Unsung Lullabies-Martha Diamond 2005-06-01

For people experiencing infertility, wanting a baby is a craving unlike any other. The intensity of their longing is matched only by the complexity of the emotional maze they must navigate. With insight and compassion, Drs. Janet Jaffe, Martha Diamond, and David Diamond-specialists in the field of Reproductive Psychology who have each experienced their own struggle with infertility-give couples the tools to:

- *Reduce their sense of helplessness and isolation
- *Identify their mates' coping styles to erase unfair expectations
- *Listen to their "unsung lullabies"--their conscious and unconscious dreams about having a family--to mourn the losses of infertility and move on.

Ground-breaking, wise, and compassionate, **Unsung Lullabies** is a necessary companion for anyone coping with infertility.

Reproductive Trauma-Janet Jaffe (Ph. D.) 2011

A comprehensive guide for the clinical practitioner. The authors draw from a wealth of empirical research as well as numerous case studies to provide a deep understanding of the experience of infertility and how to help guide patients through the process. Mary P. Riddle, PhD, The Pennsylvania State University, World Campus --

What He Can Expect When She's Not

Expecting-Marc Sedaka 2011-03-08 A comedy writer who, along with his wife, has experienced every stage of fertility treatment joins with a top infertility doctor to provide a helpful guide for

men who are dealing with fertility issues. Original. 10,000 first printing.

Conquering Infertility-Alice D. Domar

2004-02-01 A comprehensive guide to overcoming infertility shows women how to work their way through the medical options and deal with the psychological implications of this common condition. Reprint. 35,000 first printing.

Managing the Stress of Infertility-Carol

Fulwiler Jones 2012-02-01 Are You In Treatment For Infertility? Do you get upset when you attend baby showers or go to malls full of baby strollers and pregnant women? Do you feel like crying when friends or family ask a question like, "Are you still trying to get pregnant?" Do you wish your husband would be more supportive and take a more active role in your fertility and conception treatments? Are you spending too much time worrying about becoming pregnant? Do you feel like your body has betrayed you every time you start your period? Do you feel helpless, powerless, and out of control? This Book Will Help You: • Manage Your Emotions • Get Your Husband To Be More Supportive And Involved • Deal With Painful Social Situations • Ease Your Frustrations • Regain A Sense Of Control.

If at First You Don't Conceive-William

Schoolcraft 2010-03-16 More than 7.3 million women in the United States are unable to have children because of infertility challenges, according to the American Society for Reproductive Medicine. Women and men diagnosed with infertility often feel overwhelmed and panicked; they are eager for accessible

information and medically sound guidance. In this breakthrough book, Dr. Schoolcraft, one of the most renowned fertility specialists, offers hope to prospective parents by explaining what they need to know, including: • choosing the right physician and clinic • finding proven treatments for each condition • dealing with the emotional challenges of infertility • understanding the financial aspects of treatment

If at First You Don't Conceive offers the latest information in the key areas of fertility drugs, insemination, in vitro fertilization, male infertility treatments, fertility options for cancer patients, and much more. It saves millions of hopeful parents from suffering and confusion by allowing them to become their own best advocates in the fight for fertility.

When the Cradle is Empty-John Van Regenmorter 2004 With wisdom, compassion, and sound biblical advice, this comprehensive guide helps couples who are experiencing infertility explore their options, get the medical help they need, deal with pressures from family and friends, and protect their marriage.

Cracked Open-Miriam Zoll 2013-05-17 A WOMAN'S BATTLE WITH THE BILLION-DOLLAR BABY BUSINESS Cracked Open is Miriam Zoll's eye-opening account of growing into womanhood with the simultaneous opportunities and freedoms afforded by the U.S. women's movement and new discoveries in reproductive technologies. Influenced by the pervasive media and cultural messages suggesting that science had eclipsed Mother Nature, Zoll--like millions of women around the world--postpones marriage and motherhood. She embarks on an exciting career, travels the globe, and eventually marries in her mid-30s. By 40, she has finally overcome her fears of being an unfit mother and is ready to embrace motherhood but nature does not cooperate. In accordance with the times, she and her husband sign up for fertility treatments but neither one is prepared for the science-fiction world they have entered; a world full of medical seduction, capitalist conception and bioethical quagmires. Desperate to conceive, they turn into fertility junkies drawn into the cold, sterile world of the laboratory, where they increasingly find themselves disconnected from nature, their values, and each other. Eventually, they realize that the unregulated multi-billion-dollar U.S. fertility

industry has promised her and millions of other couples far more than it can deliver.

Healing Mind, Healthy Woman-Alice D. Domar 1997-08 Outlines techniques for relieving stress, infertility, eating disorders, and other conditions

Infertility and PTSD-Joanna Flemons 2018-04-27 Infertility affects one in eight couples, causing widespread grief, anxiety, and stress affecting both men and women. One-third of infertility is attributed to male factor; another one-third to female factor; and the remainder from both and unexplained factors. Increasingly, research indicates that certain experiences during infertility can trigger or exacerbate posttraumatic stress disorder. PTSD alters how people view themselves, the world, and their future. Insomnia, flashbacks, acute anxiety, avoidance, triggers, and other symptoms of PTSD create significant physical and psychological challenges to manage, in addition to the everyday complexities of infertility. No book can replace the help of a qualified trauma counselor, but Infertility and PTSD offers validation, explanation, and a roadmap for those suffering. Trauma-informed therapist Joanna Flemons explains the complex relationship between PTSD and infertility, and offers proven techniques and strategies for reducing trauma symptoms and loosening the powerful grip of PTSD. An insightful examination of a complex issue only just being recognized, Infertility and PTSD is an invaluable aid for men and women experiencing infertility-triggered PTSD and for family and friends who want to help them navigate what seems like an uncharted storm.

On Fertile Ground-Peter Thorpe ELLISON 2009-06-30 Reproduction is among the most basic of human biological functions, both for our distant ancestors and for ourselves, whether we live on the plains of Africa or in North American suburbs. Our reproductive biology unites us as a species, but it has also been an important engine of our evolution. In the way our bodies function today we can see both the imprint of our formative past and implications for our future. It is the infinitely subtle and endlessly dramatic story of human reproduction and its evolutionary context that Peter T. Ellison tells in On Fertile Ground. Ranging from the latest achievements of

modern fertility clinics to the lives of subsistence farmers in the rain forests of Africa, this book offers both a remarkably broad and a minutely detailed exploration of human reproduction. Ellison, a leading pioneer in the field, combines the perspectives of anthropology, stressing the range and variation of human experience; ecology, sensitive to the two-way interactions between humans and their environments; and evolutionary biology, emphasizing a functional understanding of human reproductive biology and its role in our evolutionary history. Whether contrasting female athletes missing their periods and male athletes using anabolic steroids with Polish farm women and hunter-gatherers in Paraguay, or exploring the intricate choreography of an implanting embryo or of a nursing mother and her child, *On Fertile Ground* advances a rich and deeply satisfying explanation of the mechanisms by which we reproduce and the evolutionary forces behind their design.

Women's Reproductive Mental Health Across the Lifespan-Diana Lynn Barnes

2014-05-30 "In this book you'll find a thoughtfully edited chronicle of the unique convergence of genetic, hormonal, social, and environmental forces that influence a woman's mental health over the course of her life. Both comprehensive and nuanced, *Women's Reproductive Mental Health Across the Lifespan* captures the science, clinical observation, and collective wisdom of experts in the field. Professionals and laypersons alike are well-advised to make room on their bookshelves for this one!" - Margaret Howard, Ph.D., Warren Alpert Medical School of Brown University; Women & Infants Hospital, Providence RI "This outstanding collection of work is an important, timely, and much needed resource. Dr. Diana Lynn Barnes has been instrumental in bringing attention to the needs of perinatal women for decades. In *Women's Reproductive Health Across the Lifespan*, she brilliantly unites the medical world of reproductive life events with the psychiatric and psychological world of mental health issues associated with them. Her expertise, combined with contributions by distinguished leaders in the field, create a volume of work that should be studied carefully by every medical and mental health provider who works with women." - Karen Kleiman, MSW, The Postpartum Stress Center, Author of *Therapy and the Postpartum Woman* "Finally, a book that addresses the entire scope of women's

reproductive mental health spanning the gamut from puberty to menopause. The list of chapter contributors reads like a who's who of international experts. Unique to this book is its focus on the interaction of genetics, hormonal fluctuations, and the social environment. It is a must addition for the libraries of clinicians and researchers in women's reproductive mental health". - Cheryl Tatano Beck, DNSc, CNM, FAAN, Board of Trustees Distinguished Professor, School of Nursing, University of Connecticut Pregnancy and childbirth are generally viewed as joyous occasions. Yet for numerous women, these events instead bring anxiety, depression, and emotional distress. Increased interest in risk reduction and early clinical intervention is bringing reproductive issues to the forefront of women's mental health. The scope of *Women's Reproductive Mental Health across the Lifespan* begins long before the childbearing years, and continues well after those years have ended. Empirical findings, case examples, and dispatches from emerging areas of the field illuminate representative issues across the continuum of women's lives with the goal of more effective care benefitting women and their families. Chapter authors discuss advances in areas such as fertility treatment and contraception, and present current thinking on the psychological impact of pregnancy loss, menopause, cancer, and other stressors. These expert contributors emphasize the connections between an individual's biology and psychology and cultural expectations in shaping women's mental health, and the balance between a client's unique history and current clinical knowledge clinicians need to address disorders. Included in the coverage: The experience of puberty and emotional wellbeing. Body image issues and eating disorders in the childbearing years. Risk assessment and screening during pregnancy. Normal and pathological postpartum anxiety. Mood disorders and the transition to menopause. The evolution of reproductive psychiatry. A reference with an extended shelf life, *Women's Reproductive Mental Health across the Lifespan* enhances the work of researchers and practitioners in social work, clinical psychology, and psychiatry, and has potential relevance to all health care professionals.

American Babies-Elizabeth Ann Reedy 2007

This volume explores the history of babies in the United States from 1900 to the present, covering such issues as attitudes toward babies and

significant advances in the health of babies.

Pathways to Pregnancy-Mary Wong 2016-09-13
Pathways to Pregnancy is a collection of wide-ranging and relatable stories, shared by an expert who also knows first-hand the pain and joy of the fertility journey from her own experience. Instructional and inspirational to anyone going through it or seeking to understand it deeply and in all its variations, these are real stories of hope and humor — and some practical advice that is often overlooked but easy to incorporate into your life. These stories about real women, related by Mary Wong with both compassion and authority, retain many of the subjects' own words and particular perspectives. Through their stories, Mary explains the central principles of fertility treatment by both Traditional Chinese Medicine practitioners and Western doctors. Each story focuses on a set of archetypal challenges or life situations found in patients seeking fertility treatment. In this way, the book serves as a comprehensive examination of the spectrum of infertility experience, expressed through the lens of highly personal anecdotes and intimate experiences.

The Fire by Night-Teresa Messineo 2017-01-17
A powerful and evocative debut novel about two American military nurses during World War II that illuminates the unsung heroism of women who risked their lives in the fight—a riveting saga of friendship, valor, sacrifice, and survival combining the grit and selflessness of Band of Brothers with the emotional resonance of The Nightingale. In war-torn France, Jo McMahan, an Italian-Irish girl from the tenements of Brooklyn, tends to six seriously wounded soldiers in a makeshift medical unit. Enemy bombs have destroyed her hospital convoy, and now Jo singlehandedly struggles to keep her patients and herself alive in a cramped and freezing tent close to German troops. There is a growing tenderness between her and one of her patients, a Scottish officer, but Jo's heart is seared by the pain of all she has lost and seen. Nearing her breaking point, she fights to hold on to joyful memories of the past, to the times she shared with her best friend, Kay, whom she met in nursing school. Half a world away in the Pacific, Kay is trapped in a squalid Japanese POW camp in Manila, one of thousands of Allied men, women, and children whose fates rest in the hands of a sadistic enemy. Far from the familiar

safety of the small Pennsylvania coal town of her childhood, Kay clings to memories of her happy days posted in Hawaii, and the handsome flyer who swept her off her feet in the weeks before Pearl Harbor. Surrounded by cruelty and death, Kay battles to maintain her sanity and save lives as best she can . . . and live to see her beloved friend Jo once more. When the conflict at last comes to an end, Jo and Kay discover that to achieve their own peace, they must find their place—and the hope of love—in a world that's forever changed. With rich, superbly researched detail, Teresa Messineo's thrilling novel brings to life the pain and uncertainty of war and the sustaining power of love and friendship, and illuminates the lives of the women who risked everything to save others during a horrifying time.

Stanford- 2008

The Cue for Passion-Gail Holst-Warhaft 2000
Having set aside age-old ways of mourning, how do people in the modern world cope with tragic loss? Using traditional mourning rituals as an instructive touchstone, Gail Holst-Warhaft explores the ways sorrow is managed in our own times and how mourning can be manipulated for social and political ends. Since ancient times political and religious authorities have been alert to the dangerously powerful effects of communal expressions of grief--while valuing mourning rites as a controlled outlet for emotion. But today grief is often seen as a psychological problem: the bereaved are encouraged to seek counseling or take antidepressants. At the same time, we have witnessed some striking examples of manipulation of shared grief for political effect. One instance is the unprecedented concentration on recovery of the remains of Americans killed in the Vietnam War. In Buenos Aires the Mothers of the Disappeared forged the passion of their grief into a political weapon. Similarly the gay community in the United States, transformed by grief and rage, not only lobbied effectively for AIDS victims but channeled their emotions into fresh artistic expression. It might be argued that, in contrast to earlier cultures, modern society has largely abdicated its role in managing sorrow. But in *The Cue for Passion* we see that some communities, moved by the intensity of their grief, have utilized it to gain ground for their own agendas.

Blue Kansas Sky-Michael Bishop 2013-08-29
Blue Kansas Sky spans the past and future with a collection of the author's four short novels, including a coming-of-age tale set in Kansas in the late 1950s, an apartheid story from 1980s South Africa, and a twenty-first century spaceship adventure.

Library Journal- 2005

Ever Upward-Justine Brooks Froelker 2015-04-07 "When are you having kids?" "Why don't you just adopt?" These innocent, well-meaning questions everyone asks couples, especially women of a certain age. To those 1 in 8 couples who undergo infertility treatments, these questions do not feel at all innocent or well-meaning, but invalidating to the battle they're fighting and the difficulty and pain involved in the adoption process. "Ever Upward" is Justine Froelker's surprising story of triumph over terrible luck. This is the story of how Justine redefined her childless life and learned to be okay, whole and happy with a full childfree life. "Ever Upward" is a story that resonates with many: a story of pain, struggle, recovery, triumph and acceptance. Ever Upward fills the current gap on the infertility bookshelf, providing a voice to those silenced by infertility, opening the conversation to the other side asking for understanding and acceptance of the path that sadly doesn't include children; challenging us all to consider more than one happy ending. "Ever Upward" is Justine's story, and yet it is every woman's story, mother or not, because behind the wall of shamed silence, the smile and "I can do everything" attitude lies millions of women suffering with the pain of infertility. Join Justine as she shows us that the connection to our stories is the only way back to the truth of who we are.

Everyone Eats-E. N. Anderson 2014-02-07
Everyone eats, but rarely do we investigate why we eat what we eat. Why do we love spices, sweets, coffee? How did rice become such a staple food throughout so much of eastern Asia? Everyone Eats examines the social and cultural reasons for our food choices and provides an explanation of the nutritional reasons for why humans eat what they do, resulting in a unique cultural and biological approach to the topic. E.

N. Anderson explains the economics of food in the globalization era; food's relationship to religion, medicine, and ethnicity; and offers suggestions on how to end hunger, starvation, and malnutrition. This thoroughly updated Second Edition incorporates the latest food scholarship, most notably recognizing the impact of sustainable eating advocacy and the state of food security in the world today. Anderson also brings more insight than ever before into the historical and scientific underpinnings of our food customs, fleshing this out with fifteen new and original photographs from his own extensive fieldwork. A perennial classic in the anthropology of food, Everyone Eats feeds our need to understand human ecology by explaining the ways that cultures and political systems structure the edible environment.

Taking Charge of Your Fertility-Toni Weschler 2015-07-14 This new edition for the twentieth anniversary of the groundbreaking national bestseller provides all the information you need to monitor your menstrual cycle—along with updated information on the latest reproductive technologies Are you unhappy with your current method of birth control? Or demoralized by your quest to have a baby? Do you experience confusing signs and symptoms at various times in your cycle? This invaluable resource provides the answers to your questions while giving you amazing insights into your body. Taking Charge of Your Fertility has helped literally hundreds of thousands of women avoid pregnancy naturally, maximize their chances of getting pregnant, or simply gain better control of their gynecological and sexual health. Toni Weschler thoroughly explains the empowering Fertility Awareness Method (FAM), which in only a couple of minutes a day allows you to: Enjoy highly effective and scientifically proven birth control without chemicals or devices Maximize your chances of conception before you see a doctor or resort to invasive high-tech options Expedite your fertility treatment by quickly identifying impediments to pregnancy achievement Gain control and a true understanding of your gynecological and sexual health This new edition includes: A fully revised and intuitive charting system A selection of personalized master charts for birth control, pregnancy achievement, breastfeeding, and menopause An expanded sixteen-page color insert that reflects the book's most important concepts Six brand-new chapters on topics including balancing hormones naturally,

preserving your future fertility, and three medical conditions all women should be aware of

The Unbearable Lightness of Being-Milan Kundera 2004-05-04 When *The Unbearable Lightness of Being* was first published in English, it was hailed as "a work of the boldest mastery, originality, and richness" by critic Elizabeth Hardwick and named one of the best books of 1984 by the *New York Times Book Review*. It went on to win the *Los Angeles Times Book Prize for Fiction* and quickly became an international bestseller. Twenty years later, the novel has established itself as a modern classic. To commemorate the anniversary of its first English-language publication, HarperCollins is proud to offer a special hardcover edition. A young woman in love with a man torn between his love for her and his incorrigible womanizing; one of his mistresses and her humbly faithful lover -- these are the two couples whose story is told in this masterful novel. Controlled by day, Tereza's jealousy awakens by night, transformed into ineffably sad death-dreams, while Tomas, a successful surgeon, alternates loving devotion to the dependent Tereza with the ardent pursuit of other women. Sabina, an independent, free-spirited artist, lives her life as a series of betrayals -- of parents, husband, country, love itself -- whereas her lover, the intellectual Franz, loses all because of his earnest goodness and fidelity. In a world in which lives are shaped by irrevocable choices and by fortuitous events, a world in which everything occurs but once, existence seems to lose its substance, its weight. Hence we feel, says the novelist, "the unbearable lightness of being" -- not only as the consequence of our private acts but also in the public sphere, and the two inevitably intertwine. This magnificent novel encompasses the extremes of comedy and tragedy, and embraces, it seems, all aspects of human existence. It juxtaposes geographically distant places (Prague, Geneva, Paris, Thailand, the United States, a forlorn Bohemian village); brilliant and playful reflections (on "eternal return," on kitsch, on man and animals -- Tomas and Tereza have a beloved dog named Karenin); and a variety of styles (from the farcical to the elegiac) to take its place as perhaps the major achievement of one of the world's truly great writers.

Cilka's Journey-Heather Morris 2019-10-01
From the author of the multi-million copy

bestseller *The Tattooist of Auschwitz* comes a new novel based on a riveting true story of love and resilience. Her beauty saved her — and condemned her. Cilka is just sixteen years old when she is taken to Auschwitz-Birkenau Concentration Camp in 1942, where the commandant immediately notices how beautiful she is. Forcibly separated from the other women prisoners, Cilka learns quickly that power, even unwillingly taken, equals survival. When the war is over and the camp is liberated, freedom is not granted to Cilka: She is charged as a collaborator for sleeping with the enemy and sent to a Siberian prison camp. But did she really have a choice? And where do the lines of morality lie for Cilka, who was sent to Auschwitz when she was still a child? In Siberia, Cilka faces challenges both new and horribly familiar, including the unwanted attention of the guards. But when she meets a kind female doctor, Cilka is taken under her wing and begins to tend to the ill in the camp, struggling to care for them under brutal conditions. Confronting death and terror daily, Cilka discovers a strength she never knew she had. And when she begins to tentatively form bonds and relationships in this harsh, new reality, Cilka finds that despite everything that has happened to her, there is room in her heart for love. From child to woman, from woman to healer, Cilka's journey illuminates the resilience of the human spirit—and the will we have to survive.

Japanoise-David Novak 2013-06-03 Drawing on more than a decade of research in Japan and the United States, David Novak traces the "cultural feedback" that generates and sustains Noise, an underground music genre combining distortion and electronic effects.

Boost Your Fertility- 2009 Presents an 8-step integrative approach for getting and staying pregnant, which focuses on nutrition, lifestyle, removing environmental toxins, and medical screening. Women's health expert Dr. Glennville outlines in detail what may be hindering pregnancy, what you and your partner should be tested for and when, and how to tailor the program to you based on particular factors such as age, medical history, and lifestyle.--From publisher description.

Voices of the Poor-Deepa Narayan-Parker

1997-01-01 Poverty, Social Capital, and Survey Methodology; What Is Poverty?; Inflation, Price Trends, and Coping Strategies; Gender Perspective: Development for Whom?; Constraints on Agricultural Productivity; Social Capital; Credit and Savings.

Japrock sampler-Julian Cope 2016-05-19 Julian Cope, eccentric and visionary rock musician, follows the runaway underground success of his book *Krautrock sampler* with *Japrock sampler*, a cult deconstruction of Japanese rock music, and reveals what really happened when East met West after World War Two. It explores the clash between traditional, conservative Japanese values and the wild rock 'n' roll renegades of the 1960s and 70s, and tells of the seminal artists in Japanese post-war culture, from itinerant art-house poets to violent refusenik rock groups with a penchant for plane hijacking.

Resilient Russian Women in the 1920s & 1930s-Marcelline Hutton 2015-07 The stories of Russian educated women, peasants, prisoners, workers, wives, and mothers of the 1920s and 1930s show how work, marriage, family, religion, and even patriotism helped sustain them during harsh times. The Russian Revolution launched an economic and social upheaval that released peasant women from the control of traditional extended families. It promised urban women equality and created opportunities for employment and higher education. Yet, the revolution did little to eliminate Russian patriarchal culture, which continued to undermine women's social, sexual, economic, and political conditions. Divorce and abortion became more widespread, but birth control remained limited, and sexual liberation meant greater freedom for men than for women. The transformations that women needed to gain true equality were postponed by the poverty of the new state and the political agendas of leaders like Lenin, Trotsky, and Stalin.

Voices of the Poor- 2000 El libro recoge la voz de más de 40.000 personas pobres de 50 países y es la primera parte de la serie denominada la voz de los pobres para este estudio se utilizan métodos participatorios y cualitativos de investigación y presenta de manera muy directa a través de la propia voz de las personas pobres, las realidades de su vida. La mayoría considera

que está en peores condiciones y tiene más inseguridad que antes.

Not Pregnant-Cathie Quillet 2016-11-08 Maybe you have suffered a miscarriage. Maybe you have been told you cannot have children. Maybe you have followed every bit of advice from every doctor and self-help book, but you still aren't seeing that pink plus sign. Many women face the disheartening struggle of infertility in silence. Between the feelings of shame, the strain on marriages, and the loads of money spent on medicines and failed procedures, they don't want to admit what they often see as a personal flaw: that they cannot bear children. After four miscarriages and years of infertility, Cathie Quillet felt stuck and alone in her negative emotions. In *Not Pregnant*, Quillet offers a place for women who are experiencing infertility to come together, validate their emotions, and let go of their pain. This motivational and comforting book addresses infertility's effects on sex and marriage, handling the public's general ignorance about infertility, miscarriages, the plethora of emotions experienced, hormonal changes with fertility medications, and how to move on with your life. With real stories from women who have been there and an added scientific perspective from ob-gyn Dr. Shannon Sutherland, *Not Pregnant* is the emotional companion you need when it seems like no one else gets it. "

High-tech Babies-Kathleen Winkler 2006 Discusses infertility and treatments for conception.

Life Histories of Ethnos Theory in Russia and Beyond-David G. Anderson 2019-02-25 The idea of ethnos came into being over a hundred years ago as a way of understanding the collective identities of people with a common language and shared traditions. In the twentieth century, the concept came to be associated with Soviet state-building, and it fell sharply out of favour. Yet outside the academy, ethnos-style arguments not only persist, but are a vibrant part of regional anthropological traditions. *Life Histories of Ethnos Theory in Russia and Beyond* makes a powerful argument for reconsidering the importance of ethnos in our understanding of ethnicity and national identity across Eurasia. The collection brings to life a rich archive of previously

unpublished letters, fieldnotes, and photographic collections of the theory's early proponents. Using contemporary fieldwork and case studies, the volume shows how the ideas of these ethnographers continue to impact and shape identities in various regional theatres from Ukraine to the Russian North to the Manchurian steppes of what is now China. Through writing a life history of these collectivist concepts, the contributors to this volume unveil a world where the assumptions of liberal individualism do not hold. In doing so, they demonstrate how notions of belonging are not fleeting but persistent, multi-generational, and bio-social. This collection is essential reading for anyone interested in Russian and Chinese area studies. It will also appeal to historians and students of anthropology and ethnography more generally.

Lord Dismiss Us-Michael Campbell 1968

It Starts with the Egg-Rebecca Fett 2019-02-28

A practical and evidence-backed approach for improving egg quality and fertility— fully revised and updated in 2019. The latest scientific research reveals that egg quality has a powerful impact on how long it takes to get pregnant and the risk of miscarriage. Poor egg quality is in fact the single most important cause of age-related infertility, recurrent miscarriage, and failed IVF cycles. Based on a vast array of scientific research, *It Starts with the Egg* provides a comprehensive program for improving egg quality in three months, with specific advice tailored to a variety of fertility challenges—including endometriosis, unexplained infertility, diminished ovarian reserve, PCOS, and recurrent miscarriage. With concrete strategies such as minimizing exposure to common toxins, choosing the right vitamins and supplements to safeguard developing eggs, and harnessing nutritional advice shown to boost IVF success rates, this book offers practical solutions that will help you get pregnant faster and deliver a healthy baby.

Book Review Index- 2006 Every 3rd issue is a quarterly cumulation.

Get A Life-Rosie Bray 2015-07-02 Richard and Rosie started trying to conceive after five years of being together but, two and a half years and countless prenatal vitamins and ovulation kits

later, there hadn't been even a phantom pregnancy. So began their adventure into IVF, via blood tests, sperm tests, injections and probes, becoming involuntary experts on embryology through failure, despair, persistence and success. After 4 years, 3 different clinics, 2 positive pregnancy tests and 1 miscarriage, they finally had a successful pregnancy. *GET A LIFE* is the perfect down-to-earth guide for anyone thinking of embarking on fertility treatment. It's two books in one, a book of advice for women and a survival guide for men, each chapter mirrored but with very different experience and advice. IVF is terrifying, awful and extraordinary in equal measures for both partners. *GET A LIFE* shares Richard and Rosie's ride on the fertility roller coaster, bringing you the funny, emotional and physical sides of IVF. It is an invaluable guide from both perspectives on how to get through the process in one piece.

Men Coping with Grief-Dale A. Lund 2000 The adjustment process is multidimensional in that grief can affect nearly every aspect of a person's life including emotions, identity, social interactions and relationships, spirituality, intimacy and sexuality, work productivity, health, and even mortality. The chapter authors have expertise in history, philosophy, journalism, poetry, sociology, psychology, anthropology, social work, nursing, health education, gerontology, religious studies and business. They represent professionals in academics, research, clinical service, business, the clergy, and many more.

The Home Book of Verse (Complete)-Burton Egbert Stevenson 1915

After the Affair-Janis A. Spring 2008-07-08 *After the Affair* teaches partners how to heal themselves and grow from the shattering crisis of an infidelity. Drawing on thirty-five years as a clinical psychologist, Dr. Spring offers a series of original and proven strategies that address such questions as: Why did it happen? Once love and trust are gone, can we ever get them back? Can I—should I—recommit when I feel so ambivalent? How do we become sexually intimate again? Is forgiveness possible? What constitutes an affair in cyberspace?
