**Dear People ... Robert Shaw**-Joseph A. **Robert Shaw**-Karen Carmean 1994 A gripping biography of the actor best known for his role in Jaws.

**Robert Shaw**-John French 2016-09-05 Robert Shaw is most celebrated today as the Oscar-nominated star in movies like From Russia with Love, A Man For All Seasons, The Sting and - most memorably of all - as Quint in the record-breaking Jaws. His breakthrough came when Hollywood was experiencing something of a British Invasion. Sean Connery, Peter O'Toole, Vanessa Redgrave and Richard Burton were among the new stars. But Shaw was arguably more talented than any, a figure of extraordinary and wide-ranging promise. More than just a mesmerising actor on stage and screen, he was also a gifted writer. He wrote no less than six published novels (winning the Hawthornden Prize), while his plays include the acclaimed Man in The Glass Booth. The flipside to Shaw's diverse abilities was his well-earned reputation as a hellraiser. A fiercely competitive man in all areas of his life, whether playing table tennis or drinking whisky, he emptied mini-bars, crashed Aston Martins, fathered nine children by three different women, made (and spent) a fortune, and set fire to Orson Welles' house. He died at 51, having driven himself too hard, too fast, but unable to get past the tortured relationship to his father who had committed suicide when Shaw was just 11. Though his life ended tragically, it is fortunate that Shaw's biographer is someone who knew him well, professionally and personally. Robert Shaw: The Price of Success is a perceptive, sympathetic, but unsparing portrait of the blessings and curses endowing this

mercurial, enigmatic but deeply engaging man.

**The Nocturnal City**-Robert Shaw 2018-02-02 Night is a foundational element of human and animal life on earth, but its interaction with the social world has undergone significant transformations during the era of globalization. As the economic activity of the 'daytime' city has advanced into the night, other uses of the night as a time for play, for sleep or for escaping oppression have come increasingly under threat. This book looks at the relationship between night and society in contemporary cities. It identifies that while theories of 'planetary urbanization' have traced the spatial spread of urban forms, the temporal expansion of urban capitalism has been less well mapped. It argues that, as a key part of planetary being, understanding what goes on at night in cities can add nuance to debates on planetary urbanization. A series of practices and spaces that we encounter in the night-time city are explored. These include: the maintenance and repair of infrastructure; the aesthetics of the urban night; nightlife and the night-time economy; the home at night; and the ecologies of the urban night. Taking these forward the book will ask whether the night can reveal some of the boundaries to what we call 'the urban' in a world of cities, and will call for a revitalized and enhanced 'nightology' to study these limits.

**Blue-Eyed Child of Fortune**-Robert Gould Shaw 2011-08-15 On the Boston Common stands one of the great Civil War memorials, a magnificent bronze sculpture by Augustus Saint-Gaudens. It depicts the black soldiers of the Fifty-fourth Massachusetts Infantry marching alongside their young white commander, Colonel Robert Gould Shaw. When the philosopher William James dedicated the memorial in May 1897, he stirred the assembled crowd with these words: "There they march, warm-blooded champions of a better day for man. There on horseback among them, in the very habit as he lived, sits the blue-eyed child of fortune." In this book Shaw speaks for himself with equal eloquence through nearly two hundred letters he wrote to his family and friends during the Civil War. The portrait that emerges is of a man more divided and complex--though no less heroic--than the Shaw depicted in the celebrated film *Glory*. The pampered son of wealthy Boston abolitionists, Shaw was no abolitionist himself, but he was among the first patriots to respond to Lincoln's call for troops after the attack on Fort Sumter. After Cedar Mountain and Antietam, Shaw knew the carnage of war firsthand. Describing nightfall on the Antietam battlefield,

he wrote, "the crickets chirped, and the frogs croaked, just as if nothing unusual had happened all day long, and presently the stars came out bright, and we lay down among the dead, and slept soundly until daylight. There were twenty dead bodies within a rod of me." When Federal war aims shifted from an emphasis on restoring the Union to the higher goal of emancipation for four million slaves, Shaw's mother pressured her son into accepting the command of the North's vanguard black regiment, the Fifty-fourth Massachusetts. A paternalist who never fully reconciled his own prejudices about black inferiority, Shaw assumed the command with great reluctance. Yet, as he trained his recruits in Readville, Massachusetts, during the early months of 1863, he came to respect their pluck and dedication. "There is not the least doubt," he wrote his mother, "that we shall leave the state, with as good a regiment, as any that has marched." Despite such expressions of confidence, Shaw in fact continued to worry about how well his troops would perform under fire. The ultimate test came in South Carolina in July 1863, when the Fifty-fourth led a brave but ill-fated charge on Fort Wagner, at the approach to Charleston Harbor. As Shaw waved his sword and urged his men forward, an enemy bullet felled him on the fort's parapet. A few hours later the Confederates dumped his body into a mass grave with the bodies of twenty of his men. Although the assault was a failure from a military standpoint, it proved the proposition to which Shaw had reluctantly dedicated himself when he took command of the Fifty-fourth: that black soldiers could indeed be fighting men. By year's end, sixty new black regiments were being organized. A previous selection of Shaw's correspondence was privately published by his family in 1864. For this volume, Russell Duncan has restored many passages omitted from the earlier edition and has provided detailed explanatory notes to the letters. In addition he has written a lengthy biographical essay that places the young colonel and his regiment in historical context.

**The Epidemic**-Robert Shaw 2004-09-21 From an esteemed child psychiatrist: a bold, fresh, and controversial look at the faddish child-rearing practices that have created a nation of children who are depressed, alienated, often amoral, and all too often violent. The shock of the Columbine shootings and other school violence has generated a national debate, and there's a dawning realization that something incomprehensible is happening: our privileged, pampered children are turning into monsters at an alarming rate. With years of study and first-hand experience, Dr. Robert Shaw exposes the roots of what he calls The Epidemic: the violence and the more subtle behaviour problems that are jeopardizing a generation. In this eye-opening book, Dr. Shaw explains that the "advanced" parenting methods experts have promoted for the last thirty years have helped to create a nation of children who are detached loners, unable to form meaningful relationships. From infancy through the teen years, Dr. Shaw provides a map back to sanity that tracks specific misguided parenting techniques and shows parents how to get and keep their children on track and create the environment necessary for a healthy psychological future. Some of the important ground Dr. Shaw covers includes: The myths and realities of bonding and attachment How to recognize when day care is working - and when it isn't Landmarks to look for in your children's moral and ethical development Self-centeredness versus self-esteem Keeping the media from mugging your child What can be done with a child who is out of control Dr. Shaw challenges us to confront a very real problem, then helps us take steps forward using common sense and humanity. The Epidemic calls us to become better parents—and feel better about the choices we make for our children.

**Extreme Teams**-Robert Bruce Shaw 2017-02-16  
Every manager desires to have great teams around them collaborating together and running with the mission. Unfortunately, most of these teams have been built around decades-old ideas and practices made popular by companies that either no longer exist or haven't been relevant in years. But a new generation of teams has learned to do things differently--things like hiring the right person instead of the best person; focusing on one priority while leaving room to explore new ideas; creating an environment where people are comfortable dealing with the uncomfortable; and maximizing profit by not making it top priority. And this revitalized look at how teams should work in today's business is driving real growth in some of the world's most innovative firms. In *Extreme Teams*, sneak peeks into top companies and examine the teamwork experiments powering their results, including how:  
• Pixar's teams use constant feedback and debate to transform initially flawed films into billion-dollar hits  
• A culture of radical "freedom and responsibility" helps Netflix execute on the next big thing  
• Whole Food's super-autonomous teams embrace hard metrics and friendly competition to drive performance  
• Zappos fuels the weirdness and fun that sustains its success  
• And much more!  
From marketing to design to technology to product demand, everything has changed in business and will continue to do so. Why shouldn't the teams carrying out these changes undergo their own upgrades?

**Alternative Capitalisms: Geographies of Emerging Regions**-Robert Gwynne 2014-05-12  
This book aims to examine the effects of globalization and economic and political transformations in those parts of the world which are now regularly referred to as 'emerging regions'. These are Latin America and the Caribbean, East Central Europe and the former Soviet Union and East Asia. This book breaks new ground in three areas. First of all it develops a critique of the use of the term "emerging regions" for geographers and social scientists and relates this to world-systems theory. Secondly, it explores the development trajectories and challenges of countries in this so-called emerging world, countries that will be crucial to the evolution of the world economy in the twenty-first century. Thirdly, it compares and contrasts the pathways of both economic and political change in the three world regions under focus. This is a unique approach in terms of books published in both geography and the social sciences. Within the context of the three world regions, the book combines historical and contemporary analysis of the evolving world-system. In these regions we are concerned to understand the historical expansion and extension of capitalism and how its contemporary forms of production, exchange and regulation are evolving. The authors believe that at the present time these processes have produced 'alternative capitalisms' - economic and associated developments which, while assuredly capitalist, differ in various ways from those typical of the capitalist West or 'core economies' of North America and Western Europe.

**All in**-Robert Bruce Shaw 2020-07-07  
What makes great leaders like Jeff Bezos and Elon Musk extraordinary? *All In* shows leaders and aspiring leaders how obsession can fuel the most incredible success, but also take a toll on a leader, his or her family and work colleagues. Groundbreaking leaders share a passionate commitment to achieving their vision that borders and sometimes crosses the line into obsession. *All In* shows how obsession, if properly focused and managed, is both necessary and productive. Advances in any endeavor almost always depend on a small group of individuals who are completely consumed by the goal they're pursuing. When these leaders and their teams

are successful, everyone benefits from their singular focus and relentless drive. *All In* explores the three obsessions underlying the achievements of great leaders: Delighting customers Building great products Creating an enduring company By taking you inside the success stories of iconic leaders, including Jeff Bezos of Amazon, Elon Musk of Tesla, and Steve Jobs of Apple, author Robert Bruce Shaw shows the upside of obsession and the practices that support it. Shaw also provides insight into the dark side of obsession and its destructive potential - as illustrated in his case study of Uber during the final years of Travis Kalanick's leadership tenure. Appealing to any reader of entrepreneurial biographies, *All In* shows individuals and organizations how to manage obsession's downsides while realizing the benefits of striving to create something that truly matters.

**A Matter of Confidence**-Rob Shaw 2018-03-19 Shortlisted, 2019 BC and Yukon Book Prizes Hubert Evans Prize for Non-Fiction A breathtaking behind-the-scenes look at the dramatic rise and fall of Christy Clark's BC Liberals, the return to power of the NDP, and what it means for British Columbia's volatile political climate going forward. British Columbia's political arena has always been the site of dramatic rises and falls, infighting, scandal, and come-from-behind victories. However, no one was prepared for the historic events of spring 2017, when the Liberal government of Christy Clark, one of the most polarizing premiers in recent history, was toppled. *A Matter of Confidence* gives readers an insider's look at the overconfidence that fuelled the rise and fall of Clark's premiership and the historic non-confidence vote that defeated her government and ended her political career. Beginning with this pivotal moment, the book goes back and chronicles the downfall of Clark's predecessor, Gordon Campbell, which led to her unlikely victory in 2013, and traces the events leading up to her defeat at the hands of her NDP and Green opponents. Told by reporters Richard Zussman and Rob Shaw, who covered every

moment of the election cycle, and illustrated by candid and extensive interviews with political insiders from both sides of the aisle—including Christy Clark and John Horgan—this book is a must read for anyone who cares about BC politics and the future of the province.

**The Embodied Psychotherapist**-Robert Shaw 2003 The therapist's body is a vital part of the therapeutic encounter, yet there is an inherent inadequacy in current psychotherapeutic discourse to describe the bodily phenomena. **Where Death and Glory Meet**-Russell Duncan  
1999 On July 18, 1863, the African American soldiers of the Fifty-Fourth Massachusetts Infantry led a courageous but ill-fated charge on Fort Wagner, a key bastion guarding Charleston harbor. Confederate defenders killed, wounded, or made prisoners of half the regiment. Only hours later, the body of Colonel Robert Gould Shaw, the regiment's white commander, was thrown into a mass grave with those of twenty of his men. The assault promoted the young colonel to the higher rank of martyr, ranking him alongside the legendary John Brown in the eyes of abolitionists. In this biography of Shaw, Russell Duncan presents a poignant portrait of an average young soldier, just past the cusp of manhood and still struggling against his mother's indomitable will, thrust unexpectedly into the national limelight. Using information gleaned from Shaw's letters home before and during the war, Duncan tells the story of the rebellious son of wealthy Boston abolitionists who never fully reconciled his own racial prejudices yet went on to head the North's vanguard black regiment and give his life to the cause of freedom. This thorough biography looks at Shaw from historical and psychological viewpoints and examines the complex family relationships that so strongly influenced him.

**American Weathervanes**-Robert Shaw  
2021-03-02 This groundbreaking study reveals the remarkable beauty, historical significance, and technical virtuosity of American vanes fashioned between the late seventeenth and early twentieth centuries and is lavishly illustrated with masterworks from prominent private and public collections. This major American art form has been an enduring part of the landscape since Colonial days. America's first documented vane maker, Shem Drowne of Boston, crafted the

iconic golden grasshopper that has topped the city's Faneuil Hall since 1743. Farmers made roosters, cows, and horses for their barns. As the tradition and public demand expanded, so did the diversity of forms. Today, weathervanes hold a well-established place in the canon of American folk art. American Weathervanes celebrates this artistry and is the most up-to-date and authoritative work on this subject.
