in the existing museum studies literature, hitherto mainly focused on indoor collecting and curatorial policies, but increasingly more and more attentive to their outside context. As such, the book should be of great interest to academics, researchers and students working in the fields of art, heritage, museum studies and urban history. It should also be of value to professionals working in the museum and art sectors.

Art by the Book-J. P. Park

Art by the Book-J. P. Park 2017-05-01 Sometime before 1579, Zhou Lujing, a professional writer living in a bustling commercial town in southeastern China, published a series of lavishly illustrated books, which constituted the first multigenre painting manuals in Chinese history. Their popularity was immediate and their contents and format were widely reprinted and disseminated in a number of contemporary publications. Focusing on Zhou's work, Art by the Book describes how such publications accommodated the cultural taste and demands of the general public, and shows how painting manuals functioned as a form in which everything from icons of popular culture to graphic or literary cliché was presented to both gratify and shape the sensibilities of a growing reading public. As a special commodity of early modern China, when cultural standing was measured by a person's command of literati taste and lore, painting manuals provided nonelite readers with a device for enhancing social capital.

Public Servants-Lisa Phillips

Public Servants-Lisa Phillips 2016-10-28 How should we understand the purpose of publicly engaged art in the twenty-first century, when the very term "public art" is largely insufficient to describe such practices? Concepts such as "new genre public art," "social practice," or "socially engaged art" may imply a synergy between the

role of art and the role of government in providing social services. Yet the arts and social services differ crucially in terms of their methods and metrics. Socially engaged artists need not be aligned (and may often be opposed) to the public sector and to institutionalized systems. In many countries, structures of democratic governance and public responsibility are shifting, eroding, and being remade in profound ways -- driven by radical economic, political, and global forces. According to what terms and through what means can art engage with these changes? This volume gathers essays, dialogues, and art projects -- some previously published and some newly commissioned -- to illuminate the ways the arts shape and reshape a rapidly changing social and governmental landscape. An artist portfolio section presents original statements and projects by some of the key figures grappling with these ideas.
