Under the Big Black Sun-John Doe 2016-04-26 Under the Big Black Sun explores the nascent Los Angeles punk rock movement and its evolution to hardcore punk as it's never been told before. John Doe of the legendary band X and co-author Tom DeSavia have woven together an enthralling story of the legendary West Coast scene from 1977-1982 by enlisting the voices of people who were there. The book shares chapter-length tales from the authors along with personal essays from famous (and infamous) players in the scene. Through interstitial commentary, John Doe "narrates" this journey through the land of film noir sunshine, Hollywood back alleys, and suburban sprawl. Illustrated with 50 rare photos, this is the story of the art that was born under the big black sun.

Under the Big Black Sun-Paul Schimmel 2011 Published to accompany an exhibition held at the Museum of Contemporary Art, Los Angeles, Oct. 3, 2011-Feb. 13, 2012.

More Fun in the New World-John Doe 2019-06-04 Sequel to Grammy-nominated bestseller Under the Big Black Sun, continuing the up-close and personal account of the L.A. punk scene, with 50 rare photos Picking up where Under the Big Black Sun left off, More Fun in the New World explores the years 1982 to 1987, covering the dizzying pinnacle of L.A.'s

punk rock movement as its stars took to the national -- and often international -- stage. Detailing the eventual splintering of punk into various sub-genres, the second volume of John Doe and Tom DeSavia's west coast punk history portrays the rich cultural diversity of the movement and its characters, the legacy of the scene, how it affected other art forms, and ultimately influenced mainstream pop culture. The book also pays tribute to many of the fallen soldiers of punk rock, the pioneers who left the world much too early but whose influence hasn't faded. As with Under the Big Black Sun, the book features stories of triumph, failure, stardom, addiction, recovery, and loss as told by the people who were influential in the scene, with a cohesive narrative from authors Doe and DeSavia. Along with many returning voices, More Fun in the New World weaves in the perspectives of musicians Henry Rollins, Fishbone, Billy Zoom, Mike Ness, Jane Weidlin, Keith Morris, Dave Alvin, Louis Pérez, Charlotte Caffey, Peter Case, Chip Kinman, Maria McKee, and Jack Grisham, among others. And renowned artist/illustrator Shepard Fairey, filmmaker Allison Anders, actor Tim Robbins, and pro-skater Tony Hawk each contribute chapters on punk's indelible influence on the artistic spirit. In addition to stories of success, the book also offers a cautionary tale of an art movement that directly inspired commercially diverse acts such as Green Day, Rancid, Red Hot Chili Peppers, Wilco, and Neko Case. Readers will find themselves rooting for the purists of punk juxtaposed with the MTV-dominating rock superstars of the time who flaunted a "born to do this, it couldn't be easier" attitude that continued to fuel the flames of new music. More Fun in the New World follows the progression of the first decade of L.A. punk, its conclusion, and

its cultural rebirth.

Black Sun-Rebecca Roanhorse 2020-10-13 From the New York Times bestselling author of Star Wars: Resistance Reborn comes the first book in the Between Earth and Sky trilogy, inspired by the civilizations of the Pre-Columbian Americas and woven into a tale of celestial prophecies, political intrigue, and forbidden magic. A god will return When the earth and sky converge Under the black sun In the holy city of Tova, the winter solstice is usually a time for celebration and renewal, but this year it coincides with a solar eclipse, a rare celestial event proscribed by the Sun Priest as an unbalancing of the world. Meanwhile, a ship launches from a distant city bound for Tova and set to arrive on the solstice. The captain of the ship, Xiala, is a disgraced Teek whose song can calm the waters around her as easily as it can warp a man's mind. Her ship carries one passenger. Described as harmless, the passenger, Serapio, is a young man, blind, scarred, and cloaked in destiny. As Xiala well knows, when a man is described as harmless, he usually ends up being a villain. Crafted with unforgettable characters, Rebecca Roanhorse has created an epic adventure exploring the decadence of power amidst the weight of history and the struggle of individuals swimming against the confines of society and their broken pasts in the most original series debut of the decade.

Blooming at Midnight-Deepak Warrier 2016-02-09 Blooming at Midnight is a collection of short stories that revolve around the sacred shores of Banaras. In this world, where people are in a constant race for supremacy, power, dominance and control, this book brings forth a savoring notion about happiness. Through the book, the author underlines a golden thought, "Happiness is you." Anything and everything else are mere factors of how much you allow for it. An auto driver, Rajkumar; a domestic help, Shei; a boatman, Vijay; a drunken artist, Banu Desai; a social activist Babu Da; a missing friend Chandra are not mere characters that appear across the fifteen chapters, but are a part of experiences that help break the silence of ignorance.

The Art of War Meets the Black Strategy-Vincent DeGruy 2016-10-25
Chess players have long dreamed of a winning strategy for black. Previous strategies have produced mostly losses for black. It is unrealistic for black to expect to begin winning more using the white strategy of 'control the center and win the endgame.' It is time for a more effective approach. -----
Part One introduces the reader to Alexander the Great, Hannibal of Carthage, and King Leonidas of Sparta. Each of these leaders defeated an army which controlled the center and possessed superior numbers. The same strategy has been successfully applied to the black side of the chess board by a handful of Grandmasters. -----
The Black Strategy illuminates the way forward. This strategy has been referred to as the Hippopotamus Defense. The reason is that, like the Hippo, the Black position develops into something which appears slow and lethargic. However, once it engages with White forces, it is like a combination of behemoth and leviathan. White inevitably will send some pieces to the Black side of the board where they will get tangled up and eliminated. Eventually, the Black juggernaut will grind the White player into submission. -----
The Hippo is quite fierce once it engages with opponents. It is not easily handled and it causes a lot of confusion for White players who have extremely limited experience with it.-----
Part Two draws inspiration from the works of Sun Tzu (The Art of War) and Miyamoto Musashi (The Book of Five Rings). Sun Tzu (Chinese general, military strategist, and philosopher) wrote the original Art of War

2500 years ago. It is the definitive work on military strategy and tactics. Musashi was undefeated in over 60 duels. The Book of Five Rings is the ultimate guide to one-on-one dueling with an eye towards total victory. -----
----The knowledge from these two books is synthesized and applied to the game of chess. The reader is introduced to a new way of analyzing the situations which arise on the chess board, and responding forcefully with accurate moves.

Dumpster Dying-Lesley A. Diehl 2011-01 Emily Rhodes came to rural Florida for the cowboys, the cattle, and to do a little country two-step, not to fall head first onto a dead body in a dumpster. Ah, the golden years of retirement in the sunshine state. They're more like pot metal to Emily Rhodes, who discovers the body of the county's wealthiest rancher in the Big Lake Country Club dumpster. With her close friend accused of the murder, Emily sets aside her grief at her life partner's death to find the real killer. She underestimates the obstacles rural Florida can set up for a winter visitor and runs afoul of a local judge with his own version of justice, hires a lawyer who works out of a retirement home, and flees wild fires -- hand-in-hand with the man she believes to be the killer. About the Author: Lesley retired from her life as a professor of psychology and reclaimed her country roots by moving to a small cottage in the Butternut River Valley in upstate New York. In the winter she migrates to old Florida-cowboys, scrub palmetto, and open fields of grazing cattle, a place where spurs still jingle in the post office. In her words, "I come to the "Big Lake" to write, hang out in cowboy bars, and immerse myself in the Florida that used to be. No beaches, no bikinis, no sand. Just cows, horses, and gators."
