Why Didn't You Just Do What You Were

Told?-Jenny Diski 2020-07-23 'Nothing about Jenny Diski is conventional. Diski does not do linear, or normal, or boring ... highly intelligent, furiously funny' Sunday Times 'She expanded notions about what nonfiction, as an art form, could do and could be' New Yorker Jenny Diski was a fearless writer, for whom no subject was too difficult, even her own cancer diagnosis. Her columns in the London Review of Books - selected here by her editor and friend Mary-Kay Wilmers, on subjects as various as death, motherhood, sexual politics and the joys of solitude - have been described as 'virtuoso performances', and 'small masterpieces'. From Highgate Cemetery to the interior of a psychiatric hospital, from Tottenham Court Road

to the icebergs of Antarctica, *Why Didn't You Just Do What You Were Told?* is a collective interrogation of the universal experience from a very particular psyche: original, opinionated - and mordantly funny.

Caste-Isabel Wilkerson 2020 NEW YORK TIMES BESTSELLER - OPRAH'S BOOK CLUB PICK - The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. "An instant American classic."--Dwight Garner, *The New York Times* "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power--which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores,

through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people--including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others--she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects

of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

The English Heretic Collection-Andy Sharp
2020-10-13 From its inaugural Black Plaque in honour of Witchfinder General director Michael Reeves, this unique collection follows a veridical trajectory to the frontiers of belief. Reeves' film becomes a conspiratorial cauldron drawing in a host of tragic players in the end game of the Sixties. The Cornwall of Du Maurier's *The Birds* is ploughed to reveal the hidden psychic codes of our Blitz spirit. In a powerfully relevant occult rendering of a bruised Island, the myth of Churchill is dissected and re-animalised. New

maps of hell are drawn by colliding the forensic vision of JG Ballard and Lovecraftian magic. Actors, witches and psychopaths maraud across a nightmare terrain of murderous henges and abandoned military bases; conflating creative research into a surreal documentary, history as hallucination. Geography becomes an alchemical alembic, a vale of soul-making distilled by the lysergic psychobiology of Stanislav Grof, the alcoholic lyricism of Malcolm Lowry, and the convulsive travelogues of the Marquis de Sade. If history is revealed as paranoid ritual, how do we escape its time traps to wild new imaginative geographies? The English Heretic collection is a darkly comical, urgently lyrical, mental escape hatch from the hells of our own making.

The Day the Lines Changed-Kelley Donner
2020-03-19 An inspiring new picture book explains what it means to live, love, and hope during a pandemic in a child-friendly way. Without ever saying "Coronavirus" or "Pandemic," *The Day the Lines Changed* explains

what it means to live through a viral outbreak and gives children a much needed, optimistic view of the future. Through the use of ripped paper and basic shapes, Kelley Donner takes a frightening and complicated pandemic and turns it into an uplifting, easily understandable story about the life of a green line. A welcome resource for parents, teachers, and caregivers who are trying their best to explain the pandemic to worried children. 100% of profits from the book through April will be donated to the Covid-19 charities. Carefree and happy, the green line lives together with her family, goes to school during the week, and on weekends visits the town square. Then one day some of the orange and purple lines begin to turn crooked and suddenly, everything is different for the green line and her family. Just as green begins to worry, if her own family might turn crooked, one line makes a fantastic discovery which changes the lives of the lines forever.

Great Circle-Maggie Shipstead 2021 "Great Circle is a masterpiece...one of the best books I've ever read" --J. Courtney Sullivan A breathtaking epic... This is a stunning feat. -- Publishers Weekly #1 IndieNext Pick *A Most Anticipated Book of 2021 according to O, The Oprah Magazine; Lit Hub; She Reads; Town & Country; Esquire; and Bustle* An unforgettable story of a daredevil female aviator determined to chart her own course in life, at any cost--Great Circle spans Prohibition-era Montana, the Pacific Northwest, Alaska, New Zealand, wartime London, and modern-day Los Angeles. After being rescued as infants from a sinking ocean liner in 1914, Marian and Jamie Graves are raised by their dissolute uncle in Missoula, Montana. There--after encountering a pair of barnstorming pilots passing through town in beat-up biplanes--Marian commences her lifelong love affair with flight. At fourteen she drops out of school and finds an unexpected and dangerous patron in a wealthy bootlegger who provides a plane and subsidizes her lessons, an arrangement that will haunt her for the rest of

her life, even as it allows her to fulfill her destiny: circumnavigating the globe by flying over the North and South Poles. A century later, Hadley Baxter is cast to play Marian in a film that centers on Marian's disappearance in Antarctica. Vibrant, canny, disgusted with the claustrophobia of Hollywood, Hadley is eager to redefine herself after a romantic film franchise has imprisoned her in the grip of cult celebrity. Her immersion into the character of Marian unfolds, thrillingly, alongside Marian's own story, as the two women's fates--and their hunger for self-determination in vastly different geographies and times--collide. Epic and emotional, meticulously researched and gloriously told, Great Circle is a monumental work of art, and a tremendous leap forward for the prodigiously gifted Maggie Shipstead.

How to Survive a Pandemic-Michael Greger
MD 2020-05-26 A vital, timely text on the viruses that cause pandemics and how to face them, by the New York Times bestselling author of How Not to Die. As the world grapples with the devastating impact of COVID-19, Dr Greger reveals not only what we can do to protect ourselves and our loved ones during a pandemic, but also what human society must rectify to reduce the likelihood of even worse catastrophes in the future. From tuberculosis to bird flu and HIV to coronavirus, these infectious diseases share a common origin story: human interaction with animals. Otherwise known as zoonotic diseases for their passage from animals to humans, these pathogens—both pre-existing ones and those newly identified – emerge and re-emerge throughout history, sparking epidemics and pandemics that have resulted in millions of

deaths around the world. How did these diseases come about? And what - if anything - can we do to stop them and their fatal march into our countries, our homes, and our bodies? In *How to Survive a Pandemic*, Dr Michael Greger, physician and internationally-recognized expert on public health issues, delves into the origins of some of the deadliest pathogens the world has ever seen. Tracing their evolution from the past until today, Dr Greger spotlights emerging flu and coronaviruses as he examines where these pathogens originated, as well as the underlying conditions and significant human role that have exacerbated their lethal influence to large, and even global, levels.

Ungrading-Susan D. Blum 2020-12 The moment is right for critical reflection on what has been assumed to be a core part of schooling. In *Ungrading*, fifteen educators write about their diverse experiences going gradeless. Some contributors are new to the practice and some have been engaging in it for decades. Some are in humanities and social sciences, some in STEM fields. Some are in higher education, but some are the K-12 pioneers who led the way. Based on rigorous and replicated research, this is the first book to show why and how faculty who wish to focus on learning, rather than sorting or judging, might proceed. It includes honest reflection on what makes ungrading challenging, and testimonials about what makes it transformative. CONTRIBUTORS: Aaron Blackwelder Susan D. The Removed-Brandon Hobson 2021-02-02

“Brandon Hobson has given us a haunted work, full of voices old and new. It is about a family’s reckoning with loss and injustice, and it is about a people trying for the same. The journey of this family’s way home is full—in equal measure—of melancholy and love. The Removed is spirited, droll, and as quietly devastating as rain lifting from earth to sky.” —Tommy Orange, author of *There There* A RECOMMENDED BOOK FROM USA Today * O, the Oprah Magazine * AARP * Alma * Biblio Lifestyle * Publishers Weekly Steeped in Cherokee myths and history, a novel about a fractured family reckoning with the tragic death of their son long ago—from National Book Award finalist Brandon Hobson In the fifteen years since their teenage son, Ray-Ray, was killed in a police shooting, the Echota family has been suspended in private grief. The mother, Maria, increasingly struggles to manage the onset of Alzheimer’s in her husband, Ernest. Their adult daughter, Sonja, leads a life of solitude, punctuated only by spells of dizzying romantic obsession. And their son, Edgar, fled

home long ago, turning to drugs to mute his feelings of alienation. With the family’s annual bonfire approaching—an occasion marking both the Cherokee National Holiday and Ray-Ray’s death, and a rare moment in which they openly talk about his memory—Maria attempts to call the family together from their physical and emotional distances once more. But as the bonfire draws near, each of them feels a strange blurring of the boundary between normal life and the spirit world. Maria and Ernest take in a foster child who seems to almost miraculously keep Ernest’s mental fog at bay. Sonja becomes dangerously fixated on a man named Vin, despite—or perhaps because of—his ties to tragedy in her lifetime and lifetimes before. And in the wake of a suicide attempt, Edgar finds himself in the mysterious Darkening Land: a place between the living and the dead, where old atrocities echo. Drawing deeply on Cherokee folklore, *The Removed* seamlessly blends the real and spiritual to excavate the deep reverberations of trauma—a meditation on family, grief, home, and the power of stories on both a personal and

ancestral level.

Rural Rebellion-Ross Benes 2021-01-15 "What's the matter with Nebraska? The Cornhusker State has a famously independent history and stands out as the only state to have a nonpartisan, single-house legislature. But over the past three decades, like other states in "middle America," Nebraska has shifted from being a consistently centrist state to a deeply red and reliably Republican state. Many of the popular accounts of this partisan shift come from people who do not understand these states from the inside and are thus already unsympathetic with their concerns. As a native Nebraskan and professional journalist who has watched these changes unfold, Ross Benes understands intimately well why this happened. With unflinching honesty as well as deep empathy for his fellow Nebraskans, Benes explains how his home state became a Republican stronghold. With a blend of memoir, journalism, political science, and sociology, Cornhusker Red examines the changes that have taken place in America's heartland from the perspective of one who grew

up there and still sees his home as "the good life." Benes explores key cultural and political topics, such as religion, healthcare, and immigration, as well as important Nebraskan institutions, including the state legislature, public university system, and political parties. Through detailed reporting and personal life experiences, Benes traces how his home state abandoned its nonpartisan legislature and kicked its most popular moderates and liberals to the curb while dark money, cultural resentment, and rigid political parties drove good-hearted working-class folks to embrace the policies and rhetoric of billionaires and reactionaries"--

Why We're Polarized-Ezra Klein 2020-01-28

The New York Times Bestseller The Wall Street Journal Bestseller “Few books are as well-matched to the moment of their publication as Ezra Klein’s *Why We’re Polarized*.” —Dan Hopkins, *The Washington Post* “It is likely to become the political book of the year....Powerful [and] intelligent.” —Fareed Zakaria, *CNN* “Superbly researched and written...” —Francis Fukuyama, *The Washington Post* America’s political system isn’t broken. The truth is scarier: it’s working exactly as designed. In this book, journalist Ezra Klein reveals how that system is polarizing us—and how we are polarizing it—with disastrous results. “The American political system—which includes everyone from voters to journalists to the president—is full of rational actors making rational decisions given the incentives they face,” writes political analyst Ezra Klein. “We are a collection of functional parts whose efforts combine into a dysfunctional whole.” In *Why We’re Polarized*, Klein reveals the structural and psychological forces behind America’s descent into division and dysfunction. Neither a polemic nor a lament, this book offers a

clear framework for understanding everything from Trump’s rise to the Democratic Party’s leftward shift to the politicization of everyday culture. America is polarized, first and foremost, by identity. Everyone engaged in American politics is engaged, at some level, in identity politics. Over the past fifty years in America, our partisan identities have merged with our racial, religious, geographic, ideological, and cultural identities. These merged identities have attained a weight that is breaking much in our politics and tearing at the bonds that hold this country together. Klein shows how and why American politics polarized around identity in the twentieth century, and what that polarization did to the way we see the world and one another. And he traces the feedback loops between polarized political identities and polarized political institutions that are driving our system toward crisis. This is a revelatory book that will change how you look at politics, and perhaps at yourself.

Switched on Pop-Nate Sloan 2019-12-13 Pop

music surrounds us - in our cars, over supermarket speakers, even when we are laid out at the dentist - but how often do we really hear what's playing? Switched on Pop is the book based on the eponymous podcast that has been hailed by NPR, Rolling Stone, The Guardian, and Entertainment Weekly for its witty and accessible analysis of Top 40 hits. Through close studies of sixteen modern classics, musicologist Nate Sloan and songwriter Charlie Harding shift pop from the background to the foreground, illuminating the essential musical concepts behind two decades of chart-topping songs. In 1939, Aaron Copland published What to Listen for in Music, the bestseller that made classical music approachable for generations of listeners. Eighty years later, Nate and Charlie update Copland's idea for a new audience and repertoire: 21st century pop, from Britney to Beyoncé, Outkast to Kendrick Lamar. Despite the importance of pop music in contemporary culture, most discourse only revolves around lyrics and celebrity. Switched on Pop gives readers the tools they need to interpret our modern soundtrack. Each

chapter investigates a different song and artist, revealing musical insights such as how a single melodic motif follows Taylor Swift through every genre that she samples, André 3000 uses metric manipulation to get listeners to "shake it like a Polaroid picture," or Luis Fonsi and Daddy Yankee create harmonic ambiguity in "Despacito" that mirrors the patterns of global migration. Replete with engaging discussions and eye-catching illustrations, Switched on Pop brings to life the musical qualities that catapult songs into the pop pantheon. Readers will find themselves listening to familiar tracks in new ways and not just those from the Top 40. The timeless concepts that Nate and Charlie define can be applied to any musical style. From fanatics to skeptics, teenagers to octogenarians, non-musicians to professional composers, every music lover will discover something ear-opening in Switched on Pop.

The Price You Pay for College-Ron Lieber
2021-01-26 The hugely popular New York Times "Your Money" columnist and author of the bestselling *The Opposite of Spoiled* offers a deeply reported and emotionally honest approach to the biggest financial decision families will ever make: what to pay for college. Sending a teenager to a flagship state university for four years of on-campus living costs more than \$100,000 in many parts of the United States. Meanwhile, many families of freshmen attending selective private colleges will spend triple—over \$300,000. With the same passion, smarts, and humor that infuse his personal finance column, Ron Lieber offers a much-needed roadmap to help families navigate this difficult and often confusing journey. Lieber begins by explaining who pays what and why and how the financial aid system got so complicated. He also pulls the

curtain back on merit aid, an entirely new form of discounting that most colleges now use to compete with peers. While price is essential, value is paramount. So what is worth paying extra for, and how do you know when it exists in abundance at any particular school? Is a small college better than a big one? Who actually does the teaching? Given that every college claims to have reinvented its career center, who should we actually believe? He asks the tough questions of college presidents and financial aid gatekeepers that parents don't know (or are afraid) to ask and summarizes the research about what matters and

what doesn't. Finally, Lieber calmly walks families through the process of setting financial goals, explaining the system to their children and figuring out the right ways to save, borrow, and bargain for a better deal. The Price You Pay for College gives parents the clarity they need to make informed choices and helps restore the joy and wonder the college experience is supposed to represent.
