Judson-David Judson 2020-03-17 Judson: Innovation in Stained Glass by David Judson and Steffie Nelson is a history of the world-renowned family of artisans who began crafting stained glass windows in Los Angeles in 1897. Five generations of Judsons have worked with artists, architects, and designers to create Old World-style stained glass whose quality and craftsmanship has often been compared to the work of Louis Tiffany. Famed for its Craftsman glass, Judson arts-and-crafts era windows have

been celebrated by experts in the field for decades. Judson's work with Frank Lloyd Wright on Hollyhock House in the 1920s was recently re-saluted when the house was named to the UNESCO World Heritage Sites list. Established in the Pasadena during the heyday of the Arroyo Culture, headquarters of Judson Studios are still housed in the original Craftsman-era home and studio of patriarch William Lees Judson. Much of Judson's finest early work was installed in religious buildings. Along with the studio's numerous institutional and residential projects, Judson: Innovation in Stained Glass illustrates fine work in churches dating back to the early twentieth century. Modern work is also featured, including the extraordinary Air Force Academy Chapel in Colorado Springs, completed in 1962, a mid-century wonder whose soaring panels of color introduced an architecturally mesmerizing approach to stained glass that had never been executed before. In 2018, under David Judson's leadership, the studio created the world's largest fused glass window for the Church of the Resurrection in Leawood, Kansas. Including 140

panels, and measuring more than 3,400 square feet of art glass, the window made news internationally, intriguing congregants, tourists, and stained glass experts alike with its precision detail and artful melding of colors in a mural that depicted both sacred and secular stories. Once Judson Studios developed methods for blending subtle variations of color in glass for the Church of the Resurrection window, the possibilities of glass as an artist's medium were apparent. Now, in addition to its work in traditional leaded stained glass, Judson Studios is working with fine artists creating effects in fused glass that were previously unachievable. Most recently, fine artist Sarah Cain worked with Judson Studios to create a work in glass 10 feet high by 150 feet long; it was installed at the San Francisco International Airport in July 2019. About the Authors: David Judson is president of Judson Studios, the fifth generation of the Judson family to lead the studio since it was founded in 1897. David oversees the studio's creative process, where he works with architects, designers, and artists who turn to Judson for its legendary work

in stained glass. In 2015, he opened the second Judson Studios facility which incorporates the firm's innovative fusing technology that allows fine artists to express their vision in glass. David is the president of the Stained Glass Association of America (SGAA) and lives with his family in Pasadena, California. Steffie Nelson has covered art, design, and culture for The New York Times, Los Angeles Times, W Magazine, and others.

Stained Glass Windows of Canterbury, New Zealand

Fiona Ciaran 1998 This book is the world's first scholarly account of any region's nineteenth and twentieth-century stained glass, and is written by one of the few specialists trained in the field. The author presents a comprehensive catalogue of the 711 ecclesiastical stained glass windows in Canterbury, many of which are of international significance. She shows the shift from imported to local work, the development of New Zealand imagery, and how stained glass windows can be powerful social indicators. She argues that stained glass in Canterbury not only represents the most important regional collection of windows in New Zealand, but that the exportation of nineteenth and twentieth-century stained glass from Britain is represented in

microcosm in Canterbury, thus necessitating a reappraisal of the history of British stained glass. The book also presents much new information about British stained glass artists, and is of great relevance to any country with glass from Britain.

Life Among the Savages-Shirley Jackson 2015-05-05 In a hilariously charming domestic memoir, America's celebrated master of terror turns to a different kind of fright: raising children. In her celebrated fiction, Shirley Jackson explored the darkness lurking beneath the surface of small-town America. But in Life

Among the Savages, she takes on the lighter side of small-town life. In this witty and warm memoir of her family's life in rural Vermont, she delightfully exposes a domestic side in cheerful contrast to her quietly terrifying fiction. With a novelist's gift for character, an unfailing maternal instinct, and her signature humor, Jackson turns everyday family experiences into brilliant adventures.
