What I Talk About When I Talk About Running-Haruki Murakami 2009-08-11 From the best-selling author of The Wind-Up Bird Chronicle and After Dark, a rich and revelatory memoir about writing and running, and the integral impact both have made on his life. In 1982, having sold his jazz bar to devote himself to writing, Haruki Murakami began running to keep fit. A year later, he'd completed a solo course from Athens to Marathon, and now, after dozens of such races, not to mention triathlons and a slew of critically acclaimed books, he reflects upon the influence the sport has had on his life and-even more important-on his writing. Equal parts training log, travelogue, and reminiscence, this revealing memoir covers his four-month preparation for the 2005 New York City Marathon and includes settings ranging from Tokyo's Jingu Gaien gardens, where he once shared the course with an Olympian, to the Charles River in Boston among young women who outpace him. Through this marvellous lens of sport emerges a cornucopia of memories and insights: the eureka moment when he decided to become a writer, his greatest triumphs and disappointments, his passion for vintage LPs, and the experience, after the age of fifty, of seeing his race times improve and then fall back. By turns funny and sobering, playful and philosophical, What I Talk About When I Talk About Running is both for fans of this masterful yet guardedly private writer and for the exploding population of athletes who find similar satisfaction in distance running.

What We Talk About When We Talk About Books-Leah Price 2019-08-20 Reports of the death of reading are greatly exaggerated Do you worry that you've lost patience for anything longer than a tweet? If so, you're not alone. Digital-age pundits warn that as our appetite for books dwindles, so too do the virtues in which printed, bound objects once trained us: the willpower to focus on a sustained argument, the curiosity to look beyond the day's news, the willingness to be alone. The shelves of the world's great libraries, though, tell a more complicated story. Examining the wear and tear on the books that they contain, English professor Leah Price finds scant evidence that a golden age of reading ever existed. From the dawn of mass literacy to the invention of the paperback, most readers already skimmed and multitasked. Print-era doctors even forbade the very same silent absorption now recommended as a cure for electronic addictions. The evidence that books are dying proves even scarcer. In encounters with librarians, booksellers and activists who are reinventing old ways of reading, Price offers fresh hope to bibliophiles and literature lovers alike.

Savage Gods-Paul Kingsnorth 2019-09-17 THE OFFICIAL NORTH AMERICAN EDITION After moving with his wife and two children to a smallholding in Ireland, Paul Kingsnorth expects to find contentment. It is the goal he has sought — to nest, to find home — after years of rootlessness as an environmental activist and author. Instead he finds that his tools as a writer are failing him, calling into question his foundational beliefs about language and setting him at odds with culture itself. Informed by his experiences with indigenous peoples, the writings of D.H. Lawrence and Annie Dillard, and the day-to-day travails of farming his own land, Savage Gods asks: what does it mean to belong? What sacrifices must be made in order to truly inhabit a life? And can words ever paint the truth of the world — or are they part of the great lie which is killing it?

What We Talk About When We Talk About Rape-Sohaila Abdulali 2018-11-27 A Publishers Weekly Best Book of 2018 "Brilliant, necessary reading on the ways we talk—and, more importantly, don't talk—about rape and rape culture." —HelloGiggles "What We Talk About When We Talk About Rape is brilliant, frank, empowering, and urgently necessary. Sohaila Abdulali has created a powerful tool for examining rape culture and language on the individual, societal, and global level that everyone can benefit from reading." —Jill Soloway In the tradition of Rebecca Solnit, a beautifully written, deeply intelligent, searingly honest—and ultimately hopeful—examination of sexual assault and the global discourse on rape told through the perspective of a survivor, writer, counselor, and activist After surviving gang-rape at seventeen in Mumbai, Sohaila Abdulali was indignant about the deafening silence that followed and wrote a fiery piece about the perception of rape—and rape victims—for a women's magazine. Thirty years later, with no notice, her article reappeared and went viral in the wake of the 2012 fatal gang-rape in New Delhi, prompting her to write a New York Times op-ed about healing from rape that was widely circulated. Now, Abdulali has written What We Talk About When We Talk About Rape—a thoughtful, generous, unflinching look at rape and rape culture. Drawing on her own experience, her work with hundreds of survivors as the head of a rape crisis center in Boston, and three decades of grappling with rape as a feminist intellectual and writer, Abdulali tackles some of our thorniest questions about rape, articulating the confounding way we account for who gets raped and why—and asking how we want to raise the next generation. In interviews with survivors from around the world we hear moving personal accounts of hard-earned strength, humor, and wisdom that collectively tell the larger story of what rape means and how healing can occur. Abdulali also points to the questions we don't talk about: Is rape always a life-defining event? Is one rape worse than another? Is a world without rape possible? What We Talk About When We Talk About Rape is a book for this #MeToo and #TimesUp age that will stay with readers—men and women alike—for a long, long time.

What We Talk About When We Talk About Anne Frank-Nathan Englander 2012-02-07 These eight new stories from the celebrated novelist and short-story writer Nathan Englander display a gifted young author grappling with the great questions of modern life, with a command of language and the imagination that place Englander at the very forefront of contemporary American fiction. The title story, inspired by Raymond Carver's masterpiece, is a provocative portrait of two marriages in which the Holocaust is played out as a devastating parlor game. In the outlandishly dark "Camp Sundown" vigilante justice is undertaken by a group of geriatric campers in a bucolic summer enclave. "Free Fruit for Young Widows" is a small, sharp study in evil, lovingly told by a father to a son. "Sister Hills" chronicles the history of Israel's settlements from the eve of the Yom Kippur War through the present, a political fable constructed around the tale of two mothers who strike a terrible bargain to save a child. Marking a return to two of Englander's classic themes, "Peep Show" and "How We Avenged the Blums" wrestle with sexual longing and ingenuity in the face of adversity and peril. And "Everything I Know About My Family on My Mother's Side" is suffused with an intimacy and tenderness that break new ground for a writer who seems constantly to be expanding the parameters of what he can achieve in the short form. Beautiful and courageous, funny and achingly sad, Englander's work is a revelation.

What to Talk About-Chris Colin 2014-04-15 Homo sapiens have been speaking for hundreds of years—and yet basic communication still stymies us. We freeze up in elevators, on dates, at parties, under Dumpsters. We stagger through our exchanges merely hoping not to crash, never considering that we might soar. We go home sweaty and eat a birthday cake in the shower. But no more. With What to Talk About you'll learn to speak—fluently, intelligently, charmingly—to family, friends, coworkers, lovers, future lovers, horse trainers, children, even yourself. This hilarious manual, written by two award-winning authors and illustrated by legendary cartoonist Tony Millionaire, is tailor-made for anyone who might one day attend a dinner party, start a job, celebrate a birthday, graduate from school, date a human, or otherwise use words. What to Talk About is not rocket science, but it is a lot like brain surgery, in the sense that is terrifying, risky—and could change you forever.

We Need to Talk About Kevin-Lionel Shriver 2011-05-01 The inspiration for the film starring Tilda Swinton and John C. Reilly, this resonant story of a mother's unsettling quest to understand her teenage son's deadly violence, her own ambivalence toward motherhood, and the explosive link between them remains terrifyingly prescient. Eva never really wanted to be a mother. And certainly not the mother of a boy who murdered seven of his fellow high school students, a cafeteria worker, and a much-adored teacher in a school shooting two days before his sixteenth birthday. Neither nature nor nurture exclusively shapes a child's character. But Eva was always uneasy with the sacrifices and social demotion of motherhood. Did her internalized dislike for her own son shape him into the killer he's become? How much is her fault? Now, two years later, it is time for her to come to terms with Kevin's horrific rampage, all in a series of startlingly direct correspondences with her estranged husband, Franklin. A piercing, unforgettable, and penetrating exploration of violence and responsibility, a book that the Boston Globe describes as "impossible to put down," is a stunning examination of how tragedy affects a town, a marriage, and a family.

Once a Runner-John L. Parker 2009-04-07 The undisputed classic of running novels and one of the most beloved sports books ever published, Once a Runner tells the story of an athlete's dreams amid the turmoil of the 60s and the Vietnam war. Inspired by the author's experience as a collegiate champion, the novel follows Quenton Cassidy, a competitive runner at fictional Southeastern University whose lifelong dream is to run a four-minute mile. He is less than a second away when the turmoil of the Vietnam War era intrudes into the staid recesses of his school's athletic department. After he becomes involved in an athletes' protest, Cassidy is suspended from his track team. Under the tutelage of his friend and mentor, Bruce Denton, a graduate student and former Olympic gold medalist, Cassidy gives up his scholarship, his girlfriend, and possibly his future to withdraw to a monastic retreat in the countryside and begin training for the race of his life against the greatest miler in history. A rare insider's account of the incredibly intense lives of elite distance runners, Once a Runner is an inspiring, funny, and spot-on tale of one individual's quest to become a champion.

What We Talk About When We Talk About Cities (And Love)-Andy Merrifield 2018-11-01 In often dreamlike peregrinations around his home towns of Liverpool, London and New York Andy Merrifield reflects on what cities mean to us and how they shape the way we think. As he wanders, Merrifield's reveries circle questions: Can we talk about cities in the absolute, discovering their essence beneath the particulars? Is it possible truly to love or hate a city, to experience it carnally or viscerally? Might we find true love in the city? Merrifield does find love in the city: with his future wife, whom he takes on a date to see his hero Spalding Gray's "It's a Slippery Slope" at London's South Bank and soon after moves in with, to a tiny place in Bloomsbury where they celebrate the brilliance of new romance by painting the walls turquoise and gold. And for the fellow urbanist Marshall Berman, another working class boy who went up to Oxford. Berman takes Merrifield under his wing and shows him the thrills available in Dostoevsky and Marx over cups of coffee in ordinary cafes on New York City's Upper West Side. The mood music to these love affairs is provided by a rich repertoire of intellectuals, from Jane Jacobs to Mike Davis, from Louis Malle to Walter Benjamin. John Lennon, a pupil, like Merrifield, at Quarry Bank school in Liverpool, enters the story; so too the novelist and critic John Berger. And providing tonality throughout is the stripped down, razor honed talk about love in the stories of Raymond Carver. Andy Merrifield is the author of ten books including works on urbanism and social theory such as The New Urban Question and Magical Marxism, biographies of Henri Lefebvre, Guy Debord and John Berger, a popular travelogue, The Wisdom of Donkeys, and a manifesto for liberated living, The Amateur. His journalism has appeared in the Nation, Harper's, Adbusters, New Left Review, Dissent, the Brooklyn Rail, and Radical Philosophy.

What We Don't Talk About When We Talk About #MeToo-Joann Wypijewski 2020-05-05 An exquisite examination of a sexual culture in crisis What if we took sex out of the box marked "special," either the worst or best thing that a human person can experience, and considered it within the complexity of reality? In this extraordinary book, despite longstanding tabloid-style sexual preoccupations with monsters and victims, shame and virtue, JoAnn Wypijewski does exactly that. From the HIV crisis to the paedophile priest panic, Woody Allen to Brett Kavanaugh, child pornography to Abu Ghraib, Wypijewski takes the most famous sex panics of the last decades and turns them inside out, weaving what together becomes a searing indictment of modern sexual politics, exposing the myriad ways sex panics and the expansion of the punitive state are intertwined. What emerges is an examination of the multiple ways in which the ever-expanding default language of monsters and victims has contributed to the repressive power of the state. Politics exists in the mess of life. Sex does too, Wypijewski insists, and so must sexual politics, to make any sense at all.

What We Talk About When We Talk About God-Rob Bell 2014-09-02 How God is described today strikes many as mean, primitive, backward, illogical, tribal, and at odds with the frontiers of science. At the same time, many intuitively feel a sense of reverence and awe in the world. Can we find a new way to talk about God? Pastor and New York Times bestselling author Rob Bell does here for God what he did for heaven and hell in Love Wins: he shows how traditional ideas have grown stale and dysfunctional and reveals a new path for how to return vitality and vibrancy to how we understand God. Bell reveals how we got stuck, why culture resists certain ways of talking about God, and how we can reconnect with the God who is with us, for us, and ahead of us, pulling us forward into a better future—and ready to help us live life to the fullest.

Duel in the Sun-John Brant 2007-03-06 The 1982 Boston Marathon was great theater: Two American runners, Alberto Salazar, a celebrated champion, and Dick Beardsley, a gutsy underdog, going at each other for just under 2 hours and 9 minutes. Neither man broke. The race merely came to a thrilling, shattering end, exacting such an enormous toll that neither man ever ran as well again. Beardsley, the most innocent of men, descended into felony drug addiction, and Salazar, the toughest of men, fell prey to depression. Exquisitely written and rich with human drama, John Brant's Duel in the Sun brilliantly captures the mythic character of the most thrilling American marathon ever run—and the powerful forces of fate that drove these two athletes in the years afterward.

So You Want to Talk About Race-Ijeoma Oluo 2019-09-24 In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America Widespread reporting on aspects of white supremacy – from police brutality to the mass incarceration of Black Americans – has put a media spotlight on racism in our society. In So You Want to Talk About Race, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review "Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading)

Talking to Strangers-Malcolm Gladwell 2019-09-10 A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Pres Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers – and why they often go wrong. How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to each other that isn't true? While tackling these questions, Malcolm Gladwell was not solely writing a book for the page. He was also producing for the ear. In the audiobook version of Talking to Strangers, you'll hear the voices of people he interviewed—scientists, criminologists, military psychologists. Court transcripts are brought to life with re-enactments. You actually hear the contentious arrest of Sandra Bland by the side of the road in Texas. As Gladwell revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, and the suicide of Sylvia Plath, you hear directly from many of the players in these real-life tragedies. There's even a theme song - Janelle Monae's "Hell You Talmbout." Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world.

But when he does decide to sit down and talk, the conversations tend to be momentous. Q&As with Bruce Springsteen reveal an artist with great insight and self-awareness, a student of music, an avid searcher, an astute observer of humanity from the boardwalk to America at large. Much has been written about the Boss, but few can be said to know the man as well as he knows himself, and the best of Springsteen's own words are collected here in Talk About a Dream. Gathering more than 30 different interviews spanning from 1973 to 2013, this volume captures his remarkable personality-one that takes interviews as seriously as making music. These eye-opening conversations chart Springsteen's development as an artist, a thinker, and a public figure, shedding light on everything from the meaning of lyrics to his evolution from rebel rocker to global icon.

Can We Talk About Race?-Beverly Tatum 2008-04-01 Major new reflections on race and schools—by the best-selling author of “Why Are All the Black Kids Sitting Together in the Cafeteria?” A Simmons College/Beacon Press Race, Education, and Democracy Series Book Beverly Daniel Tatum emerged on the national scene in 1997 with “Why Are All the Black Kids Sitting Together in the Cafeteria?,” a book that spoke to a wide audience about the psychological dynamics of race relations in America. Tatum's unique ability to get people talking about race captured the attention of many, from Oprah Winfrey to President Clinton, who invited her to join him in his nationally televised dialogues on race. In her first book since that pathbreaking success, Tatum starts with a warning call about the increasing but underreported resegregation of America. A self-described “integration baby”—she was born in 1954—Tatum sees our growing isolation from each other as deeply problematic, and she believes that schools can be key institutions for forging connections across the racial divide. In this ambitious, accessible book, Tatum examines some of the most resonant issues in American education and race relations: • The need of African American students to see themselves reflected in curricula and institutions • How unexamined racial attitudes can negatively affect minority-student achievement • The possibilities—and complications—of intimate crossracial friendships Tatum approaches all these topics with the blend of analysis and storytelling that make her one of our most persuasive and engaging commentators on race. Can We Talk About Race? launches a collaborative lecture and book series between Beacon Press and Simmons College, which aims to reinvigorate a crucial national public conversation on race, education and democracy.

seems to have come straight from Therapist Central Casting. Yet he will turn out to be anything but. As Gottlieb explores the inner chambers of her patients' lives — a self-absorbed Hollywood producer, a young newlywed diagnosed with a terminal illness, a senior citizen threatening to end her life on her birthday if nothing gets better, and a twenty-something who can't stop hooking up with the wrong guys — she finds that the questions they are struggling with are the very ones she is now bringing to Wendell. With startling wisdom and humor, Gottlieb invites us into her world as both clinician and patient, examining the truths and fictions we tell ourselves and others as we teeter on the tightrope between love and desire, meaning and mortality, guilt and redemption, terror and courage, hope and change. Maybe You Should Talk to Someone is revolutionary in its candor, offering a deeply personal yet universal tour of our hearts and minds and providing the rarest of gifts: a boldly revealing portrait of what it means to be human, and a disarmingly funny and illuminating account of our own mysterious lives and our power to transform them.

So You Want to Talk About Race-Ijeoma Oluo 2019-09-24 In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America Widespread reporting on aspects of white supremacy – from police brutality to the mass incarceration of Black Americans – has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair – and how do you make it right? How do you explain white privilege to your white, privileged friend? In So You Want to Talk About Race, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review "Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading)

What We Talk about When We Talk about Hebrew (and What It Means to Americans)-Naomi B. Sokoloff 2018-07-28 Why Hebrew, here and now? What is its value for contemporary Americans? In What We Talk about When We Talk about Hebrew (and What It Means to Americans) scholars, writers, and translators tackle a series of urgent questions that arise from the changing status of Hebrew in the United States. To what extent is that status affected by evolving Jewish identities and shifting attitudes toward Israel and Zionism? Will Hebrew programs survive the current crisis in the humanities on university campuses? How can the vibrancy of Hebrew literature be conveyed to a larger audience? The volume features a diverse group of distinguished contributors, including Sarah Bunin Benor, Dara Horn, Adriana Jacobs, Alan Mintz, Hannah Pressman, Adam Rovner, Ian Stavans, Michael Weingrad, Robert Whitehill-Bashan, and Wendy Zierler. With lively personal insights, their essays give fellow Americans a glimpse into the richness of an exceptional language. Celebrating the vitality of modern Hebrew, this book addresses the challenges and joys of being a Hebraist in America in the twenty-first century. Together these essays explore ways to rekindle an interest in Hebrew studies, focusing not just on what Hebrew means—as

complex, meaning they depend on interactions between many different individual factors - muscular, skeletal, physiological, psychological - and also social and environmental context. Play is a natural and intuitive behavior that helps animals explore different ways to solve complex problems. If you want to get better at a sport, find a sustainable exercise program, or even get out of pain, you will need to play with movement. Play means getting physically active in a way that is fun, curious, variable, and personally meaningful. All animals develop skill and fitness through play, not "working out." But the mainstream approach to training and therapy is all work no play. It is focused on movements that are boring, repetitive, planned, stressful and done only to accomplish some external goal. This stems from a reductive mindset that views the body as a machine that needs to be "fixed," instead of a self-organizing system that can grow, adapt and learn. This causes a wide range of common problems, including: Pain treatments that expensive, medicalized and ineffective. An obsession with correcting "dysfunctions" in posture and movement patterns that are in fact normal variations. Sport training that relies on repetitive drills, as opposed to varied games. Exercise programs that feel meaningless and dispiriting. For example, "going through the motions" alone on machines in the gym, versus interacting with friends outside while developing functional skills. The arguments in this book are not based in romantic feel-good reasoning, or nostalgia for sunny days at the park when we were children. They rely on a substantial body of evidence and theory pulled from diverse fields of study, including the sciences of play, complex systems, pain, motor control, exercise physiology, and psychology. They show that the best pathway to movement health is found not by tracking huge amounts of data or following a set of complicated algorithms, but by going on an adventure. If you want to take control of your movement health in a way that is fun, meaningful, and empowering, this book is for you.
