Victorian Doll's Houses-Nick Forder 2002 When it comes to doll's houses and miniature furniture, the Victorian era is one of the most popular to re-create. This is no surprise when you consider the wealth of inspiration from the period available to miniaturists. Spanning more than 60 years, the period was an exciting time of exploration, innovation and industrialization, all of which are represented in the decorative styles and trends of the time. Victorian Doll's Houses celebrates this at 1/12 scale, and shows how to re-create Victorian rooms of differing styles in miniature, each time reflecting

the major influences and designs of the time. 12 major rooms of typical Victorian homes are taken in turn, and explained in terms of function and furnishings. Selected pieces are described in detail, as is the actual construction of the sets. Visually stunning, the beautiful colour photographs of each room set often make it difficult to tell them apart from a full-sized example. The Dolls' House Book-Pauline Flick 1973

The Nutshell Studies of Unexplained Death- 2004 The Nutshell Studies of Unexplained Death offers readers an extraordinary glimpse into the mind of a master criminal investigator. Frances Glessner Lee, a wealthy grandmother, founded the Department of Legal Medicine at Harvard in 1936 and was later appointed captain in the New Hampshire police. In the 1940s and 1950s she built dollhouse crime scenes based on real cases in order to train detectives to assess visual evidence. Still used in forensic training today, the eighteen Nutshell dioramas, on a scale of 1:12, display an astounding level of detail: pencils write, window shades move, whistles blow, and clues to the crimes are revealed to those who study the scenes carefully. Corinne May Botz's lush color photographs lure viewers into every crevice of Frances Lee's models and breathe life into these deadly miniatures, which present the dark side of domestic life, unveiling tales of prostitution, alcoholism, and adultery. The accompanying line drawings, specially prepared for this volume, highlight the noteworthy forensic evidence in each case. Botz's introductory essay, which draws on archival research and interviews with Lee's family and police colleagues, presents a captivating portrait of Lee.
