**The Letters of Vincent Van Gogh**-Vincent Van Gogh 2003-09-25 A new selection of Vincent Van Gogh's letters, based on an entirely new translation, revealing his religious struggles, his fascination with the French Revolution, his search for love and his involvement in humanitarian causes.

**The complete letters of Vincent van Gogh with reproductions of all the drawings in the correspondence. 1 (1981)**-Vincent van Gogh 1981 Vincent van Gogh's letters to his brother Theo, other family members and friends such as fellow artists Gauguin and Émile Bernard are renowned for being the most passionate body of correspondence ever written by a painter. Giving a wealth of insight into the artist's character and state of mind, these three volumes contain all the existing letters with reproductions of the drawings with which they were illustrated. Most of the 650 letters were written between 1872 when Vincent was nineteen, and the year he died, 1890. All have been annotated and translated with the help of Theo's son. The reproductions include self-portraits and sketches, and in addition

there are introductory essays and a memoir of the artist written in 1913 by Theo's widow.

**I Remain Yours**-Christopher Hager 2018-01-08 For men in the Union and Confederate armies and their families at home, letter writing was the sole means to communicate. Taking pen to paper was a new and daunting task, but Christopher Hager shows how ordinary people made writing their own, and how they in turn transformed the culture of letters into a popular, democratic mode of communication.

**The First Six Books of the Elements of Euclid**-Oliver Byrne 1847 "Byrne ... considered that it might be easier to learn geometry if colors were substituted for the letters usually used to designate the angles and lines of geometric figures. Instead of referring to, say, 'angle ABC,' Byrne's text substituted a blue or yellow or red section equivalent to similarly colored sections in the theorem's main diagram."--Friedman.

**The Real Van Gogh**-Vincent van Gogh 2010-04 Vincent van Gogh (1853-1890) is one of the greatest figures in Western art. Revered for his bold, expressionist paintings, he is also admired as a prodigious and eloquent letter writer. His correspondence displays a remarkable literary

gift and an ability to communicate his ideas and feelings about nature, art, and life in direct, emotive language. Illustrated with works of art and letters that demonstrate Van Gogh's abiding preoccupations--the role of color in painting, the cycles of nature, and friendship, for example--this fascinating book explores the correspondence as a self-portrait of the artist and the man. The letter-sketches that Van Gogh used to describe completed works or those in progress are reproduced here alongside the finished paintings or drawings, providing a unique insight into his artistic development. Drawing on new and extensive research, leading authorities on Van Gogh reveal how the letters enhance and shape our view of this modern master.

**Ever Yours**-Vincent van Gogh 2014-12-02 In addition to his many remarkable paintings and drawings, Vincent van Gogh (1853-1890) left behind a fascinating and voluminous body of correspondence. This highly accessible book includes a broad selection of 265 letters, from a total of 820 in existence, that focus on Van Gogh's relentless quest to find his destiny, a search that led him to become an artist; the close bond with his brother Theo; his fraught relationship with his father; his innate yearning for recognition; and his great love of art and literature. The correspondence not only offers detailed insights into Van Gogh's complex inner life, but also re-creates the world in which he lived and the artistic avant-garde that was taking hold in Paris. The letters are accompanied by a general introduction, historic family photographs, and reproductions of 87 actual pages of letters that contain sketches by Van Gogh. Selected from the critically acclaimed 6-volume set of letters published by the Van Gogh Museum in 2009, *Ever Yours* is the essential book on Van Gogh's letters, which every art and literature lover needs to own.

**Van Gogh**-Steven Naifeh 2011-10-18 NEW YORK TIMES BESTSELLER • "The definitive biography for decades to come."—Leo Jansen, curator, the Van Gogh Museum, and co-editor of *Vincent van Gogh: The Complete Letters* Steven Naifeh and Gregory White Smith, who galvanized readers with their Pulitzer Prize-winning biography of Jackson Pollock, have written another tour de force—an exquisitely detailed, compellingly readable portrait of Vincent van Gogh. Working with the full cooperation of the Van Gogh Museum in Amsterdam, Naifeh and Smith have accessed a wealth of

previously untapped materials to bring a crucial understanding to the larger-than-life mythology of this great artist: his early struggles to find his place in the world; his intense relationship with his brother Theo; and his move to Provence, where he painted some of the best-loved works in Western art. The authors also shed new light on many unexplored aspects of Van Gogh's inner world: his erratic and tumultuous romantic life; his bouts of depression and mental illness; and the cloudy circumstances surrounding his death at the age of thirty-seven. Though countless books have been written about Van Gogh, no serious, ambitious examination of his life has been attempted in more than seventy years. Naifeh and Smith have re-created Van Gogh's life with an astounding vividness and psychological acuity that bring a completely new and sympathetic understanding to this unique artistic genius. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • The Washington Post • The Wall Street Journal • San Francisco Chronicle • NPR • The Economist • Newsday • BookReporter "In their magisterial new biography, *Van Gogh: The Life*, Steven Naifeh and Gregory White Smith provide a guided tour through the personal world and work of that Dutch painter, shining a bright light on the evolution of his art. . . . What [the authors] capture so powerfully is Van Gogh's extraordinary will to learn, to persevere against the odds."—Michiko Kakutani, *The New York Times* "Brilliant . . . Steven Naifeh and Gregory White Smith are the big-game hunters of modern art history. . . . [Van Gogh] rushes along on a tide of research. . . . At once a model of scholarship and an emotive, pacy chunk of hagiography."—Martin Herbert, *The Daily Telegraph* (London)

**Alphabet Tracing**-Soar Learning Company 2015-06-05 *Alphabet Tracing, Letters A-Z*, provides extensive focus on alphabet tracing and printed letter formation for the preschool and kindergarten beginning writer. The full-page format focuses on one alphabet at a time, which allows additional alphabet tracing practice for the beginning writer. This children's handwriting workbook has a minimum of 30 opportunities to trace each alphabet before free-writing practice pages are presented. Once a student has adequately mastered tracing each alphabet they may then move on to the next section or skip around to other alphabets as comfortable. Daily penmanship practice will help increase your student's ability to: -Print uppercase and lowercase letters of the alphabet and recognize the

difference between the two. -Write from left to right and top to bottom of page. -Recognize spacing between printed alphabet letters and eventually words. -Understand the concept of writing letters. -Write words and brief sentences that are legible. -Write his/her own first and last name and other important words. Some neurologists advocate writing to learn. One states, "The practice of writing can enhance the brain's intake, processing, retaining, and retrieving of information. Through writing, students can increase their comfort with and success in understanding complex material, unfamiliar concepts, and subject-specific vocabulary." Preschool and Kindergarten is the perfect time to prepare for alphabet tracing and handwriting practice since preschool, kindergarten and 1st grade students do not have to prepare for assessments. Focus can instead be placed on their literacy development. Reading to children and talking to them directly can be huge. Parents can start conversations-helping to build verbal vocabulary, write a grocery list together-helping to practice handwriting skills, and select books together at the library-allowing students to enjoy the usefulness of the printed word. Another way to raise their awareness of language in their environment is to point to street signs, billboards, traffic signs, and menus in restaurants-saying the whole word and/or pointing to each individual alphabet while saying calling out each letter. This alphabet tracing workbook for preschool, kindergarten, and 1st grade is a perfect companion to online and computerized alphabet software to teach kids alphabet recognition. It can be used on short and long car rides. Getting students used to using paper workbooks will give them a distinct advantage over students who have only used wipe clean alphabet books and computerized alphabet software-this alphabet tracing book is similar to the writing, social studies, and language arts workbooks students will use in their classrooms.

**Vincent's Books**-Mariella Guzzoni 2020-06-18 'I have a more or less irresistible passion for books' Vincent van Gogh Vincent van Gogh (1853-1890) was famously driven by his passion for God, for art - and for books. Vincent's life with books is examined here chapter by chapter, from his early adulthood, when he considered becoming a pastor, to his decision to be a painter, to the end of his life. He moved from Holland to Paris to Provence; at each moment, ideas he encountered in books defined and guided his thoughts and his life. Vincent's letters to his brother refer to at

least 200 authors. Books and readers - whether dreaming or deeply absorbed - are frequent subjects of his paintings. Vincent not only read fiction, he also knew many works of art from detailed descriptions and illustrations in monographs, biographies and museum guides. Always keeping up to date, he never missed the latest literary and artistic magazines. This thought-provoking and original study takes the reader on an artistic-literary journey through Vincent's discoveries, his favourite authors and best-loved books, revealing a continuous dialogue between his own work, the artists and the authors who inspired him, and giving life to his comment: 'Books and reality and art are the same kind of thing for me.'
