Revolution Against Empire-Justin du Rivage 2017-06-27 A bold transatlantic history of American independence revealing that 1776 was about far more than taxation without representation Revolution Against Empire sets the story of American independence within a long and fierce clash over the political and economic future of the British Empire. Justin du Rivage traces this decades-long debate, which pitted neighbors and countrymen against one another, from the War of Austrian Succession to the end of the American Revolution. As people from Boston to Bengal grappled with the growing burdens of imperial rivalry and fantastically expensive warfare, some argued that austerity and new colonial revenue were urgently needed to rescue Britain from unsustainable taxes and debts. Others insisted that Britain ought to treat its colonies as relative equals and promote their prosperity. Drawing from archival research in the United States, Britain, and France, this book shows how disputes over taxation, public debt, and inequality sparked the American Revolution—and reshaped the British Empire.

The Persistence of Empire-Eliga H. Gould 2011-02-01 The American Revolution was the longest colonial war in modern British history and Britain's most humiliating defeat as an imperial power. In this lively, concise book, Eliga Gould examines an important yet surprisingly understudied aspect of the conflict: the British public's predominantly loyal response to its government's actions in North America. Gould attributes British support for George III's American policies to a combination of factors, including growing isolationism in regard to the European continent and a burgeoning sense of the colonies as integral parts of a greater British nation. Most important, he argues, the British public accepted such ill-conceived projects as the Stamp Act because theirs was a sedentary, "armchair" patriotism based on paying others to fight their battles for them. This system of military finance made Parliament's attempt to tax the American colonists look unexceptional to most Britons and left the metropolitan public free to embrace imperial projects of all sorts—including those that ultimately drove the colonists to rebel. Drawing on nearly one thousand political pamphlets as well as on broadsides, private memoirs, and popular cartoons, Gould offers revealing insights into eighteenth-century British political culture and a refreshing account of what the Revolution meant to people on both sides of the Atlantic.

Taxes, the Tea Party, and Those Revolting Rebels-Stan Mack 2012-09-01 Presenting the American Revolution in a fun, easy-to-understand fashion, Stan Mack's illustrated rendition makes history entertaining while providing lucid insight into the revolution's real-life participants, as well as its successes and failures. This graphic account of the birth of the United States stars a chubby, insecure King George III, rebellious and misunderstood colonists, and loudmouthed and insensitive aristocrats, providing information about the Boston Tea Party and the revolt

against the status quo. Uncannily relevant to today's world, this whimsical and informative pictorial history tells the story of the original peoples' insurgence.

The Permanent Tax Revolt-Isaac William Martin 2008-03-05 Tax cuts are such a pervasive feature of the American political landscape that the political establishment rarely questions them. Since 2001, Congress has abolished the tax on inherited wealth and passed a major income tax cut every year, including two of the three largest income tax cuts in American history despite a long drawn-out war and massive budget deficits. The Permanent Tax Revolt traces the origins of this anti-tax campaign to the 1970s, in particular, to the influence of grassroots tax rebellions as homeowners across the United States rallied to protest their local property taxes. Isaac William Martin advances the provocative new argument that the property tax revolt was not a conservative backlash against big government, but instead a defensive movement for government protection from the market. The tax privilege that the tax rebels were defending was in fact one of the largest government social programs in the postwar era. While the movement to defend homeowners' tax breaks drew much of its inspiration—and many of its early leaders—from the progressive movement for welfare rights, politicians on both sides of the aisle quickly learned that supporting big tax cuts was good politics. In time, American political institutions and the strategic choices made by the protesters ultimately channeled the movement toward the kind of tax relief favored by the political right, with dramatic consequences for American politics today.

U.S. History-P. Scott Corbett 2017-12-19 Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Why Nations Fail-Daron Acemoğlu 2012 An award-winning professor of economics at MIT and a Harvard University political scientist and economist evaluate the reasons that some nations are poor while others succeed, outlining provocative perspectives that support theories about the importance of institutions.

Justin Du Rivage. Revolution Against Empire: Taxes, Politics, and the Origins of American Independence- 2018

States of Obligation-Yanni Kotsonis 2014-09-24 Beginning in the 1860s, the Russian Empire replaced a poll tax system that originated with Peter the Great with a modern system of income and excise taxes. Russia began a transformation of state fiscal power that was also underway across Western Europe and North America. States of Obligation is the first sustained study of the Russian taxation system, the first to study its European and

transatlantic context, and the first to expose the essential continuities between the fiscal practices of the Russian Empire and the Soviet Union. Using a wealth of materials from provincial and local archives across Russia, Gianni Kotsonis examines how taxation was simultaneously a revenue-raising and a state-building tool, a claim on the person and a way to produce a new kind of citizenship. During successive political, wartime, and revolutionary crises between 1855 and 1928, state fiscal power was used to forge social and financial unity and fairness and a direct relationship with individual Russians. State power eventually overwhelmed both the private sector economy and the fragile realm of personal privacy. *States of Obligation* is at once a study in Russian economic history and a reflection on the modern state and the modern citizen.

The War in America-Taliaferro Preston Shaffner 1862

American Quaker War Tax Resistance-David M. Gross 2011-10-20 This book illuminates the evolution of Quaker war tax resistance in America, as told by those who resisted and those who debated the limits of the Quaker peace testimony where it applied to taxpaying. Among the writers featured in this documentary history are Isaac Sharpless, Thomas Story, William Penn, James Logan, Benjamin Franklin, John Woolman, John Churchman, James Pemberton, Joshua Evans, Anthony Benezet, Job Scott, Warner Mifflin, Timothy Davis, James Mott, Isaac Grey, Samuel Allinson, Moses Brown, Stephen B. Weeks, Rufus Hall, Gouverneur Morris, Elias Hicks, Joshua Maule, and Cyrus G. Pringle.

A Critical Examination of Socialism-W. H. (William Hurrell) Mallock 2012-02-07 This book is part of the TREDITION CLASSICS series. The creators of this series are united by passion for literature and driven by the intention of making all public domain books available in printed format again - worldwide. At Tredition we believe that a great book never goes out of style. Several mostly non-profit literature projects provide content to Tredition. To support their good work, Tredition donates a portion of the proceeds from each sold copy. As a reader of a TREDITION CLASSICS book, you support our mission to save many of the amazing works of world literature from oblivion.

Civil Disobedience-Henry David Thoreau 2016-03-17 A Book that Transformed America "Friendship is first, Friendship last. But it is equally impossible to forget our Friends, and to make them answer to our ideal."- Civil Disobedience, Henry David Thoreau Civil Disobedience was Thoreau's first published book and continues to transform American discourse. It is unusual for its symbolism and structure, its criticism of Christian institutions, and its many-layered storytelling. This Xist Classics edition has been professionally formatted for e-readers with a linked table of contents. This eBook also contains a bonus book club leadership guide and discussion questions. We hope you'll share this book with your friends, neighbors and colleagues and can't wait to hear what you have to say about it. Xist Publishing is a digital-first publisher. Xist Publishing creates books for the touchscreen generation and is dedicated to helping everyone develop a lifetime love of reading, no matter what form it takes.

Vivian Grey-Benjamin Disraeli 1858

Washington Square, Worcester-Henry M. Wheeler 1916

Black against Empire-Joshua Bloom 2016-10-25 This timely special edition, published on the fiftieth anniversary of the founding of the Black Panther Party, features a new preface by the authors that places the Party in a contemporary political landscape, especially as it relates to Black Lives Matter and other struggles to fight police brutality against black communities. In Oakland, California, in 1966, community college students Bobby Seale and Huey Newton armed themselves, began patrolling the police, and promised to prevent police brutality. Unlike the Civil Rights Movement that called for full citizenship rights for blacks within the United States, the Black Panther Party rejected the legitimacy of the U.S. government and positioned itself as part of a global struggle against American imperialism. In the face of intense repression, the Party flourished, becoming the center of a

revolutionary movement with offices in sixty-eight U.S. cities and powerful allies around the world. *Black against Empire* is the first comprehensive overview and analysis of the history and politics of the Black Panther Party. The authors analyze key political questions, such as why so many young black people across the country risked their lives for the revolution, why the Party grew most rapidly during the height of repression, and why allies abandoned the Party at its peak of influence. Bold, engrossing, and richly detailed, this book cuts through the mythology and obfuscation, revealing the political dynamics that drove the explosive growth of this revolutionary movement and its disastrous unraveling. Informed by twelve years of meticulous archival research, as well as familiarity with most of the former Party leadership and many rank-and-file members, this book is the definitive history of one of the greatest challenges ever posed to American state power.

Friends Divided-Gordon S. Wood 2017 Arguably no relationship in this country's history carries as much freight as that of John Adams of Massachusetts and Thomas Jefferson of Virginia. Gordon Wood has more than done justice to these entwined lives and their meaning; he has written a magnificent new addition to America's collective story.

The Layman's United States Constitution-Timothy James Imholt 2014-04-11 The Constitution is the bedrock of all laws in this Nation. However, it is often misquoted, misunderstood, or largely misinterpreted (perhaps ignored). Timothy Imholt and Michael Garst are to veterans of the US Army from the enlisted ranks. This book was written by them in an attempt to help people understand this document and these principals. In this book is the original Constitution. The challenge with understanding or interpreting the document is that the language is challenging. It is old, and written in a way that makes it difficult to understand. After the original document is broken down article by article, section by section, a modern day language version of the document is provided. Every attempt was made to not change any meaning or have a political slant in this modernization process. The authors of this book have no political agenda. The hope is that people gain a better understanding of these passages while not having to be enraged by a political slant. Once the modernization of each Article, Section and Amendment is complete a short discussion is provided in a way to be understandable by anyone and everyone who has interest in this topic. These are clearly labeled as discussion and are merely common sense interpretations or opinions of what these various things mean to us in our daily lives and how they should be applied. It is this section that two enlisted veterans believe certain politicians should read and read carefully. We the people must be heard. Common sense must rule the day, it certainly ruled the founding of this country.

Broken Capitalism-Ferris Eanfar 2017-06-16 When the 10 largest corporations have more combined economic power than 92% of all countries on Earth combined, the 50 largest financial corporations control wealth equal to 90% of Earth's GDP, the richest 1% of humans have more wealth than 99% of the world combined, and the eight richest humans have more wealth than the bottom 50% of Earth's entire population combined . . . it's safe to say humanity is in trouble. This is the only book you ever need to read to understand exactly what is wrong with our global economy today and how to fix it. Written by International Political Economy expert and former U.S. Government Intelligence operative, Ferris Eanfar. All proceeds go to the nonprofit, nonpartisan AngelPay Foundation.

Possession and Politics-Melanie Munton 2016-03-11 Will love conquer all? With election night looming closer, Gwen McKindry and Clay Masterson's future together is within their grasp. The whole city is watching and they still can't afford to slip up, but they refuse to let anything keep them apart anymore. They can see the light at the end of the tunnel...and they can't reach it fast enough. Or will it condemn all? Despite Gwen and Clay's fortitude, they'll soon discover that others know about their relationship and are doing everything in their power to destroy their love. Clay will protect Gwen at all costs and Gwen is determined to make all of Clay's dreams come true. If they can just avoid psycho ex-fiances, controlling mothers, and the press, they can finally have their happily ever after. But will their faith in each other be enough to withstand everyone working against them? Or will their life together be over before it even has a chance to begin? **This is the third and final installment of the Possession and Politics trilogy. These are not standalone novels and should be read in order. Recommended for readers 18 and up due to mild language and sexual content and certain situations that some may find uncomfortable."

The Little Tax Lien Tax Deed Book (They Don't Want You to Know About)-Alexander Franklin 2012-10-15 One of America's top tax lien and tax deed investors and instructors reveals high-profit money-generating tax sales and tax auction investment techniques covered almost nowhere else, yet also explains the basics and the potential dangers for tax lien investors just starting out in this lucrative area. This quick short and easy-to-read glimpse inside the real world of tax lien and tax deed investing is a must-have book for any serious tax deed or tax lien real estate property investor!

Dance of the Incumbent-Mike McCarty 2014-05-31 Vote the Incumbent out

East-west Dialectics, Currency Resets & the Convergent Power of One-Norman Ball 2015-02-17 This three-part series attempts a vaguely Christian read of the so-called 'East-West dialectic' first by exploring the overarching engine of historical advance (usury and debt-money creation); then onto Russia and China's expanding and consensual roles in global power consolidation before reviewing how the impending currency reset levers power away from the Anglo-American empire (the last empire) towards an ostensible 'multi-lateral system' which, as it turns out, is the penultimate phase of New World Order consolidation. Some related essays are included from 'the last great financial crisis of 2008' era just to stir the pot further.

Unscrewed-Barry Harrin 2013-10 If you are looking for a POLITICALLY CORRECT retirement book, you better keep looking ... because this book is not for you! If on the other hand, you want the real deal, a POLITICALLY INCORRECT and a NO BS approach to your retirement funding ... then you found the right book! If you believe taxes will be going up and you're worried about your safety net of Social Security and Medicare becoming just a distant memory ... you must read this book now! Backwater Dreams-Frank Silva 2016-05-02 Bucky 'n' Skeeter are simple folk. Just your typical All-Murican boys that run a still and break into storage units and cars to make ends meet. Yoo Ess Senatah Redstate Drinkhard, Seenya and his son Yoo Ess Reperzennative Redstate Drinkhard, Joonya are powerful old-money politicians. Skeeter's cousin, Carlene, gets her hands on secrets about the shady past of the Drinkhard family. Their lives intersect in unexpected ways as they all engage in their own backwater version of the American Dream of Life, Liberty and the Pursuit of Happiness. Warnin'! Iffen ya cain'ts unnerstan' this here sent'nce, yoo's ain't smart 'nough fer readin' this here book. Ha'evah, iffen ya lahks a good story, 'n' lahks t' laff, git yersef a cuppa joe er a jug o' 'shine 'n' gits t' readin'!

Elephants on the Rampage-Sara Jarman 2017-01-27 Conservative Americans are now having a difficult time defining what their ideology is. The Republican Party is in the midst of an inner struggle to understand itself and communicate their message to the American electorate. Republicans ask themselves questions about how to get elected, what policies and programs to adopt in order to appeal to segments of the electorate lost to them. They seem willing to advocate any movement or plans that might bolster "electability." American conservatives are engaged in both a psychological as well as a practical struggle to redefine themselves. In response to these crises, conservatism has increasingly become movement oriented and less authentically conservative. Republicans now are either more progressive or more reactionary than they are conservative, as they attempt to redefine their political ideology and maintain relevancy and legitimacy amongst the general public.

Why It Is Easy to Control People When They Are Afraid-Same in Private Life as in Politics-Trump's

Motivation of Power and His Admiration of Putin-Viora Mayobo 2016-11-02 Fear and poverty can be attributed to common mistakes people make, daily, mistakes that determine where they end up in life. Most people have a tendency of placing bets on territory of familiarity more comfortably than try something new. Also true, though, is that those that take risks are more likely to succeed in life than those who are afraid to try, take a leap of faith, as that is what would swing the aftereffect. Scary but true! If you can tolerate poverty, minimum wage, bad policy and most other things, more comfortably, they become a barrier between you and the much needed change... A weakness hard to conquer...

State Secrets-Ben Vidgen 1999-01-01

The Formal and Informal Politics of British Rule in Post-Conquest Quebec, 1760-1837-Nancy Christie 2020-02-06 Nancy Christie innovatively and significantly transforms the writing of Quebec history between 1763 and 1837 by locating Quebec within new British practices of imperial governance asserted in the wake of the Seven Years War. Breaking with the conventional master-narrative of the era as one of gradual integration between French- and English-speaking communities, accompanied by incremental political and social liberalization, Nancy Christie presents the six decades following the Conquest as a period of assertive British strategies for assimilating Quebec's French and Catholic majority, and refurbished authoritarianism deployed to arrest the spread of revolution in the Atlantic world. Brilliantly advanced, this new narrative of post-Conquest Quebec builds upon entirely new research meticulously gleaned from over 20,000 cases from the criminal and civil judicial archives and a sustained examination of both official and unofficial political and social discourses. This study charts both the British practices of colonial rule, which sought the assimilation of non-British "others" through both formal modes of law and governance, and the consumption of British manufactured goods, and the contestation of these through the daily resistance of ordinary men and women. In so doing, Christie identifies Quebec as a case study with which to open a new trajectory in the wider study of the British Empire. Her striking conclusion urges a shift in historical focus from the interaction between European colonizers and racialized others, to the centrality of practices of rule designed to govern European subaltern peoples.
