Fancy Party Gowns: The Story of Fashion Designer Ann Cole Lowe-Deborah Blumenthal 2017-01-17 A beautiful picture book about Ann

Cole Lowe, a little-known African-American fashion designer who battled personal and social adversity in order to pursue her passion of making beautiful gowns and went on to become one of society's top designers. Wisps of cloth would fall from their worktables like confetti, and Ann would scoop them up and turn them into flowers as bright as roses in the garden. Ann's family came from Alabama. Her great grandma had been a slave, so her family knew about working hard just to get by. As soon as Ann Cole Lowe could walk, her momma and grandma taught her to sew. She worked near her momma in their Alabama family shop in the early 1900s, making glorious dresses for women who went to fancy parties. When Ann was 16, her momma died, and Ann continued sewing dresses. It wasn't easy, especially when she went to design school and had to learn alone, segregated from the rest of the class. But the work she did set her spirit soaring, as evidenced in the clothes she made, including Jackie Kennedy's wedding dress and Olivia de Havilland's dress at the Oscars when she won for Best Actress in *To Each His*

Own. Rarely credited, Ann Cole Lowe became "society's best kept secret." This beautiful picture book shines the spotlight on a little-known visionary who persevered in times of hardship, always doing what she was passionate about: making elegant gowns for the women who loved to wear them.

A Dress for Diana-David Emanuel 2011-04-05
July 29, 1981—The Royal Wedding of HRH Prince Charles and Lady Diana Spencer was one of the iconic moments of the twentieth century. It remains a day embedded in the memory of millions of people around the world—over 800 million people were watching at home on television. Of all the images from the day, the most unforgettable is Diana's arrival at St. Paul's Cathedral in a glass carriage and the public's first glimpse of the best kept secret of the day, the royal wedding dress: layers of silk, antique lace, pearls, sequins, and a 25-foot train, which had been hidden in a vault in London, concealed

from the public eye. It was a true Cinderella dress, one the public is joyfully remembering today as they anxiously wait to see if the wedding gown of England's future princess, Kate Middleton who is already known for dressing like Diana at royal events, can surpass it. For the designers, David Emanuel and Elizabeth Emanuel who created Diana's dress, it was "a fairytale come true." Having only been introduced to her earlier that year, the Emanuels quickly became one of her favored designers, which led to the career-changing request they received in March 1981. The glorious dress the Emanuels created was one bridal designers around the world would soon mimic, and it is carefully deconstructed in this artfully designed book created by the designers themselves and filled to the brim with background information on the dress and Diana's wishes for it, the original inspirational sketches of it, close-up images of its remarkable details, and photographs of Diana dressed in it on her wedding day as she became the royal princess of England.

Bitter is the New Black-Jen Lancaster

2006-03-07 New York Times bestselling author Jen Lancaster takes you from sorority house to penthouse to poorhouse in her hilarious memoir of living the sweet life—until real life kicked her to the curb. She had the perfect man, the perfect job—hell, she had the perfect life—and there was no reason to think it wouldn't last. Or maybe there was, but Jen Lancaster was too busy being manicured, pedicured, highlighted, and generally adored to notice. This is the smart-mouthed, soul-

searching story of a woman trying to figure out what happens next when she's gone from six figures to unemployment checks and she stops to reconsider some of the less-than-rosy attitudes and values she thought she'd never have to answer for when times were good. Filled with caustic wit and unusual insight, it's a rollicking read as speedy and unpredictable as the trajectory of a burst balloon.
