Full Body Burden-Kristen Iversen 2013 A narrative report by a woman who grew up near the Rocky Flats nuclear weapon facility describes the dark secrets that dominated her childhood, the strange cancers that afflicted her neighbors, her brief employment at Rocky Flats and the efforts of residents to achieve legal justice. 30,000 first printing.

Full Body Burden-Kristen Iversen 2012-06-05 “An intimate and deeply human memoir that shows why we should all be concerned about nuclear safety, and the dangers of ignoring science in the name of national security.”—Rebecca Skloot, #1 New York Times bestselling author of The Immortal Life of Henrietta Lacks A shocking account of the government’s attempt to conceal the effects of the toxic waste released by a secret nuclear weapons plant in Colorado and a community’s vain search for justice—soon to be a feature documentary Kristen Iversen grew up in a small Colorado town close to Rocky Flats, a secret nuclear weapons plant once designated “the most contaminated site in America." Full Body Burden is the story of a childhood and adolescence in the shadow of the Cold War, in a landscape at once startlingly beautiful and--unknown to those who lived there--tainted with invisible yet deadly particles of plutonium. It's also a book about the destructive power of secrets--both family and government. Her father's hidden liquor bottles, the strange cancers in children in the neighborhood, the truth about what was made at Rocky Flats--best not to inquire too deeply into any of it. But as Iversen grew older, she began to ask questions and discovered some disturbing realities. Based on extensive interviews, FBI and EPA documents, and class-action testimony, this taut, beautifully written book is both captivating and unnerving.

Full Body Burden-Kristen Iversen 2012-07-05 It is the early 1950s. Kristen Iversen is enjoying a carefree childhood surrounded by desert and mountains. But just a few miles down the road, the US government decides to build a secret nuclear weapons facility at Rocky Flats. Kirsten and her siblings jump streams, ride horses, live a happy outdoors life. But beneath this veneer her family is quietly falling apart. Her father drinks, her mother copes. And in a series of fires, accidents and other catastrophic leaks, Rocky Flats nuclear plant is spewing an invisible cocktail of the most dangerous substances on earth into this pristine landscape. The ground, the air and the water are all alive with radiation. The years that follow will bring protests, investigations, denials, cover-ups, threats and lies. And then, one after another, people start to fall ill.

Making a Real Killing-Len Ackland 2002 A chilling, fast-moving study of the nuclear weapons plant in the Denver suburbs, told through the experiences of managers, workers, activists, and neighbors who were all so deeply affected by the hazardous plant.

Molly Brown-Kristen Iversen 1999 Inaccurately portrayed by Hollywood as a vulgarian, reveals the true nature of the Titanic survivor, philanthropist, and social reformer who fought for women’s, children’s, labor, and race equality causes and challenged her church on social issues.

Doom with a View-Kristen Iversen 2020-08-14 Tucked up against the Rocky Mountains, just west of Denver, sits the remnants of one of the most notorious nuclear weapons sites in North America: Rocky Flats. With a history of environmental catastrophes, political neglect, and community-wide health crises, this site represents both one of the darkest and most controversial chapters in our nation’s history, and also a conundrum on repurposing lands once considered lost. As the crush of encroaching residential areas close in on this site and the generation of Rocky Flats workers passes on, the memory of Rocky Flats is receding from the public mind; yet the need to responsibly manage the site, and understand the consequences of forty years of plutonium production and contamination, must be a part of every decision for the land’s future.

Don't Look Now-Kristen Iversen 2020 Essays about the things we see that we can’t unsee and how we carry on in the wake of those moments.

The Sand Creek Massacre-Stan Hoig 2013-02-27 Sometimes called "The Chivington Massacre" by those who would emphasize his responsibility for the attack and "The Battle of Sand Creek" by those who would imply that it was not a massacre, this event has become one of our nation’s most controversial Indian conflicts. The subject of army and Congressional investigations and inquiries, a matter of vigorous newspaper debates, the object of much oratory and writing biased in both directions, the Sand Creek Massacre very likely will never be completely and satisfactorily resolved. This account of the massacre investigates the historical events leading to the battle, tracing the growth of the Indian-white conflict in Colorado Territory. The author has shown the way in which the discontent stemming from the treaty of Fort Wise, the depredations committed by the Cheyennes and Arapahoes prior to the massacre, and the desire of some of the commanding officers for a bloody victory against the Indians laid the groundwork for the battle at Sand Creek.

Broken Whole-Jane Binns 2018-11-13 At the age of thirty-five, desperate to salvage a self that has been suffocating for years—and to save her two-year-old son from witnessing a miserable relationship between his parents—Jane Binns leaves her husband of twelve years. She has no plan or intention but to leave, however, and therein begins the misadventures lying in wait for her. Over the years that follow, Binns falls in love with Steve, a man eighteen years her senior who has been suffering from post-traumatic stress disorder since his return from military service in Vietnam forty years prior, and who has a talent for making her feel heard. Despite his inability to provide anything more than a spurious connection, run on a mercurial and erratic schedule, and despite his repeated rejections of her love, she continues to pursue him. During their off periods, she dates other men—but she inevitably compares each new suitor to Steve, and all of them fall short. Ultimately, it takes the loss of her father in the summer of 2014, followed by the death of her ex-husband five months later, for her to finally let go of Steve—and, in the process, fully unearth the self she’s been chasing all along.

Body Brokers-Annie Cheney 2006 An exposâe of the business of procuring and selling human cadavers and body parts describes how bodies meant for academic research, burial, or cremation make their way to body brokers who illegally capitalize on the need for human remains.

Refuge-Terry Tempest Williams 2015-03-18 In the spring of 1983 Terry Tempest Williams learned that her mother was dying of cancer. That same season, The Great Salt Lake began to rise to record heights, threatening the Bear River Migratory Bird Refuge and the herons, owls, and snowy egrets that Williams, a poet and naturalist, had come to gauge her life by. One event was nature at its most random, the other a by-product of rogue technology: Terry’s mother, and Terry herself, had

been exposed to the fallout of atomic bomb tests in the 1950s. As it interweaves these narratives of dying and accommodation, Refuge transforms tragedy into a document of renewal and spiritual grace, resulting in a work that has become a classic.

The Glass Castle-Jeannette Walls 2006-01-02 Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Blood Passion-Scott Martelle 2008-08 Offers an in-depth account of the violent strike that plagued Colorado's southern coal district, which in April 1914 culminated in a full-scale battle between armed strikers and the Colorado National Guard, the burning of the strikers' tent colony in Ludlow, and the deaths of two women and eleven children, and launched calls for vicious guerrilla warfare on the part of union supporters.

The Great Work-Thomas Berry 2011-08-10 Thomas Berry is one of the most eminent cultural historians of our time. Here he presents the culmination of his ideas and urges us to move from being a disrupting force on the Earth to a benign presence. This transition is the Great Work -- the most necessary and most ennobling work we will ever undertake. Berry's message is not one of doom but of hope. He reminds society of its function, particularly the universities and other educational institutions whose role is to guide students into an appreciation rather than an exploitation of the world around them. Berry is the leading spokesperson for the Earth, and his profound ecological insight illuminates the path we need to take in the realms of ethics, politics, economics, and education if both we and the planet are to survive.

Colorado-Carl Abbott 2013-06-15 Since 1976, newcomers and natives alike have learned about the rich history of the magnificent place they call home from Colorado: A History of the Centennial State. In the fifth edition, coauthors Carl Abbott, Stephen J. Leonard, and Thomas J. Noel incorporate recent events, scholarship, and insights about the state in an accessible volume that general readers and students will enjoy. The new edition tells of conflicts, shifting alliances, and changing ways of life as Hispanic, European, and African American settlers flooded into a region that was already home to Native Americans. Providing a balanced treatment of the entire state’s history—from Grand Junction to Lamar and from Trinidad to Craig—the authors also reveal how Denver and its surrounding communities developed and gained influence. While continuing to elucidate the significant impact of mining, agriculture, manufacturing, and tourism on Colorado, the fifth edition broadens and focuses its coverage by consolidating material on Native Americans into one chapter and adding a new chapter on sports history. The authors also expand their discussion of the twentieth century with updated sections on the environment, economy, politics, and recent cultural conflicts. New illustrations, updated statistics, and an extensive bibliography including Internet resources enhance this edition.

I Know Why the Caged Bird Sings-Maya Angelou 2010-07-21 Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I Know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou’s debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local “powhitetrash.” At eight years old and back at her mother’s side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors (“I met and fell in love with William Shakespeare”) will allow her to be free instead of imprisoned. Poetic and powerful, I Know Why the Caged Bird Sings will touch hearts and change minds for as long as people read. “I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity.”—James Baldwin From the Paperback edition.

My Antonia-Willa Cather 2020-06-22 Hailed by reviewers and readers for its originality, vitality, and truth, this novel secured Willa Cather a place in the first rank of American writers. Cather called My Antonia "the best thing I've done." For Oliver Wendell Holmes, My Antonia had "unfailing charm, perhaps not to be defined; a beautiful tenderness, a vivifying imagination that transforms but does not distort or exaggerate." H. L. Mencken declared it "one of the best [novels] any American has ever done." Cather drew deeply on her childhood days in frontier Nebraska for this, her fourth novel, published in 1918. Old immigrant neighbors inspired many of the characters, particularly the heroine. Antonia Shimerda is memorable as the warmhearted daughter of Bohemians who must adapt to a hard life on the desolate prairie. She survives and matures, a pioneer woman made radiant by spirit. W. T. Benda's illustrations further illuminate the fiction of a writer who drew so extensively on actual experience.

Confessions of a Sociopath-M.E. Thomas 2013-05-14 The memoir of a high-functioning, law-abiding (well, mostly) sociopath and a roadmap—right from the source—for dealing with the sociopath in your life. As M.E. Thomas says of her fellow sociopaths, “We are your neighbors, your coworkers, and quite possibly the people closest to you: lovers, family, friends. Our risk-seeking behavior and general fearlessness are thrilling, our glibness and charm alluring. Our often quick wit and outside-the-box thinking make us appear intelligent—even brilliant. We climb the corporate ladder faster than the rest, and appear to have limitless self-confidence. Who are we? We are highly successful, noncriminal sociopaths and we comprise 4 percent of the American population.” Confessions of a Sociopath—part confessional memoir, part primer for the curious—takes readers on a journey into the mind of a sociopath, revealing what makes them tick while debunking myths about sociopathy and offering a road map for dealing with the sociopaths in your life. M. E. Thomas draws from her own experiences as a diagnosed sociopath; her popular blog, Sociopathworld; and scientific literature to unveil for the very first time these men and women who are “hiding in plain sight.”

Growing Up Disabled in Australia-Carly Findlay 2021-02-03 My body and its place in the world seemed normal to me. Why wouldn’t it? I didn’t grow up disabled; I grew up with a problem. A problem that those around me wanted to fix. We have all felt that uncanny sensation that someone is watching us. The diagnosis helped but it didn’t fix everything. Don’t fear the labels. That identity, which I feared for so long, is now one of my greatest qualities. I had become disabled – not just by my disease, but by the way the world treated me. When I found that out, everything changed. One in five Australians has a disability. And disability presents itself in many ways. Yet disabled people are still underrepresented in the media and in literature. In Growing Up Disabled in Australia – compiled by writer and appearance activist Carly Findlay OAM – more than forty writers with a disability or chronic illness share their stories, in their own words. The result is illuminating. Contributors include senator Jordon Steele-John, paralympian Isis Holt, Dion Beasley, Sam Drummond, Astrid Edwards, Sarah Firth, El Gibbs, Eliza Hull, Gayle Kennedy, Carly-Jay Metcalfe, Fiona Murphy, Jessica Walton and many more.

Owed-Joshua Bennett 2020-09-01 From "one of the most impressive voices in poetry today" (Dissent magazine), a new collection that shines a light on forgotten or obscured parts of the past in order to reconstruct a deeper, truer vision of the present Gregory Pardlo described Joshua Bennett's first collection of poetry, The Sobbing School, as an "arresting debut" that was "abounding in tenderness and rich with character," with a "virtuosic kind of code switching." Bennett's new collection, Owed, is a book with celebration at its center. Its primary concern is how we might mend the relationship between ourselves and the people, spaces, and objects we have been taught to think of as insignificant, as fundamentally unworthy of study, reflection, attention, or care. Spanning the spectrum of genre and form--from elegy and ode to origin myth--these poems elaborate an aesthetics of repair. What's more, they ask that we turn to the songs and sites of the historically denigrated so that we might uncover a new way of being in the world together, one wherein we can truthfully reckon with the brutality of the past and thus imagine the possibilities of our shared, unpredictable present, anew.

This Atom Bomb in Me-Lindsey A. Freeman 2019-02-12 This Atom Bomb in Me traces what it felt like to grow up suffused with American nuclear culture in and around the atomic city of Oak Ridge, Tennessee. As a secret city during the Manhattan Project, Oak Ridge enriched the uranium that powered Little Boy, the bomb that destroyed Hiroshima. The city was a major nuclear production site throughout the Cold War, adding something to each and every bomb in the United States arsenal. Even today, Oak Ridge contains the world’s largest supply of fissionable uranium. The granddaughter of an atomic courier, Lindsey A. Freeman turns a critical yet nostalgic eye to the place where her family was sent as part of a covert government plan. Theirs was a city devoted to nuclear science within a larger America obsessed with its nuclear prowess. Through memories, mysterious photographs, and uncanny childhood toys, she shows how Reagan-era politics and nuclear culture irradiated the late twentieth century. Alternately tender and alarming, her book takes a Geiger counter to recent history, reading the half-life of the atomic past as it resonates in our tense nuclear present.

Prepared-Diane Tavenner 2019 "Diane Tavenner, founder of Summit Public Schools, offers a blueprint for a better way to educate our children, based on the revolutionary lessons, insights, and methodology she and her faculty developed over 15 years at their famously successful charter schools in California and Washington, which she is now introducing to public school systems across the country that Summit is partnering with to transform education and better prepare our children to lead fulfilled and successful lives. Diane Tavenner founded the first Summit charter school in 2003, developing and perfecting a personalized, project-based curriculum that puts students in charge of their own learning. The school developed a learning plan for every student. They engaged the students by appealing to them with interdisciplinary, real-world projects, rather than passively learning and memorizing in a classroom environment. They created mentorship groups, where students would talk through their goals and help each other solve problems, as well as meet one-on-one with their mentor, weekly. By internalizing a sense of purpose, self-direction, self-sufficiency, and collaboration, students learn the cognitive and life skills needed to navigate the next phases of their lives. Virtually 100% of Summit's original 400 students went on to attend four year colleges"--

Teaching with Poverty in Mind-Eric Jensen 2010-06-16 In Teaching with Poverty in Mind: What Being Poor Does to Kids' Brains and What Schools Can Do About It, veteran educator and brain expert Eric Jensen takes an unflinching look at how poverty hurts children, families, and communities across the United States and demonstrates how schools can improve the academic achievement and life readiness of economically disadvantaged students. Jensen argues that although chronic exposure to poverty can result in detrimental changes to the brain, the brain's very ability to adapt from experience means that poor children can also experience emotional, social, and academic success. A brain that is susceptible to adverse environmental effects is equally susceptible to the positive effects of rich, balanced learning environments and caring relationships that build students' resilience, self-esteem, and character. Drawing from research, experience, and real school success stories, Teaching with Poverty in Mind reveals * What poverty is and how it affects students in school; * What drives change both at the macro level (within schools and districts) and at the micro level (inside a student's brain); * Effective strategies from those who have succeeded and ways to replicate those best practices at your own school; and * How to engage the resources necessary to make change happen. Too often, we talk about change while maintaining a culture of excuses. We can do better. Although no magic bullet can offset the grave challenges faced daily by disadvantaged children, this timely resource shines a spotlight on what matters most, providing an inspiring and practical guide for enriching the minds and lives of all your students.

Nothing Daunted-Dorothy Wickenden 2011-06-21 The acclaimed and captivating true story of two restless society girls who left their affluent lives to “rough it” as teachers in the wilds of Colorado in 1916. In the summer of 1916, Dorothy Woodruff and Rosamond Underwood, bored by society luncheons, charity work, and the effete men who courted them, left their families in Auburn, New York, to teach school in the wilds of northwestern Colorado. They lived with a family of homesteaders in the Elkhead Mountains and rode to school on horseback, often in blinding blizzards. Their students walked or skied, in tattered clothes and shoes tied together with string. The young cattle rancher who had lured them west, Ferry Carpenter, had promised them the adventure of a lifetime. He hadn’t let on that they would be considered dazzling prospective brides for the locals. Nearly a hundred years later, Dorothy Wickenden, the granddaughter of Dorothy Woodruff, found the teachers’ buoyant letters home, which captured the voices of the pioneer women, the children, and other unforgettable people the women got to know. In reconstructing their journey, Wickenden has created an exhilarating saga about two intrepid women and the “settling up” of the West.
