Voices of Angel Island-
Charles Egan 2020-12-10

Voices of Angel Island is a historical and literary anthology of the writings of immigrants detained at Angel Island, designed to provide a conduit for readers today to connect with early-20th-century perspectives on the process of "becoming American." The Angel Island Immigration Station in San

Francisco Bay has been called the "Ellis Island of the West," but its purpose was quite different. It was primarily a detention center, established in large part to discourage immigration by Asians. The station barracks contain an extraordinary archive: hundreds of poems and prose records in half a dozen languages are on the walls, inscribed by immigrant detainees between 1910 and 1940, and by POWs and "enemy aliens" during World War II. Charles Egan draws on over a decade's work deciphering the wall inscriptions by Japanese, Chinese, Korean, European, and other detainees to assemble a selection of their writings in this book, alongside literary materials from Bay Area ethnic newspapers. While each inscription tells the story of an individual, taken together they illuminate the historical, economic, and cultural forces that shaped the lives of ordinary people in the early 20th century.

The Whole Island-Mark Weiss
2009-11-25 Cuba's cultural influence throughout the Western Hemisphere, and especially in the United States, has been disproportionately large for so small a country. This landmark volume is the first comprehensive overview of poetry written over the past sixty years. Presented in a beautiful Spanish-English en face edition, *The Whole Island* makes available the astonishing achievement of a wide range of Cuban poets, including such well-known figures as Nicolás Guillén, José Lezama Lima, and Nancy

Morejón, but also poets widely read in Spanish who remain almost unknown to the English-speaking world—among them Fina García Marruz, José Kozer, Raúl Hernández Novás, and Ángel Escobar—and poets born since the Revolution, like Rogelio Saunders, Omar Pérez, Alessandra Molina, and Javier Marimón. The translations, almost all of them new, convey the intensity and beauty of the accompanying Spanish originals. With their work deeply rooted in Cuban culture, many of these poets—both on and off the island—have been at the center of the political and social changes of this tempestuous period. The poems offered here constitute an essential source for understanding the literature and culture of Cuba, its diaspora, and the Caribbean at large, and provide an unparalleled perspective on what it means to be Cuban.

Angel Island-Erika Lee
2010-08-30 From 1910 to 1940, over half a million people sailed through the

Golden Gate, hoping to start a new life in America. But they did not all disembark in San Francisco; instead, most were ferried across the bay to the Angel Island Immigration Station. For many, this was the real gateway to the United States. For others, it was a prison and their final destination, before being sent home. In this landmark book, historians Erika Lee and Judy Yung (both descendants of immigrants detained on the island) provide the first comprehensive history of the Angel Island Immigration Station. Drawing on extensive new research, including immigration records, oral histories, and inscriptions on the barrack walls, the authors produce a sweeping yet intensely personal history of Chinese "paper sons," Japanese picture brides, Korean students, South Asian political activists, Russian and Jewish refugees, Mexican families, Filipino repatriates, and many others from around the world. Their experiences on Angel Island reveal how America's discriminatory immigration policies changed the lives of immigrants and transformed the nation. A

place of heartrending history and breathtaking beauty, the Angel Island Immigration Station is a National Historic Landmark, and like Ellis Island, it is recognized as one of the most important sites where America's immigration history was made. This fascinating history is ultimately about America itself and its complicated relationship to immigration, a story that continues today.

A Little History of Poetry-

John Carey 2020-04-21 A vital, engaging, and hugely enjoyable guide to poetry, from ancient times to the present, by one of our greatest champions of literature The Times and Sunday Times, Best Books of 2020 "[A] fizzing, exhilarating book."—Sebastian Faulks, Sunday Times What is poetry? If music is sound organized in a particular way, poetry is a way of organizing language. It is language made special so that it will be remembered and valued. It does not always work—over the centuries countless thousands of poems have been forgotten. But this Little History is about some

that have not. John Carey tells the stories behind the world's greatest poems, from the oldest surviving one written nearly four thousand years ago to those being written today. Carey looks at poets whose works shape our views of the world, such as Dante, Chaucer, Shakespeare, Whitman, and Yeats. He also looks at more recent poets, like Derek Walcott, Marianne Moore, and Maya Angelou, who have started to question what makes a poem "great" in the first place. For readers both young and old, this little history shines a light for readers on the richness of the world's poems—and the elusive quality that makes them all the more enticing.

Poplar Island-

Peter K. Bailey 2011-02-17 True story of a young boy growing up on an island in the Chesapeake Bay and going to school by boat. Book includes an interesting history of this unique island, the first settlement in Talbot County, and also the home to President Franklin D. Roosevelt's exclusive "Jefferson Islands Club" in the 1930's. Also included is the

story of the island's incredible reconstruction, started in 1998, after the island had all but washed away.

Stereo. Island. Mosaic- Vincent Toro 2016 Poetry. Latino/Latina Studies. No simple tourist trip, no three-hour tour, Vincent Toro's carefully-structured STEREO.ISLAND.MOSAIC. draws the reader into lived experience of culture. Confronted with Puerto Rico, other Americans—Leonard Bernstein in West Side Story—often declare the island 'exotic.' Certainly such signifiers abound on this version of the island: mangos to eat, men wearing the Guayabera, tropical flora spilling everywhere. But our dive here is deeper: into the mind of an elderly man losing language, into the ocean in one century to wash up on the mainland in another time that compels the island native to assimilate. To become a 'Sorta Rican,' in Toro's book, is to become what the epigraph calls a 'hybridized subject.' Even the already- syncretized religion, Santería, finds its 'Orishas... hostage' to

disability and alcoholism, like its believers, like their descendants and neighbors. These scattered migrants, shown in fragmented images, live in a New York as crowded and bright as a Romare Bearden collage. The voice of the island itself plays in stereo through the broken language of the book, now jazz and now hip-hop, coming from everywhere and nowhere. What we are given in STEREO.ISLAND.MOSAIC. is not a comfortable beauty; we feel the 'torn... tendons' of the worker who comes to the mainland to earn money for home. The pattern that emerges is necessary, packed with living history of the island people like the 'epic memory' of the Taino Indians' ritual theater.

City of Inmates-Kelly Lytle Hernández 2017-02-15 Los

Angeles incarcerates more people than any other city in the United States, which imprisons more people than any other nation on Earth. This book explains how the City of Angels became the capital city of the world's leading incarcerator. Marshaling more than two centuries of evidence, historian Kelly Lytle Hernandez unmaskes how histories of native elimination, immigrant exclusion, and black disappearance drove the rise of incarceration in Los Angeles. In this telling, which spans from the Spanish colonial era to the outbreak of the 1965 Watts Rebellion, Hernandez documents the persistent historical bond between the racial fantasies of conquest, namely its settler colonial form, and the eliminatory capacities of incarceration. But City of Inmates is also a chronicle of resilience and rebellion, documenting how targeted peoples and communities have always fought back. They busted out of jail, forced Supreme Court rulings, advanced revolution across bars and borders, and, as in the summer of 1965, set fire

to the belly of the city. With these acts those who fought the rise of incarceration in Los Angeles altered the course of history in the city, the borderlands, and beyond. This book recounts how the dynamics of conquest met deep reservoirs of rebellion as Los Angeles became the City of Inmates, the nation's carceral core. It is a story that is far from over.

Saracen Island-David Solway 2000 Andreas Karavis has been called Greece's modern Homer. This is the first time that his work has appeared in English, except for a poem in the Atlantic Monthly and a selection of poems in Books in Canada. Born in 1932, his first book, *White Poems*, appeared in 1965. His second volume, *The Dream Masters*, was published in 1989 and rapidly established Karavis as one of the most magisterial and patristic poetry voices in the history of modern Greek literature. The title poem, generally considered to be Karavis' signature work, is included in almost every recent anthology and is a staple in university courses.

The Sleepy Inlet-Mary Magwood Causey 2015-03-09 Mary Magwood Causey grew up on the isolated shores of Little Bulls Island, South Carolina. The family lived in a home built from timbers harvested from shipwrecks. There was no electricity and no phone—none of the conveniences deemed essential to modern life. The youngest of almost a dozen siblings, Causey was alone

more often than not, her brothers and sisters having mostly moved, married, or joined the army. She learned to entertain herself, writing poetry and playing creative but often lonely games, surrounded by the peace and beauty of the small island. At age eight she experienced a near-tragedy that transformed into a miraculous event, changing her life forever. This is the story of Causey, her siblings, and her parents—her hardworking Mamma and her old-fashioned, unchangeable Poppa who lived on and loved Little Bulls Island his entire life. And it's the story of a rebellious teenager, whose desire for a “normal” life leads to her hurting the father she loves dearly. Part inspirational memoir, part poetry collection, and part recipe book, *The Sleepy Inlet* captures Causey's memories of a simple life and an island whose beauty and peace she would only fully appreciate after she left.

Diaries of Exile-Yannis Ritsos 2013-01-01
Yannis Ritsos is a poet whose writing life is entwined with the contemporary history of his homeland. Nowhere is this more apparent than in this volume, which presents a series of three diaries in poetry that Ritsos wrote between 1948 and 1950, during and just after the Greek Civil War, while a political prisoner first on the island of Limnos and then at the infamous camp on

Makronisos. Even in this darkest of times, Ritsos dedicated his days to poetry, trusting in writing and in art as collective endeavors capable of resisting oppression and bringing people together across distance and time. These poems offer glimpses into the daily routines of life in exile, the quiet violence Ritsos and his fellow prisoners endured, the fluctuations in the prisoners' sense of solidarity, and their struggle to maintain humanity through language. This moving volume justifies Ritsos's reputation as one of the truly important poets in Greece's modern literary history.

Becoming Justice

Blackmun-Linda Greenhouse
2007-04-01 A Pulitzer Prize-winning correspondent with unprecedented access to the inner workings of the U.S. Supreme Court chronicles the personal transformation of a legendary justice From 1970 to 1994, Justice Harry A. Blackmun (1908-1999) wrote numerous landmark Supreme Court decisions, including Roe v. Wade, and participated in the most contentious debates of his era-all behind closed doors. In Becoming Justice Blackmun, Linda Greenhouse of The New York Times draws back the curtain on America's most private branch of government and reveals the backstage story of the Supreme Court through the eyes and writings of this extraordinary justice. Greenhouse was the first print

reporter to have access to Blackmun's extensive archive and his private and public papers. From this trove she has crafted a compelling narrative of Blackmun's years on the Court, showing how he never lost sight of the human beings behind the legal cases and how he was not afraid to question his own views on such controversial issues as abortion, the death penalty, and sex discrimination. Greenhouse also tells the story of how Blackmun's lifelong friendship with Chief Justice Warren E. Burger withered in the crucible of life on the nation's highest court, revealing how political differences became personal, even for the country's most respected jurists. Becoming Justice Blackmun, written by America's preeminent Supreme Court reporter, offers a rare and wonderfully vivid portrait of the nation's highest court, including insights into many of the current justices. It is a must-read for everyone who cares about the Court and its impact on our lives.

The Battle of Wake Island-
Charles River Charles River
Editors 2018-02-03 *Includes pictures *Includes accounts of the fighting by soldiers on both sides *Includes online resources and a bibliography for further reading All Americans are familiar with the "day that will live in infamy." At 9:30 a.m. on Sunday, December 7, 1941, Pearl Harbor, the advanced base of the United States Navy's Pacific Fleet, was ablaze. It had been smashed by aircraft launched by the carriers of the Imperial Japanese Navy. All eight battleships had been sunk or badly damaged, 350 aircraft had been knocked out, and over 2,000 Americans lay dead. Indelible images of the USS *Arizona* exploding and the USS *Oklahoma* capsizing

and floating upside down have been ingrained in the American conscience ever since. In less than an hour and a half the Japanese had almost wiped out America's entire naval presence in the Pacific, but one of the aspects of the war most forgotten is that the Japanese simultaneously launched concerted attacks against American targets elsewhere in the Pacific that the same day, including one against the strategically located Wake Island. Claimed for the United States in 1841 by the cheerful, narrow-faced Lieutenant Charles Wilkes aboard the USS Vincennes, Wake Island (actually three separate portions known as Wake, Peale, and Wilkes Islands) remained essentially useless until the technology and politics of the 20th century suddenly rendered it more important. Given the possibility of war with Japan in the near future, the United States Navy began researching and developing the island for use as a forward airbase in 1940. Located between Hawaii and Japan, with the nearest inhabited land over 600 miles away,

Wake appeared as a key strategic asset for America. Its status as U.S. territory made it possible for the Navy to construct a base there without antagonizing the Japanese, and desalination technology enabled maintaining a permanent human presence on the island. Admiral Husband E. Kimmel, CINCPAC in 1941, prepared a long commentary on Wake which included the assessment: "The strategic importance of Wake is increasingly evident, as one inquires into means by which the Pacific Fleet may carry on offensive operations to the westward. [...] As an operating patrol plane base, it could prove highly valuable to us in observing the Marshalls, or in covering advance of our forces toward the Saipan-Honshu line. In the hands of the Japanese, it would be a serious obstacle to surprise raids." (Heinl, 1947, 1). The Japanese, of course, also recognized the strategic value of Wake and planned to deny it to the United States. Since their war plan involved a surprise attack, with the declaration of war following the start of hostilities, they

anticipated seizing Wake Island with minimal resistance from the contractors and U.S. Marines there. The Japanese might perhaps have viewed the Americans on Wake in the same way Shakespeare's Duke of Orleans dismissed the English in Henry V, Act III, Scene 7: "You may as well say, that's a valiant flea that dare eat his breakfast on the lip of a lion." As it turned out, the Japanese would require multiple invasion attempts and a few weeks to take the island against dogged American resistance, and it would cost them over 1,000 casualties by the time the fighting was finished. The Battle of Wake Island: The History of the Japanese Invasion Launched in Conjunction with the Attack on Pearl Harbor chronicles one of the initial Japanese campaigns in the Pacific. Along with pictures of important people, places, and events, you will learn about the battle like never before.

The Story of Old Nantucket; a Brief History of the Island and Its People from Its Discovery Down to the Present Day-William Francis Macy 1915

Islanders-Teow Lim Goh 2016-07-12 A blend of fact, fiction, politics, and intimacy this poetry book chronicles a forgotten episode in American history and prefigure today's immigration debates. Between 1910 and 1940, Chinese immigrants to America were detained at the Angel Island Immigration Station in the San Francisco Bay. As they waited for weeks and months to know if they could land, some of the detainees wrote poems on the walls. All the poems on record were found in the men's barracks; the women's quarters were destroyed by a fire. The collection imagines the lost voices of the detained women,

while also telling the stories of their families on shore, the staff at Angel Island, and the 1877 San Francisco Chinatown Riot.

The Poetry of Celia Thaxter

- Volume I-Celia Thaxter

2017-01-23 Celia Lughton

Thaxter was born in Portsmouth, New Hampshire on June 29th, 1835 and spent her childhood years on the Isles of Shoals, initially on White Island, where her father, Thomas Lughton, was a lighthouse keeper, and then the wonderfully named Smuttynose and Appledore Islands. At sixteen, she married Levi Thaxter, her father's business partner, and moved to the mainland, residing first in Watertown, Massachusetts, at a property his father owned. In 1854, they moved to a house in Newburyport and later, in 1856, acquired their own home near the Charles River at Newtonville. Celia had two sons, one of whom was Roland, born August 28, 1858, and would become a prominent mycologist who would later teach at Harvard. Her first published poem was

written during this time on the mainland. That poem, "Land-Locked," was first published in the Atlantic Monthly in 1861 and earned her \$10. It was to be the beginning of a career that would make her one of America's most popular poets and short story writers. Her marriage with Levi was not perfect, tensions gradually increased. After 10 years she moved back to the islands and her beloved Appledore Island. The marriage was not over but the separations grew longer as Levi didn't share his wife's love of island life. Celia became the hostess of her father's hotel, the Appledore House, and many New England literary and artists stayed there; Ralph Waldo Emerson, Nathaniel Hawthorne, Henry Wadsworth Longfellow, Henry David Thoreau, John Greenleaf Whittier, Sarah Orne Jewett, and the artists William Morris Hunt, Childe Hassam, who painted several pictures of her and watercolorist Ellen Robbins, who painted the flowers in her garden. Celia was present at the time of the infamous murders on Smuttynose Island, about

which she wrote the essay, A Memorable Murder which we have included at the end of this volume of poetry. William Morris Hunt, a close family friend, trying to recover from a debilitating depression, drowned in late summer 1879, an apparent suicide, three days after finishing his last sketch. Celia bore the horror of discovering the body. That same year, the Thaxters' bought 186 acres on Seapoint Beach on Cutts Island, Kittery Point, where they built a grand Shingle Style "cottage" called Champernowne Farm. In 1880, they auctioned the Newtonville house, and in 1881, moved to their new home. In March 1888, her friend and fellow poet Whittier hoped "on that lonesome, windy coast where she can only look upon the desolate, winter-bitten pasture-land and the cold grey sea" she could be comforted by "memories of her Italian travels." Among Celia's most remembered and best loved poems are "The Burgomaster Gull," "Landlocked," "Milking," "The Great White Owl," "The Kingfisher," and "The

Sandpiper." Celia Thaxter died suddenly on August 25th, 1894 on Appledore Island and is buried not far from her cottage, which later burned down in the 1914 fire that consumed The Appledore House hotel.

The Island-Maja Starzec
2014-10-04 Emma O'Shea loves her Dublin life, her university job, and her Co. Mayo family estate. She has even come to accept her sunset transformation into a Creole, exotic lady whose tastes and thoughts are annoyingly at odds with her Irish daytime persona. At nights, Emma dreams of a sugar cane plantation on a tropical island. Trapped between Dublin of 2012 and Martinique of 1695, Emma decides to travel to the island of her dreams. In Martinique, Emma understands the reason for the curse of her nightly change, and how her ancestor's legacy of evil and greed has thwarted her family generation after generation. Two islands, two cultures, a girl in between and, oh, also a very irate goddess in a magic reality tale bursting with

spices, insight, and discovery.

The works of this award-winning poet and novelist are rich with the language and influences of two cultures: those of the Dominican Republic of her childhood and the America of her youth and adulthood. They have shaped her writing just as they have shaped her life. In these seventy-five autobiographical

poems, Alvarez's clear voice sings out in every line. Here, in the middle of her life, she looks back as a way of understanding and celebrating the woman she has become.
