**The Atmosphere of Heaven**-Mike Jay  
2010-08-13 At the Pneumatic Institution in Bristol, England, founded in the closing years of the eighteenth century, dramatic experiments with gases precipitated not only a revolution in scientific medicine but also in the history of ideas. Guided by the energy of maverick doctor Thomas Beddoes, the institution was both laboratory and hospital—the first example of a modern medical research institution. But when its members discovered the mind-altering properties of nitrous oxide, or laughing gas, their experiments devolved into a pioneering exploration of consciousness with far-reaching and unforeseen effects. This riveting book is the first to tell the story of Dr. Beddoes and the brilliant circle who surrounded him: Erasmus Darwin, Samuel Taylor Coleridge, and Robert Southey, who supported his ideas; James Watt, who designed and built his laboratory; Thomas Wedgwood, who funded it; and the dazzling young chemistry assistant, Humphry Davy, who identified nitrous oxide and tested it on himself, with spectacular results. Medical historian Mike Jay charts the chaotic rise and fall of the institution in this fast-paced account, and reveals its crucial influence—on modern drug culture, attitudes toward objective and subjective knowledge, the development of anesthetic surgery, and the birth of the Romantic

movement.

**The Culture of Heaven**-Troy Goode 2018-04-10

The Culture of Heaven explores the key traits of people who consistently experience powerful partnership with the Holy Spirit, thereby invading earth with the atmosphere of heaven. God's heart is for His people to be influenced daily by the culture that He inhabits, benefiting from His presence in their lives. Moreover, He wants us to be "brokers" of His culture. It should be so much a part of us that we begin to transform everything—and everyone—around us. When we release the culture of heaven, we place people on a direct path to the loving touch of God—a touch that can heal them and change their lives forever. To experience the culture of heaven ourselves, we must set aside distractions so that we can get in tune with God's thoughts and ways. Many of us have lost our passion and fire for the Lord; as a result, we experience very little of heaven's atmosphere. Through prayer,

fasting, sacrificial living, and spiritual anointing, we can regain a hunger for God and witness His kingdom at work in our world in remarkable ways with supernatural power.

**Experiments of Otto Von Guericke**-Otto von Guericke 2012-12-06 Otto von Guericke has been called a neglected genius, overlooked by most modern scholars, scientists, and laymen. He wrote his *Experimenta Nova* in the seventeenth century in Latin, a dead language for the most part inaccessible to contemporary scientists. Thus isolated by the remoteness of his time and his means of communication, von Guericke has for many years been denied the recognition he deserves in the English speaking world. Indeed, the century in which he lived witnessed the invention of six important and valuable scientific instruments -- the microscope, the telescope, the pendulum clock, the barometer, the thermometer, and the air pump. Von Guericke was associated with the development of the last three of these; he also experimented with a rudimentary electric machine. Thus his *Experimenta Nova* was an important work, heralding the emerging empiricism of seventeenth century science, and merits this first English translation of von Guericke's magnum opus.

### **Heaven on Earth**-Sharifa Oppenheimer 2006-08

As we see a shift of old forms that were once the foundations of our daily lives, parents--who must prepare the next generation to meet the changing world--have more questions today than ever before. Although our cultural values and family structures may change, it is the atmosphere in the home that continues to form the foundation of a child's life. In *Heaven on Earth*, parent and educator Sharifa Oppenheimer reveals how parents can make the home environment warm, lively, loving, and consistent with their highest ideals. *Heaven on Earth* balances a theoretical understanding of child development with practical ideas, resources, and tips that can transform family life. Readers will learn how to create the regular life rhythms needed to establish a foundation for learning; how to design indoor play environments that allow children the broadest development of skills; and how to create outdoor play spaces that encourage vigorous movement and a wide sensory palette. Through art, storytelling, and

the festival celebrations, this book is an invaluable guide to building a "family culture" based on the guiding principle of love--a culture that supports children and encourages the free development of each unique soul. Sharifa Oppenheimer offers a gift from the heart. *Heaven on Earth* is a practical, inspiring resource that brings the author's informed, intuitive understanding of young children into the heart of the home. "Sharifa Oppenheimer has given the world a great gift in the pages of this book. The important child-development information is exquisitely combined with the best 'How-to's' I have seen in any book for parents. Her book, is a ready guide that insures joyful, enthusiastic children who learn easily and contribute to their families and society for a lifetime. I have delighted in every page and feel this is absolutely A must read for parents, grandparents, teachers, and perhaps everyone who will ever touch the life of a child." --Carla Hannaford, Ph.D., biologist and international educational consultant to 32 countries and author of *Smart Moves: Why Learning Is Not All in Your Head* and *Awakening the Child Heart, Handbook for Global Parenting* "This delightful book will be a wonderful resource for parents. They will certainly appreciate its warm, friendly, personal, and reassuring tone. I would have loved such a book when I was a young mother! For those whose children already attend Waldorf programs, it provides a helpful resource for creating a bridge between home and kindergarten. For others, this lovely book offers wonderful glimpses into the wise and nurturing practices of Waldorf early childhood education. In a world where childhood is increasingly 'media'ted and 'adult'erated, this book offers much-needed support for the protection of childhood. " --Susan Howard, chairperson, Waldorf Early Childhood Association of North America and coordinator, International Association for Steiner/Waldorf Early Childhood Education "Being a parent is a challenging assignment, but with the help of Sharifa Oppenheimer's book, *Heaven on Earth*, our work immediately becomes easier. This book is both heartfelt and practical. It offers sound parenting principles with down-to-earth examples of how to raise children with both insight and grace." --Jack Petrash, director, Nova Institute, and author, *Navigating the Terrain of Childhood: A Guidebook for Meaningful Parenting and Heartfelt Discipline*

**All We Know of Heaven**-Jacquelyn Mitchard 2009-05-05 Bridget Flannery and Maureen O'Malley have been BFFs since forever. Then a brief moment of inattention on an icy road leaves one girl dead and the other in a coma, battered beyond recognition. Family and friends mourn one friend's loss and pray for the other's recovery. Then the doctors discover they have made a terrible mistake. The girl who lived is the one who everyone thought had died. Based on a true case of mistaken identity, *All We Know of Heaven* is a universal story that no one can read unmoved: a drama of ordinary people caught up in an unimaginable tragedy and of the healing power of hope and love.

**This Way Madness Lies**-Mike Jay 2016-10-25 A compelling and evocatively illustrated exploration of the evolution of the asylum, and its role in society over the course of four centuries *This Way Madness Lies* is a thought-provoking exploration of the history of madness and its treatment as seen through the lens of its proverbial home: Bethlem Royal Hospital, London, popularly known as Bedlam. The book charts the evolution of the asylum through four incarnations: the eighteenth-century madhouse, the nineteenth century asylum, the twentieth-century mental hospital, and the post-asylum modern day, when mental health has become the concern of the wider community. The book reveals the role that the history of madness and its treatment has played in creating the landscape of the asylum, in all its iterations. Moving and sometimes provocative illustrations sourced from the Wellcome Collection's extensive archives and the Bethlem Royal Hospital's archive highlight the trajectory of each successive era of institution: founded in the optimistic spirit of humanitarian reform but eventually dismantled amid accusations of cruelty and neglect. Each chapter concludes with a selection of revealing and captivating artwork created by some of the inmates of the institutions of that era. *This Way Madness Lies* highlights fundamental questions that remain relevant and unresolved: What lies at the root of mental illness? Should sufferers be segregated from society or integrated more fully? And in today's

post-asylum society, what does the future hold for a world beyond Bedlam?

**Caesar's Last Breath**-Sam Kean 2017-07-18 The Guardian's Best Science Book of 2017: the fascinating science and history of the air we breathe. It's invisible. It's ever-present. Without it, you would die in minutes. And it has an epic story to tell. In *Caesar's Last Breath*, New York Times bestselling author Sam Kean takes us on a journey through the periodic table, around the globe, and across time to tell the story of the air we breathe, which, it turns out, is also the story of earth and our existence on it. With every breath, you literally inhale the history of the world. On the ides of March, 44 BC, Julius Caesar died of stab wounds on the Senate floor, but the story of his last breath is still unfolding; in fact, you're probably inhaling some of it now. Of the sextillions of molecules entering or leaving your lungs at this moment, some might well bear traces of Cleopatra's perfumes, German mustard gas, particles exhaled by dinosaurs or emitted by atomic bombs, even remnants of stardust from the universe's creation. Tracing the origins and ingredients of our atmosphere, Kean reveals how the alchemy of air reshaped our continents, steered human progress, powered revolutions, and continues to influence everything we do. Along the way, we'll swim with radioactive pigs, witness the most important chemical reactions humans have discovered, and join the crowd at the Moulin Rouge for some of the crudest performance art of all time. Lively, witty, and filled with the astounding science of ordinary life, *Caesar's Last Breath* illuminates the science stories swirling around us every second.

Reviews of *Heaven and Earth* has said, "a damning critique of the 'evidence' underpinning manmade global warming". "A wonderfully comprehensive and fearless book...If there are any willing to hear some truly inconvenient truths on the stampeding advocacy of global warming, Mr. Plimer's book is a collection of some of the sternest." "...a brilliantly argued book... *Heaven and Earth* is an evidence-based attack on conformity and orthodoxy"

**The Blood of Heaven**-Kent Wascom 2013-06-04

"The work of a young writer with tremendous ambition, a bildungsroman of religion and revolution set during an obscure chapter of American history." —The Washington Post A powerful and impressive debut novel from the winner of the Tennessee Williams/New Orleans Literary Festival Prize for fiction—first in the Woolsack family saga that continues with *Secessia* and *The New Inheritors*. *The Blood of Heaven* is the story of Angel Woolsack, a preacher's son, who flees the hardscrabble life of his itinerant father, falls in with a charismatic highwayman, then settles with his adopted brothers on the rough frontier of West Florida, where American settlers are carving their place out of lands held by the Spaniards and the French. The novel moves from the bordellos of Natchez, where Angel meets his love Red Kate to the Mississippi River plantations, where the brutal system of slave labor is creating fantastic wealth along with terrible suffering, and finally to the back rooms of New Orleans among schemers, dreamers, and would-be revolutionaries plotting to break away from the young United States and create a new country under the leadership of the renegade founding father Aaron Burr. *The Blood of Heaven* is a remarkable portrait of a young man seizing his place in a violent new world, a moving love story, and a vivid tale of ambition and political machinations that brilliantly captures the energy and wildness of a young America where anything was possible. It is a startling debut. "Wascom is a craftsman, and each of his lengthy, winding sentences shimmers with the tang of blood and bone and sweat, and the archaic splendor of his language." —The Boston Globe

**Heaven, My Home**-Attica Locke 2019-09-17 In this "captivating" crime novel (People), Texas Ranger Darren Mathews is on the hunt for a missing child -- but it's the boy's family of white supremacists who are his real target. 9-year-old Levi King knew he should have left for home sooner; now he's alone in the darkness of vast Caddo Lake, in a boat whose motor just died. A sudden noise distracts him - and all goes dark. Darren Mathews is trying to emerge from another kind of darkness; after the events of his previous investigation, his marriage is in a precarious state of re-building, and his career and reputation lie in the hands of his mother, who's never exactly had his best interests at heart. Now she holds the key to his freedom, and she's not above a little maternal blackmail to press her advantage. An unlikely possibility of rescue arrives in the form of a case down Highway 59, in a small lakeside town where the local economy thrives on nostalgia for antebellum Texas - and some of the era's racial attitudes still thrive as well. Levi's disappearance has links to Darren's last case, and to a wealthy businesswoman, the boy's grandmother, who seems more concerned about the fate of her business than that of her grandson. Darren has to battle centuries-old suspicions and prejudices, as well as threats that have been reignited in the current political climate, as he races to find the boy, and to save himself. With the help of a time-traveling reporter named Galacti, Sam Kneller takes us from the Big Bang to the present day, exploring the ways in which 13.8 billion years of intergalactic happenings have led to a human species that thinks, acts, and interacts as it does. At the core of Krakauer's book are brothers Ron and Dan Lafferty, who insist they received a commandment from God to kill a blameless woman and her baby girl. Along the way he uncovers a shadowy offshoot of America's fastest growing religion, and raises provocative questions about the nature of religious belief.

**The Book of Signs**-Dr. David Jeremiah 2019-03-05 One of the world's most beloved Bible teachers offers a definitive collection of resources on biblical prophecy, the end times, and the apocalypse. "The end times." "The apocalypse." "The day of judgment." Terms such as these are both fascinating and frightening for any student of God's Word. They point to key questions people have wrestled with for centuries, including: What does the Bible tell us about the future? How much can we understand about biblical prophecy and its application in our lives? What signs and signals will precede the end of everything as we know it? **Seventh Heaven**-Alice Hoffman 2014-09-23 A New York Times bestseller about a 1950s suburb transformed by the arrival of a divorced mother: "part American Graffiti, part early Updike" (The New York Times). On Hemlock Street, the houses are identical, the lawns tidy, and the families traditional. A perfect slice of suburbia, this Long Island community shows no signs of change as the 1950s draw to a close—until the fateful

August morning when Nora Silk arrives. Recently divorced, Nora mows the lawn in slingback pumps and climbs her roof in the middle of the night to clean the gutters. She works three jobs, and when her casseroles don't turn out, she feeds her two boys—eight-year-old Billy and his baby brother, James—Frosted Flakes for supper. She wears black stretch pants instead of Bermuda shorts, owns twenty-three shades of nail polish, and sings along to Elvis like a schoolgirl. Though Nora is eager to fit in on Hemlock Street, her effect on the neighbors is anything but normal. The wives distrust her, the husbands desire her, and the children think she's a witch. But through Nora's eyes, the neighborhood appears far from perfect. Behind every neatly trimmed hedge and freshly painted shutter is a family struggling to solve its own unique mysteries. Inspired by Nora, the residents of Hemlock Street finally unlock the secrets that will transform their lives forever. A tale of extraordinary discoveries, Seventh Heaven is an ode to a single mother's heroic journey and a celebration of the courage it takes to change.
