Tudge writes much about the history of natural things. In the past I have read his books The Link and The Bird. Typically his books are well presented and with enough light humor to provide some whimsy while getting the facts and perspective that he offers. The Tree provided much of that but not without some consequences.

Richardsonian Romanesque - Wikipedia

Richardsonian Romanesque is a style of Romanesque Revival architecture named after Architect Henry Hobson Richardson (1838-1886). The revival style incorporates 11th and 12th century southern French, Spanish, and Italian Romanesque characteristics. Richardson first used elements of the style in his Richardson Olmsted Complex in Buffalo, New York, designed in 1870.
