Reframing Bodies-Roger Hallas 2009-01-01 In Reframing Bodies, Roger Hallas illuminates the capacities of film and video to bear witness to the cultural, political, and psychological imperatives of the AIDS crisis. He explains how queer films and videos made in response to the AIDS epidemics in North America, Europe, Australia, and South Africa challenge longstanding assumptions about both historical trauma and the politics of gay visibility. Drawing on a wide range of works, including activist tapes, found footage films, autobiographical videos, documentary portraits, museum installations, and even film musicals, Hallas reveals how such "queer AIDS media" simultaneously express both immediacy and historical consciousness. Queer AIDS media are neither mere ideological critiques of the dominant media representation of homosexuality and AIDS nor corrective attempts to produce "positive images" of people living with HIV/AIDS. Rather, they perform complex, mediated acts of bearing witness to the individual and collective trauma of AIDS. Challenging the entrenched media politics of who gets to speak, how, and to whom, Hallas offers a bold reconsideration of the intersubjective relations that connect filmmakers, subjects, and viewers. He explains how queer testimony reframes AIDS witnesses and their speech through its striking combination of direct address and aesthetic experimentation. In addition, Hallas engages recent historical changes and media transformations that have not only displaced queer AIDS media from activism to the archive, but also created new witnessing dynamics through the logics of the database and the remix. Reframing Bodies provides new insight into the work of Gregg Bordowitz, John Greyson, Derek Jarman, Matthias Müller, and Marlon Riggs, and offers critical consideration of important but often overlooked filmmakers, including Jim Hubbard, Jack Lewis, and Stuart Marshall.

Everyone either has or knows someone who has been given a coin folder as a child and gone on to fill it with cents, nickels, dimes, or quarters. The state quarter program has been one of the most successful in the U.S. Mint's history. It has brought collecting to the mainstream. Erectus Walks Amongst Us-Richard D. Fuerle 2008-03-01

Unprofitable Servants-Alvin O. Thompson 2002 Annotation. "In 1803, during the Napoleonic Wars, the British imperial government conquered the Dutch colony of Berbice and took over the management of presumed governmental slaves. These consisted of persons on four estates and artisans in New Amsterdam, the colony's capital, which comprised a group known as winkel (shop) slaves. The British efforts to generate a profit from these slaves caused conflict and engendered resistance." "Alvin Thompson's work is important because it illustrates that the imperial government arrived at the general abolition of slavery throughout its colonies in a rather ad hoc and piecemeal fashion. The study also raises important questions about the government's commitment to general abolition, noting that the Crown slaves were hardly treated better than the majority of privately owned slaves. Thompson uses a wealth of archival sources and makes a significant contribution by utilizing primary material so that the slaves themselves recount their individual experiences. The major strength of this work is that it deals with state slaves, a study that has never been done before in the historiography of slavery in the Americas."--BOOK JACKET. The Lost Colony-Paul Green 2014-06-30 In 1937, The Lost Colony, Paul Green's dramatic retelling of the founding and mysterious disappearance of the Roanoke Island colony, opened to standing-room-only audiences and rave reviews. Since then, the beloved outdoor drama has played to more than 3 million people, and it is still going strong. Produced by the Roanoke Island Historical Association at the Waterside Theater near Manteo, North Carolina, The Lost Colony has run for more than sixty summers almost without interruption. (Production was suspended during World War II, when the threat of German submarines prowling the coast made an extended blackout necessary.) The model for modern outdoor theater, The Lost Colony combines song, dance, drama, special effects, and music to breathe life into shadowy legend. This rendering of the play's text, edited and with an introduction by Laurence Avery, brings this pioneering work back into print.
