Wilson 2018-07-20 The newest title in the series Survivor Stories, this book tells the story of Paul Allen, a photographer who likes opera and was a good baritone singer. At the age of 56 he sustained a stroke that left him paralysed and speechless. He has Locked-In Syndrome (LIS), a rare consequence of brain damage. Although Paul is fully conscious and his

The book also includes contributions from Paul's wife Liz, who tells the story from her point of view, along with Paul's physiotherapists, occupational therapists, speech therapists, psychologists and others from the Raphael Hospital who have assisted in Paul's rehabilitation. In telling of his frustrations, his successes, his views on life and how he sees his future, Paul raises awareness of the quality of life possible for those with LIS. Combining scientific knowledge with personal narrative, this unique and optimistic book is of huge importance to any professional involved in the care of someone with a brain injury, and to the individuals and families touched by LIS.

**Minimal Damage**-H. Lee Barnes 2007-08-07  
The Salt Lake City Tribune has called Lee Barnes "one of the finest writers of short stories in the contemporary West." Minimal Damage contains seven stories and a novella that depict veterans of several wars in search of dignity and purpose in a civilian life that has no need for men who were soldiers. With emotion, humor, and clarity, Barnes creates characters who show us what it is to live with the trauma of having experienced combat. The fractured souls and twisted lives of these men remind us that war's ultimate damage extends far beyond the battlefield.

**Collateral Damage**-Taylor Simonds 2019-06-25  
Featured in Writer's Digest, Kirkus Reviews, Hypable, and MuggleNet. "A spunky and jubilant love letter to superhero fans." -Kirkus Reviews  
Power. Courage. Invincibility. The marks of a true hero. Meg Sawyer has none of these things. Meg has never stopped a moving bus with her bare hands, been bitten by a radioactive insect, or done anything moderately resembling saving the world. She doesn't have to. She's a

background citizen, a nobody, one of the swarms of faceless civilians of Lunar City--where genetically enhanced superhumans straight out of the comics have thwarted evil for years. For as long as the Supers have existed, Meg has had one goal: to not become a casualty in their near-daily battles for justice. And for the last seventeen years, she's managed to do just that. Sure, her minimum-wage job at the local coffee shop isn't great, she can't even leave her apartment without loading herself up with protective gear, and her car was just hijacked to throw at a supervillain (again), but she's not dead yet. But when Meg accidentally finds one of the city's perfect, invincible protectors murdered under extremely suspicious circumstances, her whole "innocent bystander" strategy falls apart. After being coerced by his determined girlfriend into a mission to help prevent the deaths of the remaining Supers, Meg finds herself forced into the foreground of a story she never wanted to be part of--one that challenges everything she thought she knew about both her city and herself. "Simonds writes smart and sassy characters but takes the time to give them emotional depth..." -MuggleNet

**The Book of Collateral Damage**-Sinan Antoon 2019-05-28  
Sinan Antoon returns to the Iraq war in a poetic and provocative tribute to reclaiming memory. Widely-celebrated author Sinan Antoon's fourth and most sophisticated novel follows Nameer, a young Iraqi scholar earning his doctorate at Harvard, who is hired by filmmakers to help document the devastation of the 2003 invasion of Iraq. During the excursion, Nameer ventures to al-Mutanabbi street in Baghdad, famed for its bookshops, and encounters Wadood, an eccentric bookseller who is trying to catalogue everything destroyed by war, from objects, buildings, books and manuscripts, flora and fauna, to humans. Entrusted with the catalogue and obsessed with Wadood's project, Nameer finds life in New York movingly intertwined with fragments from his homeland's past and its present--destroyed letters, verses, epigraphs, and anecdotes--in this stylistically ambitious panorama of the wreckage of war and the power of memory.

**Irreversible Damage**-Abigail Shrier 2020-06-30  
NAMED A BOOK OF THE YEAR BY THE ECONOMIST AND ONE OF THE BEST BOOKS OF 2021 BY THE TIMES AND THE SUNDAY

TIMES "Irreversible Damage . . . has caused a storm. Abigail Shrier, a Wall Street Journal writer, does something simple yet devastating: she rigorously lays out the facts." —Janice Turner, The Times of London Until just a few years ago, gender dysphoria—severe discomfort in one's biological sex—was vanishingly rare. It was typically found in less than .01 percent of the population, emerged in early childhood, and afflicted males almost exclusively. But today whole groups of female friends in colleges, high schools, and even middle schools across the country are coming out as "transgender." These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans "influencers." Unsuspecting parents are awakening to find their daughters in thrall to hip trans YouTube stars and "gender-affirming" educators and therapists who push life-changing interventions on young girls—including medically unnecessary double mastectomies and puberty blockers that can cause permanent infertility. Abigail Shrier, a writer for the Wall Street Journal, has dug deep into the trans epidemic, talking to the girls, their agonized parents, and the counselors and doctors who enable gender transitions, as well as to "detransitioners"—young women who bitterly regret what they have done to themselves. Coming out as transgender immediately boosts these girls' social status, Shrier finds, but once they take the first steps of transition, it is not easy to walk back. She offers urgently needed advice about how parents can protect their daughters. A generation of girls is at risk. Abigail Shrier's essential book will help you understand what the trans craze is and how you can inoculate your child against it—or how to retrieve her from this dangerous path.

**My Father's Keeper**-Stephan Lebert 2001 There are and always have been ways of escaping one's own past. But there are some who have never had this chance: the children of prominent Nazis. On one hand they have the memories of the nice, kind man who was their father, on the other they are confronted with the facts of history: with the madness, the murders, the personal purgatory. The Leberts, father and son, spoke at an interval of forty years - 1959 and 1999 - to these men and women who bore a tainted name and were crushed by the burden of the past: Gudrun Himmler - 75, runs a network for old Nazis in Munich, denies her father did anything wrong; Martin Boorman (junior) - 70, believes his father was a monster; Etta Goring - 70, will hear no bad word about her father; Nicholas Frank (father was in charge of Auschwitz) believes his father was the incarnation of evil. The result is a series of snapshots of rare intensity and a demonstration of how these destinies have more to do with the twenty-first century than many would care to think.

**The Tusk That Did the Damage**-Tania James 2015-03-10 From the critically acclaimed author of *Atlas of Unknowns* and *Aerogrammes*, a tour de force set in South India that plumbs the moral complexities of the ivory trade through the eyes of a poacher, a documentary filmmaker, and, in a feat of audacious imagination, an infamous elephant known as the Gravedigger. Orphaned by poachers as a calf and sold into a life of labor and exhibition, the Gravedigger breaks free of his chains and begins terrorizing the countryside, earning his name from the humans he kills and then tenderly buries. Manu, the studious younger son of a rice farmer, loses his cousin to the Gravedigger's violence and is drawn, with his wayward brother Jayan, into the sordid, alluring world of poaching. Emma is a young American working on a documentary with her college best friend, who witnesses the porous boundary between conservation and corruption and finds herself in her own moral gray area: a risky affair with the veterinarian who is the film's subject. As the novel hurtles toward its tragic climax, these three storylines fuse into a wrenching meditation on love and betrayal, duty and loyalty, and the vexed relationship between man and nature. With lyricism and suspense, Tania James animates the rural landscapes where Western idealism clashes with local reality; where a farmer's livelihood can be destroyed by a rampaging elephant; where men are driven to poaching. In James' arrestingly beautiful prose, **The Tusk That Did the Damage** blends the mythical and the political to tell a wholly original, utterly contemporary story about the majestic animal, both god and menace, that has mesmerized us for centuries. This eBook edition includes a Reading Group Guide.

**Hard Damage**-Aria Aber 2019-09 **Hard Damage** works to relentlessly interrogate the self and its

shortcomings. In lyric and documentary poems and essayistic fragments, Aria Aber explores the historical and personal implications of Afghan American relations. Drawing on material dating back to the 1950s, she considers the consequences of these relations--in particular the funding of the Afghan mujahedeen, which led to the Taliban and modern-day Islamic terrorism--for her family and the world at large. Invested in and suspicious of the pain of family and the shame of selfhood, the speakers of these richly evocative and musical poems mourn the magnitude of citizenship as a state of place and a state of mind. While *Hard Damage* is framed by free-verse poetry, the middle sections comprise a lyric essay in fragments and a long documentary poem. Aber explores Rilke in the original German, the urban melancholia of city life, inherited trauma, and displacement on both linguistic and environmental levels, while employing surrealist and eerily domestic imagery.

**Save Yourself**-Cameron Esposito 2020-03-24 This "hilarious and honest" bestselling memoir from a rising comedy star tackles issues of gender, sexuality, feminism, and the Catholic childhood that prepared her for a career as an outspoken lesbian comedian (Abby Wambach). Cameron Esposito wanted to be a priest and ended up a stand-up comic. Now she would like to tell the whole queer as hell story. Her story. Not the sidebar to a straight person's rebirth-she doesn't give a makeover or plan a wedding or get a couple back together. This isn't a queer tragedy. She doesn't die at the end of this book, having finally decided to kiss the girl. It's the sexy, honest, bumpy, and triumphant dyke's tale her younger, wasn't-allowed-to-watch-Ellen self needed to read. Because there was a long time when she thought she wouldn't make it. Not as a comic, but as a human. **SAVE YOURSELF** is full of funny and insightful recollections about everything from coming out (at a Catholic college where sexual orientation wasn't in the nondiscrimination policy) to how joining the circus can help you become a better comic (so much nudity) to accepting yourself for who you are-even if you're, say, a bowl cut-sporting, bespectacled, gender-nonconforming child with an eye patch (which Cameron was). Packed with heart, humor, and cringeworthy stories anyone who has gone through puberty, fallen in love, started a career, or had period sex in Rome can relate to, Cameron's memoir is for that timid, fenced-in kid in all of us-and the fearless stand-up yearning to break free. **INDIE BESTSELLER WASHINGTON POST BESTSELLER SEATTLE TIMES BESTSELLER ONE OF BUSTLE'S MOST ANTICIPATED BOOKS OF MARCH**

**White Fragility**-Robin DiAngelo 2018-06-26 The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

**Network Propaganda**-Yochai Benkler 2018-09-17 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Is social media destroying democracy? Are Russian propaganda or "Fake news" entrepreneurs on Facebook undermining our sense of a shared reality? A conventional wisdom

has emerged since the election of Donald Trump in 2016 that new technologies and their manipulation by foreign actors played a decisive role in his victory and are responsible for the sense of a "post-truth" moment in which disinformation and propaganda thrives. Network Propaganda challenges that received wisdom through the most comprehensive study yet published on media coverage of American presidential politics from the start of the election cycle in April 2015 to the one year anniversary of the Trump presidency. Analysing millions of news stories together with Twitter and Facebook shares, broadcast television and YouTube, the book provides a comprehensive overview of the architecture of contemporary American political communications. Through data analysis and detailed qualitative case studies of coverage of immigration, Clinton scandals, and the Trump Russia investigation, the book finds that the right-wing media ecosystem operates fundamentally differently than the rest of the media environment. The authors argue that longstanding institutional, political, and cultural patterns in American politics interacted with technological change since the 1970s to create a propaganda feedback loop in American conservative media. This dynamic has marginalized centre-right media and politicians, radicalized the right wing ecosystem, and rendered it susceptible to propaganda efforts, foreign and domestic. For readers outside the United States, the book offers a new perspective and methods for diagnosing the sources of, and potential solutions for, the perceived global crisis of democratic politics.

**Cross My Heart**-Katie Klein 2014-11-16 True love can blossom in unexpected places. This is Jaden pretending not to notice. . . . Jaden McEntyre and Parker Whalen are a wrong fit from the start. Jaden is driven and focused, Harvard Med School within reach. Parker has a past—a reputation—and the rumors about his mysterious habits abound. So there's no reason why, when they're assigned to work together on a project in English, they should discover they have anything in common, or even like each other, and they definitely shouldn't be falling in love. As they bond over Edith Wharton's tragic novella, *Ethan Frome*, the "bad boy" vibe Parker plays begins to dissipate. Soon, Jaden finds herself shedding her own "good girl" image: sneaking around to be with him, confiding in him, and ultimately falling hard for this leather-

wearing, motorcycle-driving loner who plays into the rebel stereotype. Still, Jaden can't shake the feeling that there's more to Parker than he's letting on. He's hiding something from her, and discovering the truth means reconciling the Parker she's grown to love with the person he really is. Because it's possible that his life inside the classroom—everything Jaden knows—is one massive lie. **CROSS MY HEART**, told from Jaden's point of view, is a 76k-word/300-page contemporary romance for young adults. **Barry Sonnenfeld, Call Your Mother**-Barry Sonnenfeld 2020-03-10  
Film and television director Barry Sonnenfeld's outrageous and hilarious memoir traces his idiosyncratic upbringing in New York City, his breaking into film as a cinematographer with the Coen brothers, and his unexpected career as the director behind such huge film franchises as *The Addams Family* and *Men in Black*, and beloved work like *Get Shorty*, *Pushing Daisies*, and *A Series of Unfortunate Events*. Barry Sonnenfeld's philosophy is, "Regret the Past. Fear the Present. Dread the Future." Told in his unmistakable voice, *Barry Sonnenfeld, Call Your Mother* is a laugh-out-loud memoir about coming of age. Constantly threatened with suicide by his over-protective mother, disillusioned by the father he worshiped, and abused by a demonic relative, Sonnenfeld somehow went on to become one of Hollywood's most successful producers and directors. Written with poignant insight and real-life irony, the book follows Sonnenfeld from childhood as a French horn player through graduate film school at NYU, where he developed his talent for cinematography. His first job after graduating was shooting nine feature length pornos in nine days. From that humble entrée, he went on to form a friendship with the Coen

Brothers, launching his career shooting their first three films. Though Sonnenfeld had no ambition to direct, Scott Rudin convinced him to be the director of *The Addams Family*. It was a successful career move. He went on to direct many more films and television shows. Will Smith once joked that he wanted to take Sonnenfeld to Philadelphia public schools and say, "If this guy could end up as a successful film director on big budget films, anyone can." This book is a fascinating and hilarious roadmap for anyone who thinks they can't succeed in life because of a rough beginning.

**Once an Eagle**-Anton Myrer 2013-03-12  
"Once an Eagle is simply the best work of fiction on leadership in print." —General Martin E. Dempsey, 18th Chairman of the Joint Chiefs of Staff  
Required reading for West Point and Marine Corps cadets, *Once An Eagle* is the story of one special man, a soldier named Sam Damon, and his adversary over a lifetime, fellow officer Courtney Massengale. Damon is a professional who puts duty, honor, and the men he commands above self-interest. Massengale, however, brilliantly advances by making the right connections behind the lines and in Washington's corridors of power. Beginning in the French countryside during the Great War, the conflict between these adversaries solidifies in the isolated garrison life marking peacetime, intensifies in the deadly Pacific jungles of World War II, and reaches its treacherous conclusion in the last major battleground of the Cold War—Vietnam. Now reissued with a new foreword by acclaimed historian Carlo D'Este, here is an unforgettable story of a man who embodies the best in our nation—and in us all.

**Count Down**-Shanna H. Swan 2021-02-23  
In the tradition of *Silent Spring* and *The Sixth Extinction*, an urgent, meticulously researched, and groundbreaking book about the ways in which chemicals in the modern environment are changing—and endangering—human sexuality and fertility on the grandest scale, from renowned epidemiologist Shanna Swan. In 2017, author Shanna Swan and her team of researchers completed a major study. They found that over the past four decades, sperm levels among men in Western countries have dropped by more than 50 percent. They came to this conclusion after examining 185 studies involving close to 45,000 healthy men. The result sent shockwaves around

the globe—but the story didn't end there. It turns out our sexual development is changing in broader ways, for both men and women and even other species, and that the modern world is on pace to become an infertile one. How and why could this happen? What is hijacking our fertility and our health? Count Down unpacks these questions, revealing what Swan and other researchers have learned about how both lifestyle and chemical exposures are affecting our fertility, sexual development—potentially including the increase in gender fluidity—and general health as a species. Engagingly explaining the science and repercussions of these worldwide threats and providing simple and practical guidelines for effectively avoiding chemical goods (from water bottles to shaving cream) both as individuals and societies, Count Down is at once an urgent wake-up call, an illuminating read, and a vital tool for the protection of our future.

In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed.
